

## P A R T I

### **GENERAL PRINCIPLES 1**

Lynn Wecker

- 1** Pharmacodynamics: Receptors and Concentration-Response Relationships 3
- 2** Pharmacokinetics: Absorption, Distribution, Metabolism, and Elimination 17
- 3** Clinical Pharmacokinetics and Issues in Therapeutics 29
- 4** Drug Development, Regulation, and Prescription Writing 43
- 5** Gene Therapy and Emerging Molecular Therapies 49
- 6** Antibodies and Biological Products 57
- 7** Herbals and Natural Products 74
- 8** Principles of Toxicology 82

## P A R T II

### **DRUGS AFFECTING THE PERIPHERAL NERVOUS SYSTEM AND THE SKELETAL AND SMOOTH MUSCLE 91**

Carl Faingold

- 9** Introduction to the Autonomic Nervous System 93
- 10** Drugs Affecting the Parasympathetic Nervous System and Autonomic Ganglia 107
- 11** Drugs Affecting the Sympathetic Nervous System 122
- 12** Skeletal Muscle Relaxants 138
- 13** Local Anesthetics 147
- 14** Histamine and Antihistamines 154

- 15** Prostaglandins and Other Eicosanoids 163

- 16** Drugs to Treat Asthma and Chronic Obstructive Pulmonary Disease 170

- 17** Drugs Affecting Uterine Motility 181

- 18** Drugs Affecting the Gastrointestinal System 191

## P A R T III

### **DRUGS AFFECTING THE CARDIOVASCULAR, RENAL, AND CIRCULATORY SYSTEMS 205**

Stephanie Watts

- 19** Introduction to the Regulation of Cardiovascular Function 207
- 20** Antihypertensive Drugs 213
- 21** Diuretic Drugs 226
- 22** Antiarrhythmic Drugs 242
- 23** Drugs to Treat Heart Failure 255
- 24** Vasodilators and Nitric Oxide Synthase 270
- 25** Lipid-Lowering Drugs and Atherosclerosis 278
- 26** Antithrombotic Drugs 292

## P A R T IV

### **DRUGS AFFECTING THE CENTRAL NERVOUS SYSTEM 303**

Lynn Wecker

- 27** Introduction to the Central Nervous System 305
- 28** Treatment of Parkinson's and Alzheimer's Diseases 317

- 29** Treatment of Psychotic Disorders 324
- 30** Treatment of Affective Disorders 332
- 31** Treatment of Anxiety and Insomnia 343
- 32** Ethanol, Other Alcohols, and Drugs for Alcohol Dependence 352
- 33** Treatment of Obesity and Eating Disorders 362
- 34** Treatment of Seizure Disorders 368
- 35** General Anesthetics 379
- 36** Drugs to Control Pain 391
- 37** Drugs and Substance Abuse, Addiction, and Treatment 410

## P A R T V

### **DRUGS AFFECTING ENDOCRINE SYSTEMS 425**

George Dunaway

- 38** Introduction to Endocrine Pharmacology and Hormones of the Hypothalamus and Pituitary Gland 427
- 39** Adrenocorticosteroids 442
- 40** Estrogens and Progestins 452
- 41** Androgens and Antiandrogens 466
- 42** Thyroid and Antithyroid Drugs 476
- 43** Insulin and Drugs Used in the Therapy of Diabetes Mellitus 483
- 44** Calcium-Regulating Hormones and Other Agents Affecting Bone 500

## P A R T VI

### **CHEMOTHERAPY OF INVADING ORGANISMS 509**

Lynn M. Crespo

- 45** Principles of Antimicrobial Use 511
- 46** Bacterial Cell Wall Synthesis Inhibitors 528
- 47** Inhibitors of Bacterial Ribosomal Actions 543
- 48** Bacterial Folate Antagonists, Fluoroquinolones, and Other Antibacterial Agents 561
- 49** Antimycobacterial Agents 571
- 50** Antifungal Agents 583
- 51** Antiviral Agents 593
- 52** Drugs to Treat Parasitic Infections 607

## P A R T VII

### **CHEMOTHERAPY OF NEOPLASTIC DISEASES 619**

Lynn M. Crespo

- 53** Principles of Antineoplastic Drug Use 621
- 54** Mechanisms of Action of Antineoplastic Drugs 627
- 55** Adjuvant Antineoplastic Drugs 640

Appendix: Answers to Self-Assessment Questions 647

Index 659
