Introduction	xvii
<b>Chapter 1 ■ Introduction to Computer Graphics and 3D</b>	<b>1</b>
A Preview of the CG Process	2
The CG Production Workflow	2
Digital Images	4
Summary	8
<b>Chapter 2 ■ Jumping into Basic Animation Headfirst</b>	<b>9</b>
You Put the <i>U</i> in User Interface	10
Project: The Solar System	14
Creating a Project	15
The Production Process: Creating and Animating the Objects	17
Hierarchy and Maya Object Structure	28
The Solar System, Resumed	30
Outputting Your Work: Playblasting	37
Summary	38
<b>Chapter 3 ■ The Autodesk® Maya® 2015 Interface</b>	<b>39</b>
Navigating in Maya	40
Exploring the Maya Layout	40
Building a Decorative Box	50
Mapping the Box's Reference Planes with Hypershade	53
Organizing Workflow with the Layer Editor	57
Modeling the Decorative Box	58
Editing the Decorative Box Model	
Using the Shelf	63
Continuing the Decorative Box Model	67
Finishing the Decorative Box Model	71
Summary	78

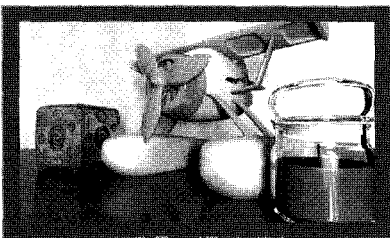

<b>Chapter 4 ■ Beginning Polygonal Modeling</b>	<b>79</b>
Planning Your Model	80
Polygon Basics	82
Poly Editing Tools	84
Putting the Tools to Use: Making a Cartoon Hand	93
Creating Areas of Detail on a Poly Mesh	101
Modeling a Catapult	115
Summary	142
<b>Chapter 5 ■ Modeling with NURBS Surfaces and Deformers</b>	<b>143</b>
NURBS for Organic Curves	144
Using NURBS Surfacing to Create Polygons	151
Converting a NURBS Model to Polygons	153
Using Artisan to Sculpt NURBS	154
Creating a Pair of Glass Candle Holders	154
Modeling with Simple Deformers	161
The Lattice Deformer	166
Animating Through a Lattice	170
Summary	174
<b>Chapter 6 ■ Practical Experience!</b>	<b>175</b>
Evaluating the Toy Plane	176
Building the Landing pontoons	178
Oh, What a Body! Modeling the Body of the Plane	194
The Rear Stabilizers	198
You Spin Me Right Round—The Engine and Propeller	201
The Plane's Wings	206
Assembling the Plane	215
Summary	217

<b>Chapter 7 ■ Autodesk® Maya® Shading and Texturing</b>	<b>219</b>
Maya Shading	220
Shader Types	220
Shader Attributes	223
Shading and Texturing the Toy Plane	227
Textures and Surfaces	232
Textures and UVs for the Red Wagon	240
Photo-Real Mapping: The Decorative Box	274
Toon Shading	291
For Further Study	294
Summary	294
<b>Chapter 8 ■ Introduction to Animation</b>	<b>295</b>
Keyframe Animation: Bouncing a Ball	296
Throwing an Axe	307
Replacing an Object	318
Animating Flying Text	320
Animating the Catapult	324
Summary	329
<b>Chapter 9 ■ More Animation!</b>	<b>331</b>
Skeletons and Kinematics	332
Skeletons: The Hand	348
Inverse Kinematics	362
Basic Relationships: Constraints	366
Basic Relationships: Set-Driven Keys	371
Rigging the Locomotive	375
Creating a Simple Character Rig	382
For Further Study	391
Summary	391

<b>Chapter 10 ■ Autodesk® Maya® Lighting</b>	<b>393</b>
Basic Lighting Concepts	394
Maya Lights	398
Light Linking	405
Adding Shadows	407
Raytracing Soft Shadows	411
mental ray Lighting	412
mental ray Physical Sun and Sky	414
Lighting Effects	418
Assembling and Lighting a Scene	422
Further Lighting Practice	430
Tips for Using and Animating Lights	430
Summary	432
<b>Chapter 11 ■ Autodesk® Maya® Rendering</b>	<b>433</b>
Rendering Setup	434
Previewing Your Render: The Render View Window	443
Setting the Default Renderer	445
Reflections and Refractions	446
Using Cameras	448
Motion Blur	456
Batch Rendering	456
Rendering the Wine Bottle	458
mental ray for Maya	461
Render Layers	467
Final Gather	478
Ambient Occlusion	482
HDRI	490
Displacement Mapping the Decorative Box	493
Rendering the Scene with mental ray	504
Summary	516

<b>Chapter 12 ■ Autodesk® Maya® Dynamics and Effects</b>	<b>517</b>
An Overview of Dynamics and Maya Nucleus	518
Rigid Bodies	518
Rigid Body Dynamics: Shoot the Catapult!	522
nParticle Dynamics	530
Emitting nParticles	530
Animating a Particle Effect: Locomotive Steam	538
Introduction to Paint Effects	547
Getting Started with nCloth	551
Customizing Maya	557
Summary	561
Where Do You Go from Here?	562
<b>Index</b>	<b>563</b>
