

CONTENTS

- 1** Microscopy, 1
 - 2** Quality Assurance and Safety, 21
 - 3** Urine Specimen Types, Collection, and Preservation, 37
 - 4** The Kidney, 47
 - 5** Renal Function, 71
 - 6** Physical Examination of Urine, 91
 - 7** Chemical Examination of Urine, 109
 - 8** Microscopic Examination of Urine Sediment, 157
Urine Sediment Image Gallery, 219
 - 9** Renal and Metabolic Disease, 239
 - 10** Fecal Analysis, 271
 - 11** Seminal Fluid Analysis, 287
 - 12** Amniotic Fluid Analysis, 301
 - 13** Cerebrospinal Fluid Analysis, 313
 - 14** Synovial Fluid Analysis, 333
 - 15** Pleural, Pericardial, and Peritoneal Fluid Analysis, 347
 - 16** Analysis of Vaginal Secretions, 361
 - 17** Automation of Urine and Body Fluid Analysis, 373
 - 18** Body Fluid Analysis: Manual Hemacytometer Counts and Differential Slide Preparation, 385
- Glossary, 393
- Answer Key, 405

APPENDICES

- A Reagent Strip Color Charts, 416
 - B Reference Intervals, 418
 - C Body Fluid Diluent and Pretreatment Solutions, 421
- Index, 424**
