De	emand and Supply Analysis: Introduction	1
	Learning Outcomes	1
	Introduction	2
	Types of Markets	3
3.	Basic Principles and Concepts	4
	3.1. The Demand Function and the Demand Curve	5 7
	3.2. Changes in Demand versus Movements along the Demand Curve	
	3.3. The Supply Function and the Supply Curve 3.4. Changes in Supply versus Movements along the Supply Curve	10
	<ul><li>3.4. Changes in Supply versus Movements along the Supply Curve</li><li>3.5. Aggregating the Demand and Supply Functions</li></ul>	11
	3.6. Market Equilibrium	13
	3.7. The Market Mechanism: Iterating toward Equilibrium—or Not	17 19
	3.8. Auctions as a Way to Find Equilibrium Price	24
	3.9. Consumer Surplus—Value minus Expenditure	28
	3.10. Producer Surplus—Revenue minus Variable Cost	30
	3.11. Total Surplus—Total Value minus Total Variable Cost	32
	3.12. Markets Maximize Society's Total Surplus	32
	3.13. Market Interference: The Negative Impact on Total Surplus	34
4.	Demand Elasticities	40
	4.1. Own-Price Elasticity of Demand	41
	4.2. Own-Price Elasticity of Demand: Impact on Total Expenditure	46
	4.3. Income Elasticity of Demand: Normal and Inferior Goods	47
	4.4. Cross-Price Elasticity of Demand: Substitutes and Complements	48
	4.5. Calculating Demand Elasticities from Demand Functions	49
5.	Summary	51
	Practice Problems	53

