How to use this book viii  
ALPHABETICAL LISTING OF NURSING PROCEDURES ■ 1

## A

Abdominal paracentesis, assisting 1  
Admission 2  
Admixture of drugs in a syringe 5  
Advance directives 7  
Airborne precautions 10  
Air-fluidized therapy bed use 13  
Alignment and pressure-reducing devices 15  
Angioplasty care 17  
Antiembolism stocking application 21  
Aquapheresis 24  
Arterial and venous sheath removal 29  
Arterial pressure monitoring 31  
Arterial puncture for blood gas analysis 37  
Assessment techniques 40  
Autologous blood collection, preoperative 43  
Autologous blood transfusion, perioperative 45  
Automated external defibrillation 47

## B

Back care 50  
Balloon valvuloplasty care 52  
Bariatric bed use 56  
Bed bath 57  
Bed equipment, supplemental 59  
Bedmaking, occupied 61  
Bedmaking, unoccupied 64  
Bedpan and urinal use 67  
Bedside spirometry 69  
Biliary drainage catheter care 71  
Binder application 73  
Bispectral index monitoring 76  
Bladder ultrasonography 78  
Blood culture sample collection 79  
Blood glucose monitoring 81  
Blood pressure assessment 84  
Body jewelry removal 88  
Body mechanics 90  
Bone marrow aspiration and biopsy 92  
Brain tissue oxygen monitoring and care 95  
Brain tissue oxygen monitoring device, insertion, assisting 97  
Bronchoscopy, assisting 99  
Buccal and sublingual drug administration 103  
Burn care 105  
Burn dressing application, biological and synthetic 110

## C

Canes 112  
Capillary blood gas sampling 114  
Carbon monoxide oximetry 115  
Cardiac monitoring 117  
Cardiac output measurement 121  
Cardiopulmonary resuscitation, adult 124

Cardiopulmonary resuscitation, child 131  
Cardiopulmonary resuscitation, infant 134  
Cardioversion, synchronized 136  
Care plan preparation 139  
Cast application 140  
Cast removal 144  
Central venous access catheter 145  
Central venous pressure monitoring 155  
Cerebrospinal fluid drainage management 160  
Cervical collar application 162  
Chemotherapeutic drug administration 163  
Chemotherapeutic drug preparation and handling 169  
Chest physiotherapy 171  
Chest tube drainage system monitoring and care 175  
Chest tube drainage system setup 181  
Chest tube insertion, assisting 184  
Chest tube removal, assisting 187  
Clavicle strap application 189  
Closed-wound drain management 190  
Code management 192  
Cold application 198  
Colostomy and ileostomy care 200  
Colostomy irrigation 204  
Contact lens care 206  
Contact precautions 209  
Continent ileostomy care 214  
Continuous ambulatory peritoneal dialysis 218  
Continuous bladder irrigation 221  
Continuous passive motion device use 224  
Continuous positive airway pressure use 226  
Continuous renal replacement therapy 229  
Credé maneuver 233  
Cricothyrotomy, assisting 235  
Crutch use 237

## D

Defibrillation 240  
Discharge 244  
Documentation 246  
Doppler use 248  
Droplet precautions 249  
Drug and alcohol specimen collection 252  
Dying patient care 255

## E

Eardrop instillation 257  
Ear irrigation 259  
Elastic bandage application 261  
Electrical bone growth stimulation 263  
Electrocardiogram, 12-lead 265  
Electrocardiogram, right chest lead 267  
Electrocardiogram, posterior chest lead 269  
Electrocardiogram, signal-averaged 271  
Endoscopic therapy, assisting 273  
Endotracheal drug administration 276  
Endotracheal intubation 278  
Endotracheal tube care 283

End-tidal carbon dioxide monitoring 285  
 Enema administration 289  
 Epicardial pacing and care 291  
 Epidural analgesic administration 295  
 Esophagogastric tamponade tube care 298  
 Esophagogastric tamponade tube insertion and removal 301  
 External fixation management 303  
 Eye care 306  
 Eye compress application 307  
 Eye irrigation 308  
 Eye medication administration 311

**F**

Fall prevention and management 313  
 Fecal impaction removal, digital 317  
 Fecal occult blood tests 318  
 Feeding 320  
 Feeding tube insertion and removal 323  
 Femoral compression 325  
 Foot care 328  
 Foreign-body airway obstruction and management 329  
 Functional assessment 332

**G**

Gait belt use 333  
 Gastric lavage 336  
 Gastrostomy feeding button reinsertion 338

**H**

Hair care 339  
 Halo-vest traction management 340  
 Hand hygiene 343  
 Hearing aid care 346  
 Heat application 348  
 Height and weight measurement 350  
 Hemodialysis 353  
 Hemoglobin testing, bedside 359  
 Hip arthroplasty care 360  
 Hour-of-sleep care 362  
 Humidifier therapy 363  
 Hyperthermia-hypothermia blanket use 366

**I**

IM injection 368  
 Impaired swallowing and aspiration precautions 373  
 Implanted port use 376  
 Incentive spirometry 383  
 Incontinence device application, male 385  
 Incontinence management, fecal 387  
 Incontinence management, urinary 388  
 Indwelling urinary catheter care and removal 391  
 Indwelling urinary catheter insertion 394  
 Indwelling urinary catheter irrigation 398  
 Intermittent infusion device drug administration 400  
 Intermittent infusion device flushing and locking 402  
 Intermittent infusion device insertion 404  
 Intermittent positive-pressure breathing 407  
 Intermittent urinary catheterization 409  
 Internal fixation management 412  
 Intra-abdominal pressure monitoring 415  
 Intra-aortic balloon counterpulsation 417  
 Intracranial pressure monitoring 424  
 Intradermal injection 430  
 Intraosseous infusion 432

