About this book xiv
Guided tour xvii
Companion website xxi

1 **Getting started and writing the research proposal** 1

The landscape of management and business research 2
Elements of a research proposal 3
Clear research questions and research objectives 4
Explanation of how the research relates to previous work in the field 5
Concise description of the research design and methods 8
The impact and engagement agenda 10
Conclusion 11
Further reading 11

2 **Reviewing the literature** 12

What is a literature review and what are its main purposes? 13
Preparing a literature review: finding and recording relevant literature 17
Finding relevant literature 20
Evaluating literature 34
Writing a literature review 40
Conclusion 43
Further reading 44

3 **The philosophy of management and business research** 45

The philosophical debates 46
Ontology: from realism to nominalism 47
Epistemology: positivism vs social constructionism 51
Strengths and weaknesses of the main traditions 56
Paradigms and research approaches 57
Conclusion 64
Further reading 65

4 **Designing management and business research** 66

The essence of research design 67
Positivist research designs 69
Experimental methods 69
Survey research 75
Constructionist research designs 84

Case method and grounded theory 89
Mixed methods 95
Common design dilemmas 98
Contributing to theory 101
Contrasting views on validity and reliability 103
Research design template 103
Conclusion 105
Further reading 106

5 **Politics, access and ethics** 107

Politics and power in research 108
Political influences on research 109
Politics of access 116
Ethics 120
Conclusion 126
Further reading 127

6 **Crafting qualitative data through language and text** 128

Crafting qualitative data 129
Textual data 130
Qualitative interviews 133
Preparing for data collection 137
Conducting interviews 141
Interview-based mapping techniques 147
Conclusion 156
Further reading 157

7 **Crafting qualitative data through observation and interaction** 158

Visual data 159
Observational research 161
Interactive and participatory methods 168
General concerns related to the creation of qualitative data 175
Conclusion 182
Further reading 182

8 **Framing and interpreting qualitative data** 184

Preparing and managing qualitative data 185
Framing and interpreting qualitative data: seven approaches 187
Computer-aided analysis 210
Quality in qualitative research 214
Conclusion 217
Further reading 218

9 **Crafting quantitative data** 220

Sources of quantitative data 221
Question design 231
Measurement models 236
Conclusion 241
Further reading 242

10 **Summarizing and making inferences from quantitative data** 243

Summarizing and describing data 245
Going beyond a sample 256
Conclusion 272
Further reading 272

11 **Multivariate analysis** 273

The domain of multivariate analysis 274
Multivariate analysis of causal models 278
Conclusion 296
Further reading 296

12 **Writing management and business research** 297

The skills of writing 298
The content of reports and dissertations 303
Writing up the literature review 305
Outputs and evaluation 308
Plagiarism 313
Dissemination strategies 315
Conclusion 317
Further reading 317

Answers to exercises 319
Glossary 332
Further readings 344
Bibliography 352
Index 370