			_

1. Introduction 2. Consumer Theory: From Preferences to Demand Functions 3. Utility Theory: Modeling Preferences and Tastes 3.1. Axioms of the Theory of Consumer Choice 3.2. Representing the Preference of a Consumer: The Utility Function 3.3. Indifference Curves: The Graphical Portrayal of the Utility Function 3.4. Indifference Curve Maps 3.5. Gains from Voluntary Exchange: Creating Wealth through Trade 4. The Opportunity Set: Consumption, Production, and Investment Choice 4.1. The Budget Constraint 4.2. The Production Opportunity Set 4.3. The Investment Opportunity Set 5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint 5.1. Determining the Consumer's Equilibrium Bundle of Goods 5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer's Demand Function 6.1. Consumer's Demand Function 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for a Normal Good 6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve 7. Summary Practice Problems  CCHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 133	Den	nand and Supply Analysis: Consumer Demand	59
1. Introduction 2. Consumer Theory: From Preferences to Demand Functions 3. Utility Theory: Modeling Preferences and Tastes 3.1. Axioms of the Theory of Consumer Choice 3.2. Representing the Preference of a Consumer: The Utility Function 3.3. Indifference Curves: The Graphical Portrayal of the Utility Function 3.4. Indifference Curve Maps 3.5. Gains from Voluntary Exchange: Creating Wealth through Trade 4. The Opportunity Set: Consumption, Production, and Investment Choice 4.1. The Budget Constraint 4.2. The Production Opportunity Set 4.3. The Investment Opportunity Set 5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint 5.1. Determining the Consumer's Equilibrium Bundle of Goods 5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer's Demand Function 6.1. Consumer's Demand Function 6.1. Consumer's Demand Function 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for a Normal Good 6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve 7. Summary Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 4.3. Summary 4.3. Summary 5.5. Consumer Summary 5.6. Summary 6.7. Summary 6.8. Summary 6.8. Summary 7. Summary 6.9. Summary		Learning Outcomes	59
3. Utility Theory: Modeling Preferences and Tastes 3.1. Axioms of the Theory of Consumer Choice 3.2. Representing the Preference of a Consumer: The Utility Function 3.3. Indifference Curves: The Graphical Portrayal of the Utility Function 3.4. Indifference Curve Maps 3.5. Gains from Voluntary Exchange: Creating Wealth through Trade 4. The Opportunity Set: Consumption, Production, and Investment Choice 4.1. The Budget Constraint 4.2. The Production Opportunity Set 4.3. The Investment Opportunity Set 5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint 5.1. Determining the Consumer's Equilibrium Bundle of Goods 5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve 7. Summary Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. 3.4. Indifference Curve Maps 3.5. Gains from Voluntary Exchange: Creating Wealth through Trade 4. The Opportunity Set: Consumption, Production, and Investment Choice 4.1. The Budget Constraint 4.2. The Production Opportunity Set 4.3. The Investment Opportunity Set 5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint 5.1. Determining the Consumer's Equilibrium Bundle of Goods 5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer Responds to Changes in Price 6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve 7. Summary Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 135		3.2. Representing the Preference of a Consumer: The Utility Function	62
3.4. Indifference Curve Maps 3.5. Gains from Voluntary Exchange: Creating Wealth through Trade 4. The Opportunity Set: Consumption, Production, and Investment Choice 4.1. The Budget Constraint 4.2. The Production Opportunity Set 4.3. The Investment Opportunity Set 5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint 5.1. Determining the Consumer's Equilibrium Bundle of Goods 5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer Responds to Changes in Price 6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve 7. Summary Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 135			63
4. The Opportunity Set: Consumption, Production, and Investment Choice 4.1. The Budget Constraint 4.2. The Production Opportunity Set 4.3. The Investment Opportunity Set 5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint 5.1. Determining the Consumer's Equilibrium Bundle of Goods 5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer Responds to Changes in Price 6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve 7. Summary Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 135			66
4.1. The Budget Constraint 4.2. The Production Opportunity Set 4.3. The Investment Opportunity Set 5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint 5.1. Determining the Consumer's Equilibrium Bundle of Goods 5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer Responds to Changes in Price 6. Revisiting the Consumer Responds to Changes in Price 6. Revisiting the Consumer Responds to Changes in Price 6. Revisiting the Consumer Responds to Changes in Price 6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve 7. Summary Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 135		3.5. Gains from Voluntary Exchange: Creating Wealth through Trade	66
4.2. The Production Opportunity Set 4.3. The Investment Opportunity Set 5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint 5.1. Determining the Consumer's Equilibrium Bundle of Goods 5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer Responds to Changes in Price 6. Revisiting the Consumer Responds to Changes in Price 6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve 7. Summary Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 135	4.	The Opportunity Set: Consumption, Production, and Investment Choice	70
4.3. The Investment Opportunity Set  5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint  5.1. Determining the Consumer's Equilibrium Bundle of Goods  5.2. Consumer Response to Changes in Income: Normal and Inferior Goods  5.3. How the Consumer Responds to Changes in Price  6. Revisiting the Consumer's Demand Function  6.1. Consumer's Demand Curve from Preferences and Budget Constraints  6.2. Substitution and Income Effects for a Normal Good  6.3. Income and Substitution Effects for an Inferior Good  6.4. Negative Income Effect Larger than Substitution Effect:     Giffen Goods  6.5. Veblen Goods: Another Possibility for a Positively Sloped     Demand Curve  7. Summary     Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes  1. Introduction  2. Objectives of the Firm  2.1. Types of Profit Measures  2.2. Comparison of Profit Measures  3. Analysis of Revenue, Costs, and Profits  3.1. Profit Maximization  3.2. Productivity  4. Summary  135		4.1. The Budget Constraint	70
5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint 5.1. Determining the Consumer's Equilibrium Bundle of Goods 5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer Responds to Changes in Price 6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve 7. Summary Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 135		4.2. The Production Opportunity Set	72
5.1. Determining the Consumer's Equilibrium Bundle of Goods 5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer Responds to Changes in Price 6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve 7. Summary Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 135		4.3. The Investment Opportunity Set	74
5.2. Consumer Response to Changes in Income: Normal and Inferior Goods 5.3. How the Consumer Responds to Changes in Price 6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect:     Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped     Demand Curve 7. Summary     Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 135	5.	Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint	75
Inferior Goods 5.3. How the Consumer Responds to Changes in Price 6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect:     Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped     Demand Curve 7. Summary     Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 135		5.1. Determining the Consumer's Equilibrium Bundle of Goods	75
Inferior Goods 5.3. How the Consumer Responds to Changes in Price 6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect:     Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped     Demand Curve 7. Summary     Practice Problems  CHAPTER 3  Demand and Supply Analysis: The Firm  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. Summary 135		5.2. Consumer Response to Changes in Income: Normal and	
6. Revisiting the Consumer's Demand Function 6.1. Consumer's Demand Curve from Preferences and Budget Constraints 6.2. Substitution and Income Effects for a Normal Good 6.3. Income and Substitution Effects for an Inferior Good 6.4. Negative Income Effect Larger than Substitution Effect:     Giffen Goods 6.5. Veblen Goods: Another Possibility for a Positively Sloped     Demand Curve 7. Summary     Practice Problems 87  CHAPTER 3  Demand and Supply Analysis: The Firm 89  Learning Outcomes 1. Introduction 2. Objectives of the Firm 2.1. Types of Profit Measures 2.2. Comparison of Profit Measures 3. Analysis of Revenue, Costs, and Profits 3.1. Profit Maximization 3.2. Productivity 4. CHAPTE The Fir	R 4 m and Market Structures
	ning Outcomes
1. Intro	
2. Anal	ysis of Market Structures
	Economists' Four Types of Structure
2.2.	Factors That Determine Market Structure
3. Perfe	ect Competition
	Demand Analysis in Perfectly Competitive Markets
3.2.	Supply Analysis in Perfectly Competitive Markets
3.3.	Optimal Price and Output in Perfectly Competitive
3.4.	Factors Affecting Long-Run Equilibrium in Perfectl
	Competitive Markets
4. Mon	opolistic Competition
4.1.	Demand Analysis in Monopolistically Competitive
4.2.	Supply Analysis in Monopolistically Competitive M
4.3.	Optimal Price and Output in Monopolistically Con

