Series Preface.....	xi
Foreword	xiii
Acknowledgments.....	xv
Editors.....	xvii
Contributors	xix

Chapter 1 Introduction	1
<i>Rod MacRae, Andrew M. Hammermeister, and Ralph C. Martin</i>	

Chapter 2 Establishing Priorities for Organic Research in Canada.....	7
<i>Andrew M. Hammermeister, Ron Pidskalny, Karen Nelson, and Ralph C. Martin</i>	

SECTION I Soil Health

Chapter 3 Arbuscular Mycorrhiza and the Phosphorus Nutrition of Organic Crops	35
<i>Mulan Dai, Kim Schneider, Barbara Cade-Menun, Ronald Ferrera-Cerrato, and Chantal Hamel</i>	

Chapter 4 Nitrogen and Phosphorus Fertility Management in Organic Field Crop Production	59
<i>Alexander Woodley, Yuki Audette, Tandra Fraser, Melissa M. Arcand, Paul Voroney, J. Diane Knight, and Derek H. Lynch</i>	

Chapter 5 Sustaining Soil Organic Carbon, Soil Quality, and Soil Health in Organic Field Crop Management Systems.....	107
<i>Derek H. Lynch</i>	

Chapter 6 Reduced Tillage in Organic Cropping Systems	133
<i>Martin H. Entz, Caroline Halde, Harun Cicek, Kristen Podolsky, Rachel L. Evans, Keith C. Bamford, and Robert E. Blackshaw</i>	

SECTION II Pest Management

- Chapter 7** Sometimes You Need a Big Hammer: Evaluating and Appraising Selected Nonherbicidal Weed Control Methods in an Integrated Weed Management System 149
Steve J. Shirtliffe and Dilshan Benaragama

- Chapter 8** Insect Pest Management in Organic Cropping Systems Based on Ecological Principles 175
Gilles Boiteau, Tom Lowery, and Josée Boisclair

SECTION III Integrating Approaches

- Chapter 9** Glenlea Organic Rotation: A Long-Term Systems Analysis 215
Martin H. Entz, Cathy Welsh, Shauna Mellish, Yuying Shen, Sarah Braman, Mario Tenuta, Marie-Soleil Turmel, Katherine Buckley, Keith C. Bamford, and Neil Holliday

- Chapter 10** Breeding Cereals for Organic Soil Properties, Plant Nutrition, and Weed Control 239
Hakunawadi Alexander Pswarayi, Stephen Fox, Pierre Hucl, and Dean Spaner

- Chapter 11** Organic Voices: Agronomy, Economics, and Knowledge on 10 Canadian Organic Farms 265
James B. Frey and Martin H. Entz

SECTION IV Economics, Energy, and Policy

- Chapter 12** Economics of Energy Use in Organic Agriculture 287
Emmanuel K. Yiridoe

- Chapter 13** Will More Organic Food and Farming Solve Food System Problems? Part I: Environment 307
Rod MacRae, Derek H. Lynch, and Ralph C. Martin

Chapter 14	Will More Organic Food and Farming Solve Food System Problems? Part II: Consumer, Economic, and Community Issues	333
	<i>Rod MacRae, Derek H. Lynch, and Ralph C. Martin</i>	
Chapter 15	Ten Percent Organic within 15 Years: Policy and Program Initiatives to Advance Organic Food and Farming in Ontario, Canada.....	363
	<i>Rod MacRae, Ralph C. Martin, Mark Juhasz, and Julia Langer</i>	
Chapter 16	General Discussion and Conclusions	395
	<i>Ralph C. Martin and Rod MacRae</i>	
Index		407
