1 Introduction: Interdisciplinary Approaches to the Second Epidemiologic Transition <i>Molly K. Zuckerman</i>	1
Part 1 Causes of the Second Epidemiologic Transition	
2 Infectious Disease in Philadelphia, 1690–1807: An Ecological Perspective <i>Gilda M. Anroman</i>	17
3 Modeling the Second Epidemiologic Transition in London: Patterns of Mortality and Frailty during Industrialization <i>Sharon N. DeWitte</i>	35
4 The Wider Background of the Second Transition in Europe: Information from Skeletal Material <i>Nikola Koepke</i>	55
5 The Epidemiological Transition in Practice: Consumption, Phthisis, and TB in the 19th Century <i>Jeffrey K. Beemer</i>	81
Part 2 Epidemic Infectious Disease and the Second Epidemiologic Transition	
6 Agent-Based Modeling and the Second Epidemiologic Transition <i>Carolyn Orbann, Jessica Dimka, Erin Miller and Lisa Sattenspiel</i>	105
7 Does Exposure to Influenza Very Early in Life Affect Mortality Risk during a Subsequent Outbreak? The 1890 and 1918 Pandemics in Canada <i>Stacey Hallman and Alain Gagnon</i>	123
Part 3 Regional and Temporal Variation in the Second Epidemiologic Transition	
8 The Second Epidemiologic Transition in Western Poland <i>Alicja Budnik</i>	139

9	The Timing of the Second Epidemiologic Transition in Small US Towns and Cities: Evidence from Local Cemeteries	163
	<i>Lisa Sattenspiel and Rebecca S. Lander</i>	
10	Industrialization and the Changing Mortality Environment in an English Community during the Industrial Revolution	179
	<i>Peter M. Kitson</i>	
Part 4 Marginalized and Underrepresented Communities in the Second Epidemiologic Transition		
11	Short Women and Their Stagnating Growth: A Study of Biological Welfare and Inequality of Women in Postcolonial India	201
	<i>Aravinda Meera Guntupalli</i>	
12	Tracking the Second Epidemiologic Transition Using Bioarchaeological Data on Infant Morbidity and Mortality	225
	<i>Megan A. Perry</i>	
13	The Biological Effects of Urbanization and In-Migration on 19th-Century-Born African Americans and Euro-Americans of Low Socioeconomic Status: An Anthropological and Historical Approach	243
	<i>Carlina de la Cova</i>	
Part 5 The Environment and the Second Epidemiologic Transition		
14	Reassessing the Good and Bad of Modern Environments: Developing a More Comprehensive Approach to Health Trend Assessment	267
	<i>Lawrence M. Schell</i>	
15	Childhood Lead Exposure in the British Isles during the Industrial Revolution	279
	<i>Andrew Millard, Janet Montgomery, Mark Trickett, Julia Beaumont, Jane Evans, and Simon Chenery</i>	
16	The Hygiene Hypothesis and the Second Epidemiologic Transition	301
	<i>Molly K. Zuckerman and George J. Armelagos</i>	
17	Comparative Parasitological Perspectives on Epidemiologic Transitions: The Americas and Europe	321
	<i>Karl J. Reinhard and Elisa Pucu de Araújo</i>	
Part 6 Epilogue		
18	The Second Epidemiologic Transition, Adaptation, and the Evolutionary Paradigm	339
	<i>George J. Armelagos</i>	
19	The Second Epidemiologic Transition from an Epidemiologist's Perspective	353
	<i>Nancy L. Fleischer and Robert E. McKeown</i>	
20	Methodological Perspectives on the Second Epidemiologic Transition: Current and Future Research	369
	<i>Richard H. Steckel</i>	
21	The Current State of Knowledge on the Industrial Epidemiologic Transition: Where Do We Go from Here?	377
	<i>Timothy B. Gage</i>