Γh	e Firm and Market Structures	143
	Learning Outcomes	143
1.	Introduction	143
2.	Analysis of Market Structures	144
	2.1. Economists' Four Types of Structure	144
	2.2. Factors That Determine Market Structure	146
3.	Perfect Competition	149
	3.1. Demand Analysis in Perfectly Competitive Markets	149
	3.2. Supply Analysis in Perfectly Competitive Markets	158
	3.3. Optimal Price and Output in Perfectly Competitive Markets	159
	3.4. Factors Affecting Long-Run Equilibrium in Perfectly	
	Competitive Markets	161
4.	Monopolistic Competition	163
	4.1. Demand Analysis in Monopolistically Competitive Markets	166
	4.2. Supply Analysis in Monopolistically Competitive Markets	166
	<ul><li>4.3. Optimal Price and Output in Monopolistically Competitive Markets</li><li>4.4. Factors Affecting Long-Run Equilibrium in Monopolistically</li></ul>	167
	Competitive Markets	168
5.	Oligopoly	169
	5.1. Demand Analysis and Pricing Strategies in Oligopoly Markets	169
	5.2. Supply Analysis in Oligopoly Markets	176
	5.3. Optimal Price and Output in Oligopoly Markets	178
	5.4. Factors Affecting Long-Run Equilibrium in Oligopoly Markets	178
6.	Monopoly	179
	6.1. Demand Analysis in Monopoly Markets	181
	6.2. Supply Analysis in Monopoly Markets	182
	6.3. Optimal Price and Output in Monopoly Markets	184
	6.4. Price Discrimination and Consumer Surplus	185
	6.5. Factors Affecting Long-Run Equilibrium in Monopoly Markets	187
7.	Identification of Market Structure	188
	7.1. Econometric Approaches	189
	7.2. Simpler Measures	189
8.	Summary	191

	PTER 5	
Ag	gregate Output, Prices, and Economic Growth	197
	Learning Outcomes	197
	Introduction	198
2.	Aggregate Output and Income	198
	2.1. Gross Domestic Product	200
	2.2. The Components of GDP	208

## CH A

	Learning Outcomes	197
1.	Introduction	198
2.	Aggregate Output and Income	198
	2.1. Gross Domestic Product	200
	2.2. The Components of GDP	208

2.3. GDP, National Income, Personal Income, and Personal	
Disposable Income	211
3. Aggregate Demand, Aggregate Supply, and Equilibrium	217
3.1. Aggregate Demand	217
3.2. Aggregate Supply	230
3.3. Shifts in Aggregate Demand and Supply	232
3.4. Equilibrium GDP and Prices	245
4. Economic Growth and Sustainability	256
4.1. The Production Function and Potential GDP	257
4.2. Sources of Economic Growth	259
4.3. Measures of Sustainable Growth	264
5. Summary	270
Practice Problems	273
CHAPTER 6	
Understanding Business Cycles	279
Learning Outcomes	279
1. Introduction	279
2. Overview of the Business Cycle	280
2.1. Phases of the Business Cycle	280
2.2. Resource Use through the Business Cycle	284
2.3. Housing Sector Behavior	292
2.4. External Trade Sector Behavior	293
3. Theories of the Business Cycle	294
3.1. Neoclassical and Austrian Schools	295
3.2. Keynesian and Monetarist Schools	296
3.3. The New Classical School	299
4. Unemployment and Inflation	303
4.1. Unemployment	304
4.2. Inflation	307
5. Economic Indicators	319
5.1. Popular Economic Indicators	320
5.2. Other Variables Used as Economic Indicators	325
6. Summary	327
Practice Problems	328
CHAPTER 7	
Monetary and Fiscal Policy	333
Learning Outcomes	333
1. Introduction	334
2. Monetary Policy	335
2.1. Money	336
2.2. Roles of Central Banks	348

