

Contents

<i>Preface</i>	<i>vii</i>
1. Introduction	1
• Nanotechnology • History of Nanotechnology • Nanomaterials • Carbon Nanotube	
2. Environmental Impact of Nanotechnology	58
• Nanopollution • Environmental Benefits of Nanotechnology • Energy Applications of Nanotechnology • Nanofiltration • Nanotechnology in Water Treatment • Groundwater Remediation Applications of Nanotechnology	
3. Green Nanotechnology	74
• Goals • Current Research • Industrial Applications of Nanotechnology • Regulation of Nanotechnology • Impact of Nanotechnology • Nanobiotechnology • Nanobiomechanics • Molecular Nanotechnology • Auger Architectomics • Precision Agriculture • Precision Viticulture	
4. Precision Livestock Farming	136
• Goals • Tools • Value Chain • Vertical Farming • Fuel Cell • Artificial Photosynthesis	
5. Photocatalytic Water Splitting	185
• Concepts • Method of Evaluation • Photocatalyst Systems • Photoelectrochemical Cell • Carbon Footprint • Nanometrology • Nanoparticle	
6. Turning to Nanotechnology for Pollution Control: Applications of Nanoparticles	220
• Nanotechnology and Pollution Control • Nanotechnology in Agriculture • Quantum Dot • Nanoparticles and Recycling Agricultural Waste	

7. Societal Impact of Nanotechnology	234
• Possible Military Applications • Health Impact of Nanotechnology • Toxicology of Nanoparticles • Effect of Aggregation or Agglomeration of Nanoparticles • Nanomedicine • Medical Applications of Molecular Nanotechnology • Nanonephrology	
8. Impact of Nanotechnology on Biomedical Sciences	262
• Recent Developments • Nano-DNA Technology • Nanobiotechnology in High-Throughput Single Nucleotide Polymorphism Analysis • Nanoparticles as Biomarkers • Nanotechnology in Measurements of Dissolved Oxygen • The Role of Nanotechnologies in Development and Poverty Alleviation: A Matter of Controversy • Nanotechnology for a Brighter and More Sustainable Future • Nanotechnology: Advancing Environmental Protection by Addressing Long-Term Sustainability of Resources and Resource Systems	
<i>Bibliography</i>	293
