LIST OF CONTENTS

Dedication	vii
Acknowledgements	viii
About the Author	ix
Guided Tour	x
Preface	xii
Introduction	xiv
Part 1 – Descriptive Statistics	1
1 The Language of Statistics	3
2 Working with Numbers and Data Display	21
3 Central Tendency and Variability	66
4 Probability Distributions	95
5 Sampling Distributions	121
Part 2 – Inferential Statistics	141
6 Estimation and Confidence Intervals	143
7 Hypothesis Testing	167
8 *z*-Tests and One-Sample *t*-Tests	187
9 Paired- and Independent-Samples *t*-Test	221
10 Analysis of Variance (ANOVA)	261
11 Chi-Squared (χ^2) Tests of Fit	294
12 Correlation and Regression	325
Part 3 – Wrap-Up	351
13 Matching Statistical Tests to Business Problems	353

Bibliography 375

Appendices 376

A1. *z*-Table 376

A2. *t*-Table 378

A3. *F*-Table ($\alpha = .05$) 380

A4. *F*-Table ($\alpha = .01$) 381

A5. χ^2-Table (chi-squared) 382

B1. Inferential Test Reference Table 383

B2. Inferential Test Decision Tree 384

C. Answers to Chapter Questions and Data Challenges 385

D. Glossary 401

E. Statistical Notation and Formulas 410

F. Enabling Excel's Data Analysis Add-In 419

Index 421