2.3. Objectives of Monetary Policy	351
2.4. Contractionary and Expansionary Monetary Policies	
and the Neutral Rate	367
2.5. Limitations of Monetary Policy	369
3. Fiscal Policy	374
3.1. Roles and Objectives of Fiscal Policy	374
3.2. Fiscal Policy Tools and the Macroeconomy	382
3.3. Fiscal Policy Implementation: Active and Discretionary	
Fiscal Policy	388
4. The Relationship between Monetary and Fiscal Policy	392
4.1. Factors Influencing the Mix of Fiscal and Monetary Policy	393
4.2. Quantitative Easing and Policy Interaction	394
4.3. The Importance of Credibility and Commitment	395
5. Summary	396
Practice Problems	397
CHAPTER 8	
International Trade and Capital Flows	403
Learning Outcomes	403
1. Introduction	403
2. International Trade	404
2.1. Basic Terminology	404
2.2. Patterns and Trends in International Trade and Capital Flows	<b>40</b> 7
2.3. Benefits and Costs of International Trade	411
2.4. Comparative Advantage and the Gains from Trade	415
3. Trade and Capital Flows: Restrictions and Agreements	424
3.1. Tariffs	424
3.2. Quotas	427
3.3. Export Subsidies	427
3.4. Trading Blocs, Common Markets, and Economic Unions	430
3.5. Capital Restrictions	435
4. The Balance of Payments	436
4.1. Balance of Payments Accounts	438
4.2. Balance of Payments Components	438
4.3. Paired Transactions in the Balance of Payments	
Bookkeeping System	440
4.4. National Economic Accounts and the Balance of Payments	445
5. Trade Organizations	451
5.1. International Monetary Fund	451
5.2. World Bank Group	453
5.3. World Trade Organization	454
6. Summary	457
Practice Problems	459

	rrency Exchange Rates	465
	Learning Outcomes	465
1.	Introduction	465
2.	The Foreign Exchange Market	467
	2.1. Market Functions	473
	2.2. Market Participants	478
	2.3. Market Size and Composition	482
3.	Currency Exchange Rate Calculations	484
	3.1. Exchange Rate Quotations	484
	3.2. Cross-Rate Calculations	488
	3.3. Forward Calculations	492
4.	Exchange Rate Regimes	500
	4.1. The Ideal Currency Regime	500
	4.2. Historical Perspective on Currency Regimes	501
	4.3. A Taxonomy of Currency Regimes	503
5.	Exchange Rates, International Trade, and Capital Flows	511
	5.1. Exchange Rates and the Trade Balance: The Elasticities Approach	512
	5.2. Exchange Rates and the Trade Balance: The Absorption Approach	517
6.	Summary	521
	Practice Problems	524
Cu	rrency Exchange Rates: Determination and Forecasting	527
	Learning Outcomes	
	Introduction	527 528
	Introduction Foreign Exchange Market Concepts	528 530
	Introduction Foreign Exchange Market Concepts 2.1. Arbitrage Constraints on Spot Exchange Rate Quotes	528 530 533

Economic Growth and the Investment Decision	621
Learning Outcomes	621
1. Introduction	622
2. Growth in the Global Economy: Developed versus	
Developing Countries	622
2.1. Savings and Investment	625
2.2. Financial Markets and Intermediaries	626
2.3. Political Stability, Rule of Law, and Property Rights	626
2.4. Education and Health Care Systems	626 627
<ul><li>2.5. Tax and Regulatory Systems</li><li>2.6. Free Trade and Unrestricted Capital Flows</li></ul>	627
2.7. Summary of Factors Limiting Growth in Developing Countries	628
3. Why Potential Growth Matters to Investors	631
4. Determinants of Economic Growth	635
4.1. Production Function	635
4.2. Capital Deepening versus Technological Progress	637
4.3. Growth Accounting	640
4.4. Extending the Production Function	641
4.5. Natural Resources	642
4.6. Labor Supply	645
4.7. Labor Quality: Human Capital	649
4.8. Capital: ICT and Non-ICT	650
4.9. Technology	653
4.10. Public Infrastructure	657
4.11. Summary	657
5. Theories of Growth	663
5.1. Classical Model	664
5.2. Neoclassical Model	664
5.3. Endogenous Growth Theory	677
5.4. Convergence Debate	680
6. Growth in an Open Economy	684
7. Summary	694
Practice Problems	696
