Contributors	vii
Preface	ix
1 Overview of Seed Development, Anatomy and Morphology <i>Elwira Sliwinska and J. Derek Bewley</i>	1
2 Fruits and Frugivory <i>Pedro Jordano</i>	18
3 The Ecology of Seed Dispersal <i>Anna Traveset, Ruben Heleno and Manuel Nogales</i>	62
4 Seed Predators and Plant Population Dynamics <i>Michael J. Crawley</i>	94
5 Light-mediated Germination <i>Thijs L. Pons</i>	111
6 The Chemical Environment in the Soil Seed Bank <i>Henk W.M. Hilhorst</i>	135
7 Seed Dormancy <i>Alistair J. Murdoch</i>	151
8 The Chemical Ecology of Seed Persistence in Soil Seed Banks <i>Robert S. Gallagher, Mark B. Burnham and E. Patrick Fuerst</i>	178
9 Effects of Climate Change on Regeneration by Seeds <i>Rui Zhang and Kristen L. Granger</i>	204
10 The Functional Role of the Soil Seed Bank in Agricultural Ecosystems <i>Nathalie Colbach</i>	235
11 The Functional Role of Soil Seed Banks in Natural Communities <i>Arne Saatkamp, Peter Poschlod and D. Lawrence Venable</i>	263
