

DETAILED CONTENTS

Preface xi

Acknowledgments xvii

CHAPTER 1 • The Nature of Research and Science 1

Ways of Knowing 1

Objectivity 3

The Nature of Science 4

 The Empirical Nature of Science 5

 Scientific Tools 5

The Scientific Approach 6

 Problem 7

 Hypothesis 7

 Reasoning 7

 Testing 8

Theory: A Scientific Concept 9

 Theory Defined 9

 Meaning of Reality 11

Components of Theory 12

 Concepts and Constructs 12

 Assumptions and Generalizations 13

The Nature of Scientific Research 14

Types of Quantitative Research 16

 Experimental and Nonexperimental (or Ex Post Facto) Research 16

 Theoretical and Practical Research 17

 Descriptive Research 17

Summary 18

Check Your Understanding 18

Key Terms 19

CHAPTER 2 • Concepts, Variables, and Research Problems 21

Concepts 21

 Organizational Structure: Bureaucracy 21

 Alienation 22

 School Climate 23

 Trust 25

 Self-Regulated Climate 26

 Academic Optimism 27

Variables 28

 Kinds of Variables 30

Operationalizing Concepts	33
Research Problems	39
Summary	42
Check Your Understanding	43
Key Terms	44

CHAPTER 3 • Conceptual Foundations of Statistics 45

Measures of Central Tendencies	45
Measures of Variability	47
Normal Distribution	49
Populations and Samples	50
Statistical Tests	52
t Test	52
F Test	54
Chi-Square Test	56
Effect Size	58
Linear Regression and Coefficient of Correlation	59
Multiple Regression and Multiple Coefficient of Correlation	61
Hierarchical Linear Modeling (HLM)	62
Summary	63
Check Your Understanding	64
Key Terms	65

CHAPTER 4 • Analyzing the Structure and Substance of Hypotheses 67

Hypotheses	67
Kinds of Hypotheses	69
Imposter and Misconceived Hypotheses	70
Imposters: Only One Variable	70
Incomplete Hypotheses: Something Missing	71
Tautologies: Nothing New	72
Unspecified and Untestable Hypotheses	72
Finding Hypotheses in Research Studies	73
Analyzing and Diagramming Hypotheses	74
Case I: Dichotomous Independent Variable and Continuous Dependent Variable	75
Case II: Continuous Independent and Continuous Dependent Variables	77
Case III: Categorical Independent and Categorical Dependent Variables	79
Case IV: Categorical Independent (With More Than Two Categories) and Continuous Dependent Variables	81
Case V: Hypotheses With More Than Two Variables	83

The Invisible Condition: “Other Things Being Equal”	86
Summary	88
Check Your Understanding	88
Key Terms	89

CHAPTER 5 • Generating Hypotheses 91

Ideas for New Hypotheses	91
Observing, Conceptualizing, and Hypothesizing	92
Searching for Theoretical Underpinnings	93
Theoretical Assumptions	94
Developing Theoretical Rationales and Generating Hypotheses	95
More Theory: More Hypotheses	98
Self-Efficacy	98
Collective Efficacy	101
Academic Optimism	105
Summary	109
Check Your Understanding	110
Key Terms	111

CHAPTER 6 • Practical Applications 113

Collective Trust	113
Culture of Trust	114
Measuring Organizational Trust	114
Interpreting Organizational Trust Profiles	117
Organizational Climate	119
Climate of Openness	119
Measuring Organizational Climate	121
Interpreting Organizational Climate Profiles	122
Guidelines for Improvement	123
Improvement Science	123
Improvement Science Cycle: Plan-Do-Study-Act (PDSA)	124
Summary	131
Check Your Understanding	132
Key Terms	133

Appendix A: Elements of a Proposal	135
Part 1: The Introduction (Chapter 1)	135
Part 2: The Literature Review (Chapter 2)	136
Part 3: Methodology (Chapter 3)	137

Appendix B: A Few Writing Tips	139
