## GONIENIS

| Preface x Part One  |          | Levels of Measurement 51  Measurement Scales 53  Specialized Rating Scales 55  Reliability and Validity 57   |
|---|----------|--|
| The Research Process  |          | rondome, and range,  |
| Chapter 1   | (a       | Chapter 3 Research Ethics 64   |
| Science and Research 1  Introduction 2 What Is Research? 3 Getting Started 4 The Development of Mass Media Research 6 Media Research and the Scientific Method 9 The Methods of Knowing 9 Characteristics of the Scientific Method Research Procedures 13 Two Sectors of Research: Academic and Private 14 Research Procedures 15 Determining Topic Relevance 20 Stating a Hypothesis or Research Question 24 Data Analysis and Interpretation 25 Internal Validity 25 External Validity 30 | 10       | Ethics and the Research Process 65 Why Be Ethical? 65 General Ethical Theories 66 Ethical Principles 67 Specific Ethical Problems 69 Federal Regulations Concerning Research 76 Ethical Problems of Student–Faculty Research 80 Ethics and Online Research 81  Chapter 4 Sampling 88 Population and Sample 89 Research Error 90 Types of Sampling Procedures 91 Sample Size 104 Sampling Error 106 Finite Population Correction Factor 110 |
| Presenting Results 31 Research Suppliers and Field Services   | 32       | Part Two Research Approaches   |
| Chapter 2 Elements of Research 42 Concepts and Constructs 43 Independent and Dependent Variables Qualitative and Quantitative Research The Nature of Measurement 49   | 44<br>48 | Chapter 5 Qualitative Research Methods 116 Aims and Philosophy 117 Mixed Methods Research 121 Data Analysis in Qualitative Research 122  |

|   | In-Person vs. Online 127 Field Observation 127 Focus Groups 136 Intensive Interviews 142 Case Studies 143 Ethnography 147 Writing the Qualitative Research Report 151 | Chapter 9 Experimental Research 245 Advantages and Disadvantages of Laboratory Experiments 246 Conducting Experimental Research 248 Control of Confounding Variables 251 Experimental Design 253 |
|---|---|--|
| B | Chapter 6 Content Analysis 158  | Field Experiments 261 Conducting Experiments Online 266  |
|   | Definition of Content Analysis 159 Uses of Content Analysis 160 Limitations of Content Analysis 163 Steps in Content Analysis 163                                     | Part Three  Data Analysis  |
|   | Reliability 174 Validity 180 Examples of Content Analysis 181   | Chapter 10 Introduction to Statistics 273  |
|   | Content Analysis and the Internet 181  Chapter 7  | Descriptive Statistics 274 Sample Distribution 289 Data Transformation 293   |
|   | Survey Research 191   |  |
|   | Descriptive and Analytical Surveys 192<br>Advantages and Disadvantages of Survey  | Chapter 1 1 Hypothesis Testing 296   |
|   | Research 192 Constructing Questions 193 Questionnaire Design 202 Pretesting 207 Gathering Survey Data 207   | Research Questions and Hypotheses 297 Testing Hypotheses for Statistical Significance 300 Power Analysis 306   |
|   | A Special Note on Heiner the Internet   | Chapter 12 Basic Statistical Procedures 311  |
|   | Rate 219 General Problems in Survey Research 220  | History of Small-Sample Statistics 312 Degrees of Freedom 312 Nonparametric Statistics 315   |
|   | Chapter 8   | Parametric Statistics 319  |
|   | Longitudinal Research 224   |  |
|   | Development 225   | Part Four  |
|   | Types of Longitudinal Studies 226 Panel Studies 232   | Research Applications  |
|   | Special Panel Designs 236 Analyzing Causation in Panel Data 238 Combining Qualitative and Quantitative Data in Longitudinal Research 239                              | Chapter 13 Newspaper and Magazine Research 339   |
|   | Longitudinal Research on the<br>Internet 240<br>Longitudinal Design in Experiments 240  | Background 340 Types of Research 342 Website Usability Research 355  |

420

421

| (3) Chapter 14  Research in the Electronic Media  | 360      | Chapter 16 Research in Public Relations 419  |
|---|----------|--|
| Background 361 Ratings Research 362 Nonratings Research 379   |          | Types of Public Relations Research 4 Research in the Public Relations Process Public Relations Research: The Internet and Social Media 434 |
| Chapter 15 Research in Advertising 392 Copy Testing 394   |          | Appendix Tables 439<br>Glossary 454  |
| Media Research 400 Campaign Assessment Research 40 Qualitative Techniques in Advertising Research 408 Advertising Research and the Internet | 6<br>412 | Name Index 464 Subject Index 471   |
| Advertising research and the internet   | 114      |  |
