Table of Contents

Preface
Hugh D. Young 1

1. Mathematics Review
Hugh D. Young 9

Problem Set (9/e): Mathematics Review
Hugh D. Young 23

2. Models, Measurements, and Vectors
Hugh D. Young 25

Problem Set (9/e): Models, Measurements, and Vectors
Hugh D. Young 47

3. Motion along a Straight Line
Hugh D. Young 55

Problem Set (9/e): Motion along a Straight Line
Hugh D. Young 85

4. Motion in a Plane
Hugh D. Young 95

Problem Set (9/e): Motion in a Plane
Hugh D. Young 121

5. Newton's Laws of Motion
Hugh D. Young 129

Problem Set (9/e): Newton's Laws of Motion
Hugh D. Young 153

6. Applications of Newton's Laws
Hugh D. Young 161

Problem Set (9/e): Applications of Newton's Laws
Hugh D. Young 185

7. Circular Motion and Gravitation
Hugh D. Young 197

Problem Set (9/e): Circular Motion and Gravitation
Hugh D. Young 219

8. Work and Energy
Hugh D. Young 227

Problem Set (9/e): Work and Energy
Hugh D. Young 261

9. Momentum
Hugh D. Young 273

Problem Set (9/e): Momentum
Hugh D. Young 301

10. Rotational Motion
Hugh D. Young 311

Problem Set (9/e): Rotational Motion
Hugh D. Young 331

11. Dynamics of Rotational Motion
Hugh D. Young 341

Problem Set (9/e): Dynamics of Rotational Motion
Hugh D. Young 371

12. Elasticity and Periodic Motion
Hugh D. Young 385

Problem Set (9/e): Elasticity and Periodic Motion
Hugh D. Young 411

13. Mechanical Waves and Sound
Hugh D. Young 419

Problem Set (9/e): Mechanical Waves and Sound
Hugh D. Young 455

14. Fluid Mechanics
Hugh D. Young 463

Problem Set (9/e): Fluid Mechanics
Hugh D. Young 491

15. Temperature and Heat
Hugh D. Young 499

Problem Set (9/e): Temperature and Heat
Hugh D. Young 529

16. Thermal Properties of Matter
Hugh D. Young **539**

Problem Set (9/e): Thermal Properties of Matter
Hugh D. Young **571**

17. The Second Law of Thermodynamics
Hugh D. Young **581**

Problem Set (9/e): The Second Law of Thermodynamics
Hugh D. Young **607**

18. Electric Charge and Electric Field
Hugh D. Young **615**

Problem Set (9/e): Electric Charge and Electric Field
Hugh D. Young **645**

19. Electric Potential and Capacitance
Hugh D. Young **655**

Problem Set (9/e): Electric Potential and Capacitance
Hugh D. Young **685**

20. Current, Resistance, and Direct-Current Circuits
Hugh D. Young **695**

Problem Set (9/e): Current, Resistance, and Direct-Current Circuits
Hugh D. Young **727**

21. Magnetic Field and Magnetic Forces
Hugh D. Young **737**

Problem Set (9/e): Magnetic Field and Magnetic Forces
Hugh D. Young **769**

22. Electromagnetic Induction
Hugh D. Young **781**

Problem Set (9/e): Electromagnetic Induction
Hugh D. Young **813**

23. Alternating Current
Hugh D. Young **823**

Problem Set (9/e): Alternating Current
Hugh D. Young **845**

24. Electromagnetic Waves and Propagation of Light
Hugh D. Young **851**

Problem Set (9/e): Electromagnetic Waves and Propagation of Light
Hugh D. Young **885**

25. Geometric Optics
Hugh D. Young **895**

Problem Set (9/e): Geometric Optics
Hugh D. Young **923**

26. Optical Instruments
Hugh D. Young **931**

Problem Set (9/e): Optical Instruments
Hugh D. Young **951**

27. Interference and Diffraction
Hugh D. Young **959**

Problem Set (9/e): Interference and Diffraction
Hugh D. Young **991**

28. Relativity
Hugh D. Young **999**

Problem Set (9/e): Relativity
Hugh D. Young **1027**

29. Photons, Electrons, and Atoms
Hugh D. Young **1035**

Problem Set (9/e): Photons, Electrons, and Atoms
Hugh D. Young **1069**

30. Atoms, Molecules, and Solids
Hugh D. Young **1077**

Problem Set (9/e): Atoms, Molecules, and Solids
Hugh D. Young **1105**

31. Nuclear and High-Energy Physics
Hugh D. Young **1109**

Problem Set (9/e): Nuclear and High-Energy Physics
Hugh D. Young **1151**

Appendix: The International System of Units
Hugh D. Young **1159**

Appendix: The Greek Alphabet
Hugh D. Young **1161**

Appendix: Periodic Table of the Elements
Hugh D. Young **1163**

Index **1165**
