**Artwork – *Origins by Collin Murphy***

**Preface – Frederick L. Tyson**

## **Part I Fetal Origins of Adult Disease Susceptibility**

<b>1 Epigenetics: How Genes and Environment Interact . . . . .</b>	<b>3</b>
Randy L. Jirtle	
<b>2 Developmental Epigenomics and Metabolic Disease . . . . .</b>	<b>31</b>
Peter D. Gluckman, Felicia M. Low, and Mark A. Hanson	
<b>3 Sculpting Our Future: Environmental Nudging of the Imprintome . . . . .</b>	<b>51</b>
Susan K. Murphy and Cathrine Hoyo	

## **Part II Epigenetics and Environmental Exposures**

<b>4 Complex Phenotypes: Epigenetic Manifestation of Environmental Exposures . . . . .</b>	<b>77</b>
Christopher Faulk and Dana C. Dolinoy	
<b>5 Epigenetic Effects of Ionizing Radiation . . . . .</b>	<b>99</b>
Olga Kovalchuk	
<b>6 The Intersection of Genetics and Epigenetics: Reactivation of Mammalian LINE-1 Retrotransposons by Environmental Injury . . . . .</b>	<b>127</b>
Kenneth S. Ramos, Ivo Teneng, Diego E. Montoya-Durango, Pasano Bojang, Mark T. Haeberle, Irma N. Ramos, Vilius Stribinskis, and Ted Kalbfleisch	

**Part III Epigenetics, Gene Regulation, and Stem Cells**

<b>7 Environmental Impact on Epigenetic Histone Language . . . . .</b>	163
John M. Denu	
<b>8 Chromatin Structure and Gene Expression: Function Follows Form . . . . .</b>	189
Aleksandra B. Adomas and Paul A. Wade	
<b>9 Epigenetics of Pluripotency . . . . .</b>	207
R. David Hawkins and Bing Ren	

**Part IV Epigenetic Transgenerational Inheritance**

<b>10 Transgenerational Epigenetic Inheritance in Drosophila . . . . .</b>	227
Luan Wang, Xiangyi Lu, and Douglas M. Ruden	
<b>11 Environmental Epigenetics and Epigenetic Transgenerational Inheritance . . . . .</b>	245
Michael K. Skinner	
<b>12 The Nature of Human Transgenerational Responses . . . . .</b>	257
Marcus E. Pembrey, Lars O. Bygren, and Jean Golding	
<b>Biography . . . . .</b>	273
<b>Glossary . . . . .</b>	275
<b>Index . . . . .</b>	297
