Foreword	ix
Preface	xi
1 Examples of Control Problems	1
1.1 Introduction	1
1.2 A Problem of Production Planning	1
1.3 Chemical Engineering	3
1.4 Flight Mechanics	4
1.5 Electrical Engineering	7
1.6 The Brachistochrone Problem	9
1.7 An Optimal Harvesting Problem	12
1.8 Vibration of a Nonlinear Beam	13
2 Formulation of Control Problems	15
2.1 Introduction	15
2.2 Formulation of Problems Governed by Ordinary Differential Equations	15
2.3 Mathematical Formulation	18
2.4 Equivalent Formulations	22
2.5 Isoperimetric Problems and Parameter Optimization	26
2.6 Relationship with the Calculus of Variations	27
2.7 Hereditary Problems	32
3 Relaxed Controls	35
3.1 Introduction	35
3.2 The Relaxed Problem; Compact Constraints	38
3.3 Weak Compactness of Relaxed Controls	43
3.4 Filippov's Lemma	56
3.5 The Relaxed Problem; Non-Compact Constraints	63
3.6 The Chattering Lemma; Approximation to Relaxed Controls	66

4	Existence Theorems; Compact Constraints	79
4.1	Introduction	79
4.2	Non-Existence and Non-Uniqueness of Optimal Controls	80
4.3	Existence of Relaxed Optimal Controls	83
4.4	Existence of Ordinary Optimal Controls	92
4.5	Classes of Ordinary Problems Having Solutions	98
4.6	Inertial Controllers	101
4.7	Systems Linear in the State Variable	103
5	Existence Theorems; Non-Compact Constraints	113
5.1	Introduction	113
5.2	Properties of Set Valued Maps	114
5.3	Facts from Analysis	117
5.4	Existence via the Cesari Property	122
5.5	Existence Without the Cesari Property	139
5.6	Compact Constraints Revisited	145
6	The Maximum Principle and Some of Its Applications	149
6.1	Introduction	149
6.2	A Dynamic Programming Derivation of the Maximum Principle	150
6.3	Statement of Maximum Principle	159
6.4	An Example	173
6.5	Relationship with the Calculus of Variations	177
6.6	Systems Linear in the State Variable	182
6.7	Linear Systems	186
6.8	The Linear Time Optimal Problem	192
6.9	Linear Plant-Quadratic Criterion Problem	193
7	Proof of the Maximum Principle	205
7.1	Introduction	205
7.2	Penalty Proof of Necessary Conditions in Finite Dimensions	207
7.3	The Norm of a Relaxed Control; Compact Constraints	210
7.4	Necessary Conditions for an Unconstrained Problem	212
7.5	The ε -Problem	218
7.6	The ε -Maximum Principle	223
7.7	The Maximum Principle; Compact Constraints	228
7.8	Proof of Theorem 6.3.9	234
7.9	Proof of Theorem 6.3.12	238
7.10	Proof of Theorem 6.3.17 and Corollary 6.3.19	240

7.11	Proof of Theorem 6.3.22	244
8	Examples	249
8.1	Introduction	249
8.2	The Rocket Car	249
8.3	A Non-Linear Quadratic Example	255
8.4	A Linear Problem with Non-Convex Constraints	257
8.5	A Relaxed Problem	259
8.6	The Brachistochrone Problem	262
8.7	Flight Mechanics	267
8.8	An Optimal Harvesting Problem	273
8.9	Rotating Antenna Example	276
9	Systems Governed by Integrodifferential Systems	283
9.1	Introduction	283
9.2	Problem Statement	283
9.3	Systems Linear in the State Variable	285
9.4	Linear Systems/The Bang-Bang Principle	287
9.5	Systems Governed by Integrodifferential Systems	287
9.6	Linear Plant Quadratic Cost Criterion	288
9.7	A Minimum Principle	289
10	Hereditary Systems	295
10.1	Introduction	295
10.2	Problem Statement and Assumptions	295
10.3	Minimum Principle	296
10.4	Some Linear Systems	298
10.5	Linear Plant-Quadratic Cost	300
10.6	Infinite Dimensional Setting	300
	10.6.1 Approximate Optimality Conditions	302
	10.6.2 Optimality Conditions	304
11	Bounded State Problems	305
11.1	Introduction	305
11.2	Statement of the Problem	305
11.3	ϵ -Optimality Conditions	306
11.4	Limiting Operations	316
11.5	The Bounded State Problem for Integrodifferential Systems	320
11.6	The Bounded State Problem for Ordinary Differential Systems	322
11.7	Further Discussion of the Bounded State Problem	326
11.8	Sufficiency Conditions	329

11.9 Nonlinear Beam Problem	332
12 Hamilton-Jacobi Theory	337
12.1 Introduction	337
12.2 Problem Formulation and Assumptions	338
12.3 Continuity of the Value Function	340
12.4 The Lower Dini Derivate Necessary Condition	344
12.5 The Value as Viscosity Solution	349
12.6 Uniqueness	353
12.7 The Value Function as Verification Function	359
12.8 Optimal Synthesis	360
12.9 The Maximum Principle	366
Bibliography	371
Index	379