Intraleural drug administration 435  
 Iontophoresis 440  
 Isolation garb use 441  
 IV bolus injection 444  
 IV catheter insertion and removal 446  
 IV catheter maintenance 456  
 IV infusion rates and manual control 461  
 IV pump use 462  
 IV secondary line drug infusion 466  
 IV therapy preparation 468

**J**

Jugular venous oxygen saturation monitoring 471

**K**

Knee arthroplasty postprocedure care 473

**L**

Laryngeal mask airway insertion 475  
 Laser therapy, assisting 479  
 Latex allergy protocol 481  
 Lipid emulsion administration 483  
 Low-air-loss therapy bed use 485  
 Lumbar puncture, assisting 487

**M**

Manual ventilation 489  
 Massive infusion device use 491  
 Mechanical traction management 494  
 Mechanical ventilation, positive pressure 497  
 Metered-dose inhaler use 501  
 Mixed venous oxygen saturation monitoring 503  
 Moderate sedation 505  
 Mucus clearance device 509

**N**

Nasal bridle insertion and removal 511  
 Nasal irrigation 514  
 Nasal medication administration 516  
 Nasal packing, assisting 518  
 Nasoenteric-decompression tube care 522  
 Nasoenteric-decompression tube insertion and removal 524  
 Nasogastric tube care 526  
 Nasogastric tube drug instillation 528  
 Nasogastric tube insertion and removal 531  
 Nasopharyngeal airway insertion and care 536  
 Nebulizer therapy 537  
 Negative-pressure wound therapy 541  
 Nephrostomy and cystostomy tube dressing changes 545  
 Neurologic assessment 547  
 Nutritional screening 552

**O**

Ommaya reservoir drug infusion 556  
 Oral care 560  
 Oral drug administration 564  
 Organ donor, identification 567  
 Oronasopharyngeal suction 569  
 Oropharyngeal airway insertion and care 571  
 Oxygen administration 573

**P**

Pain management 578  
 Parenteral nutrition administration 581

- Parenteral nutrition monitoring 587  
 Passive range-of-motion exercises 589  
 Patient-controlled analgesia 592  
 Pericardiocentesis, assisting 595  
 Perineal care 598  
 Peripherally inserted central catheter use 600  
 Peripheral nerve stimulation 608  
 Peritoneal dialysis 610  
 Peritoneal lavage, assisting 614  
 Permanent pacemaker care 617  
 Personal protective equipment 621  
 Postmortem care 622  
 Postoperative care 624  
 Preoperative care 628  
 Preoperative skin preparation 631  
 Pressure dressing application 632  
 Pressure ulcer care 633  
 Progressive ambulation 639  
 Prone positioning 641  
 Protective environment guidelines 643  
 Pulmonary artery pressure and pulmonary artery wedge pressure monitoring 645  
 Pulse amplitude monitoring 648  
 Pulse assessment 649  
 Pulse oximetry 651
- R**
- Radiation implant therapy 654  
 Radiation therapy, external 657  
 Radioactive iodine therapy 658  
 Rectal suppositories and ointments 660  
 Rectal tube insertion and removal 662  
 Residual limb care 664  
 Respiration assessment 667  
 Restraint application 669  
 Ring removal 673  
 Rotation beds 675
- S**
- Safe medication administration practices, general 678  
 Seizure management 682  
 Self-catheterization 685  
 Sequential compression therapy 687  
 Sexual assault examination 690  
 Sharp debridement 692  
 Shaving 694  
 Sitz bath 695  
 Skin biopsy 697  
 Skin graft care 699  
 Skin staple and clip removal 701  
 Soaks 703  
 Spiritual care 705  
 Splint application 707  
 Sponge bath 709  
 Sputum collection 711  
 Standard precautions 713  
 Sterile technique, basic 715  
 Stool specimen collection 718  
 St-segment monitoring 719  
 Subcutaneous injection 721  
 Subdermal drug implants 725  
 Surgical drain removal 726  
 Surgical wound management 728  
 Suture removal 731
- Swab specimen collection 734  
 Synchronized cardioversion 737
- T**
- Temperature assessment 740  
 Therapeutic bath 742  
 Thoracentesis, assisting 744  
 Thoracic electrical bioimpedance monitoring 746  
 Tilt table 747  
 Topical skin drug application 748  
 Tracheal cuff–pressure measurement 750  
 Tracheal suctioning, intubated patient 752  
 Tracheostomy and ventilator speaking valve 756  
 Tracheostomy care 759  
 Tracheotomy, assisting 764  
 Transabdominal tube feeding and care 767  
 Transcranial Doppler monitoring 771  
 Transcutaneous electrical nerve stimulation 774  
 Transcutaneous pacing 776  
 Transdermal drug application 778  
 Transducer system setup 780  
 Transfer within a facility 782  
 Transfusion of blood and blood products 783  
 Transfusion reaction management 790  
 Transvenous pacing 793  
 Traumatic wound management 796  
 Tub baths and showers 799  
 Tube feedings 801
- U**
- Ultraviolet light therapy 806  
 Unna boot application 808  
 Urinary diversion stoma care 810  
 Urine collection, 12- or 24-hour timed 813  
 Urine glucose and ketone tests 814  
 Urine pH 815  
 Urine specimen collection 817  
 Urine straining, for calculi 819
- V**
- Vaginal medication administration 820  
 Venipuncture 821  
 Ventricular assist device care 825  
 Ventricular drain insertion, assisting 828  
 Volume-control set preparation 830
- W**
- Walkers 832  
 Water intoxication assessment 834  
 Weaning a patient from a ventilator 836  
 Wound dehiscence and evisceration management 838  
 Wound irrigation 840
- Z**
- Z-track injection 842
- Index 845
