

# Contents

<b>1 Advanced Transport Systems: General . . . . .</b>	1
1.1 Definition . . . . .	1
1.2 Classification . . . . .	2
1.2.1 Attributes/Criteria Related to Advanced Components . . . . .	3
1.2.2 Attributes/Criteria Related to Level of Commercialization . . . . .	4
1.3 Performances . . . . .	4
1.3.1 Definition . . . . .	4
1.3.2 Analyzing, Modeling, and Evaluation . . . . .	8
1.4 Composition of the Book . . . . .	8
References . . . . .	9
<b>2 Advanced Transport Systems: Operations and Technologies . . . . .</b>	11
2.1 Introduction . . . . .	11
2.2 Bus Rapid Transit Systems . . . . .	12
2.2.1 Definition, Development, and Use . . . . .	12
2.2.2 Analyzing and Modeling Performances . . . . .	14
2.2.3 Evaluation . . . . .	40
2.3 High Speed Tilting Passenger Trains . . . . .	42
2.3.1 Definition, Development, and Use . . . . .	42
2.3.2 Analyzing and Modeling Performances . . . . .	43
2.3.3 Evaluation . . . . .	61
2.4 Advanced Subsonic Commercial Aircraft . . . . .	62
2.4.1 Definition, Development, and Use . . . . .	62
2.4.2 Analyzing and Modeling Performances . . . . .	63
2.4.3 Evaluation . . . . .	78
References . . . . .	79
<b>3 Advanced Transport Systems: Operations and Economics . . . . .</b>	83
3.1 Introduction . . . . .	83
3.2 Advanced Freight Collection/Distribution Networks . . . . .	84
3.2.1 Definition, Development, and Use . . . . .	84
3.2.2 Analyzing and Modeling Performances . . . . .	86
3.2.3 Evaluation . . . . .	110

3.3	Road Mega Trucks . . . . .	111
3.3.1	Definition, Development, and Use. . . . .	111
3.3.2	Analyzing and Modeling Performances . . . . .	112
3.3.3	Evaluation . . . . .	125
3.4	Long Intermodal Freight Train(s) . . . . .	126
3.4.1	Definition, Development, and Use. . . . .	126
3.4.2	Analyzing Performances . . . . .	127
3.4.3	Modeling Performances . . . . .	132
3.4.4	Evaluation . . . . .	144
3.5	Large Commercial Freight Aircraft . . . . .	145
3.5.1	Definition, Development, and Use. . . . .	145
3.5.2	Analyzing and Modeling Performances . . . . .	147
3.5.3	Evaluation . . . . .	161
	References . . . . .	162
<b>4</b>	<b>Advanced Transport Systems: Technologies and Environment . . . . .</b>	<b>165</b>
4.1	Introduction . . . . .	165
4.2	Advanced Passenger Cars . . . . .	167
4.2.1	Definition, Development, and Use. . . . .	167
4.2.2	Analysis and Modeling Performances . . . . .	168
4.2.3	Evaluation . . . . .	185
4.3	Large Advanced Container Ships. . . . .	186
4.3.1	Definition, Development, and Use. . . . .	187
4.3.2	Analyzing and Modeling Performances . . . . .	188
4.3.3	Evaluation . . . . .	214
4.4	Liquid Hydrogen-Fuelled Commercial Air Transportation . . . . .	216
4.4.1	Definition, Development, and Use. . . . .	216
4.4.2	Analysis and Modeling Performance . . . . .	217
4.4.3	Evaluation . . . . .	228
	References . . . . .	229
<b>5</b>	<b>Advanced Transport Systems: Infrastructure, Technologies, Operations, Economics, Environment, and Society/Policy . . . . .</b>	<b>235</b>
5.1	Introduction . . . . .	235
5.2	High Speed Transport Systems . . . . .	236
5.2.1	Definition, Development, and Use. . . . .	236
5.2.2	Evaluation . . . . .	274
	References . . . . .	275
<b>6</b>	<b>Advanced Transport Systems: Future Concepts . . . . .</b>	<b>277</b>
6.1	Introduction . . . . .	277
6.2	Personal Rapid Transit Systems. . . . .	279
6.2.1	Definition, Development, and Use. . . . .	279

6.2.2	Analyzing and Modeling Performances . . . . .	281
6.2.3	Evaluation . . . . .	303
6.3	Underground Freight Transport Systems. . . . .	305
6.3.1	Definition, Development, and Use. . . . .	305
6.3.2	Analyzing and Modeling Performances . . . . .	306
6.3.3	Evaluation . . . . .	319
6.4	Evacuated Tube Transport System. . . . .	322
6.4.1	Definition, Development, and Use. . . . .	323
6.4.2	Analyzing and Modeling Performances . . . . .	325
6.4.3	Evaluation . . . . .	340
6.5	Advanced Air Traffic Control Technologies and Operations for Increasing Airport Runway Capacity . . . . .	341
6.5.1	Definition, Development, and Use. . . . .	341
6.5.2	Analyzing Performances . . . . .	342
6.5.3	Modeling Performances . . . . .	354
6.5.4	Evaluation . . . . .	363
6.6	Advanced Supersonic Transport Aircraft . . . . .	364
6.6.1	Definition, Development, and Use. . . . .	364
6.6.2	Analyzing and Modeling Performances . . . . .	366
6.6.3	Evaluation . . . . .	386
	References . . . . .	388
<b>7</b>	<b>Advanced Transport Systems: Contribution to Sustainability . . . . .</b>	<b>391</b>
7.1	Introduction . . . . .	391
7.2	Contribution . . . . .	391
7.3	Some Controversies. . . . .	394
7.3.1	Technical Productivity. . . . .	394
7.3.2	Energy/Fuel Consumption and Emissions of GHG . . . . .	396
7.3.3	Safety . . . . .	397
	Reference . . . . .	398
	<b>About the Author . . . . .</b>	<b>399</b>
	<b>Index . . . . .</b>	<b>401</b>
