

CONTENTS

Preface by
Yves Béhar 6

Introduction by
John Kirkby 8

For each chapter, a supplementary list of related materials has been included in the Materials Directory starting on page 180. The numbers are Material ConneXion's MC Index numbers which are a six-digit reference that is unique to each material in the library. The first four digits correspond to a specific manufacturer, in chronological order of acceptance into the archive. The last two digits are the chronological reference of each specific material from that manufacturer. The MC numbers are the basis for how searches are conducted through the thousands of materials that exist in the library. For more information visit www.materialconnexion.com.
