Preface	xiv
1 Introduction	1
1.1 Industry context	1
1.2 Economics and financing of offshore energy projects	2
1.3 Technical and non-technical barriers and their mitigation measures	3
1.4 Findings, conclusions, recommendations and next steps	3
2 Offshore Resource	4
2.1 Introduction	4
2.2 Resource assessment	4
2.3 World distribution of offshore resources	4
2.4 Summary of offshore energy resources by country	8
3 Offshore Renewable Energy Technologies	11
3.1 Offshore wind devices	11
3.2 Wave energy devices	17
3.3 Tidal energy devices	32
3.4 Foundations, moorings and grid connection	42
4 Deployment Targets, Policies and Progress	53
4.1 Deployment targets and policies	53
4.2 Deployment to date	58
5 Economics of Offshore Energy Projects	60
5.1 Level of maturity of offshore technologies	60
5.2 Comparison of CAPEX, OPEX and cost of energy	63
5.3 CAPEX cost structure and drivers	64
5.4 OPEX cost structure and drivers	66
5.5 Cost of energy	67
5.6 Differences between countries of project location	67
5.7 Conclusions	68
6 Project Risks and Related Project Costs	70
6.1 Introduction	70
6.2 Effects of project risk assessment on economics	70

6.3	Key technical project risks	73
6.4	Impact of key variables upon total cost structure	81
6.5	Conclusions	86
7	Financing of Offshore Renewable Energy Projects	88
7.1	Financing options	88
7.2	Balance sheet finance	88
7.3	Conclusions	94
8	Technical Barriers and Mitigation Measures	96
8.1	Barriers common to all offshore renewable technologies	96
8.2	Barriers specific to offshore wind technologies	99
8.3	Barriers specific to wave and tidal technologies	99
8.4	Mitigation and removal of technology barriers	101
8.5	Electrical connection, transmission and grid integration barriers	108
8.6	Mitigation and removal of grid connection barriers	116
8.7	Conclusions	121
9	Non-Technical Barriers and Mitigation Measures	122
9.1	Introduction	122
9.2	Environmental barriers	122
9.3	Mitigation and removal of environmental barriers	134
9.4	Health-and-safety barriers	137
9.5	Mitigation and removal of health-and-safety barriers	139
9.6	Regulatory and permitting barriers	143
9.7	Mitigation and removal of regulatory and permitting barriers	157
9.8	Competing use barriers	159
9.9	Mitigation and removal of competing use barriers	162
9.10	Skills availability barriers	162
9.11	Mitigation and removal of skills availability barriers	164
9.12	Supply chain and infrastructure barriers	165
9.13	Mitigation and removal of supply chain and infrastructure barriers	170
9.14	Access to capital and financial support mechanism barriers	171
9.15	Mitigation and removal of financial barriers	173
9.16	Conclusions	185
10	Guidelines for Project Development	187
10.1	Stage A: Opportunity analysis	187
10.2	Stage B: Project materialization	191
10.3	Stage C: Reliability and sustainability	194
10.4	Conclusions	195
11	Findings, Recommendations and Model Policy Framework	196
11.1	Findings	196

11.2	Project development recommendations	199
11.3	Model policy framework	200
<i>Appendix A. References</i>		207
<i>Appendix B. List of Acronyms and Abbreviations</i>		223
<i>Appendix C. Assumptions Underlying the Sensitivity Analysis</i>		228
<i>Appendix D. Exchange Rates</i>		230
<i>Appendix E. Country Profiles</i>		231
E.1	Introduction	231
E.2	Canada	232
E.3	Denmark	237
E.4	France	241
E.5	Germany	243
E.6	Ireland	246
E.7	Italy	249
E.8	Japan	251
E.9	The Netherlands	253
E.10	Norway	254
E.11	UK	258
E.12	Belgium	267
E.13	Finland	268
E.14	Spain	269
E.15	Sweden	271
E.16	US	273
E.17	China	279
E.18	Taiwan	281
E.19	Portugal	284
