

CONTENTS

Chapter 1	Introduction	1
	Overview	1
	History	2
	SAP	2
	Sybase	2
	Apple/Xcode	2
	Mobility	2
	Challenges	3
	What This Book Covers	3
	Step 1: Creating the Mechanism to Get Data from the SAP Runtime Environment	4
	Step 2: Integrating Enterprise Mobility Code with an iOS App	4
	Step 3: Deploying Your Mobile Application	4
	Tool Bag	5
	Sybase Software	5
	Xcode	9
	Architecture	13
	Defining the Development Task	14
	Chapter 1 Exercises and Questions	15
 Chapter 2	 Strategy	 17
	Overview	17
	Licensing	18
	SUP Licenses	18

External Licenses	19
Development Considerations	19
Determining the User Base for Your App	19
Mobile Platform Limitations	21
Security	24
Data-Retrieval Methods	25
Hardware Sizing	33
Sizing Terminology	34
Initial Sizing	36
Relay Server	40
Deployment Solution	42
Conclusion	42
Chapter 2 Exercises and Questions	43
 Chapter 3 Setup	 45
Overview	45
Sybase Unwired Platform Setup	45
Downloading and Installing Sybase Unwired WorkSpace	46
Let's Start It Up!	68
Setting Up Data Connections in the Unwired WorkSpace	69
Introducing the Sybase Control Center (SCC)	78
Data-Connection Setup on the Unwired Server	79
Xcode Setup	82
Downloading and Installing Xcode	82
SUP Framework Components	84
Creating Your First Xcode iOS SUP Project	84
Chapter 3 Exercises and Questions	93
 Chapter 4 Accessing SAP Data	 95
Overview	95
Eclipse Setup/Start	96
Development Views	96
The Developer Profile	98
Data Connections	98
Database Connections	99
REST Web Services	102
SAP System	105
Web Services	107
Mobile Business Objects	108

Create a Project	110
JDBC/Database	112
SOAP	114
REST Web Service	119
SAP System	124
Local Business Objects	133
MBO Relationships	134
Personalization Keys	137
Load Parameters	141
Synchronization Parameters	142
MBO Object Query	144
MBO Operations	147
CREATE	149
Update	156
Other	158
ENTITY_READ	159
Synchronization Group	159
Cache Groups	162
Error Messages	165
Our Mini Project	165
Creating and Publishing a Web Service in SAP	165
Creating a SOAP Web Service	166
Creating a REST Web Service	173
Tips and Tricks	173
Chapter 4 Exercises and Questions	174
Chapter 5 Deploying the Package to SUP Server	175
Overview	175
Deploying Your Project	175
Deploying from the SDK	176
Deploying Inside the SCC	191
SCC Setup	197
Domain Setup	197
Connections	199
Generating Your Code	201
Chapter 5 Exercises and Questions	205
Chapter 6 Building the iOS App	207
Overview	207
Overview of App Functions	208

View Controller Setup	209
The Launch Interface	215
The Service Orders Interface	219
The Detail Interface	222
Service Layer	227
Mock Service Layer	227
Implement View Controllers	232
BITListingViewController	236
BITDetailViewController	239
Creating the SUP Service	243
Connection Support	243
Setting Application Security Configuration	251
Settings Bundle Again	253
SUP Connection Operations	253
Imports, Errors, and Properties	260
Coordinating the Connection	261
Registering the Device	261
Successful/Unsuccessful Registration	262
Connecting a Registered Device	263
Success or Failure	264
Handling Application Background	271
BITService Implementation	273
Data Operations	274
Retrieving All Service Orders	274
Calling SUP Operations	276
Additional Data Topics	278
Updating and Deleting	279
Updating	280
Logging and Debugging	280
Calling RESTful Service	282
Chapter 6 Exercises and Questions	284
 Chapter 7 Alternatives to SUP	 285
Overview	285
Appcelerator Alternative	285
Parse Alternative	285
Parse Solution	286
Parse Setup	286
Parse Analytics	290
Parse Data Browser	291
Saving and Retrieving Data	295

	Appcelerator Solution	304
	SDK	304
	Mobile APIs	304
	Titanium Modules	307
	Titanium Cloud	307
	Chapter 7 Exercises and Questions	308
Chapter 8	Administration	309
	Overview	309
	SCC Administration	309
	Server Administration	312
	Licensing	312
	Managing Ports	313
	Rebooting the Server	318
	Domains	320
	Log	321
	EIS Connections	323
	Packages	327
	Applications	334
	Chapter 8 Exercises and Questions	338
Chapter 9	Deploying the Finished App	339
	Overview	339
	Deploying to the Apple iTunes Store	339
	Preparing to Deploy	340
	Registering with Apple	340
	Deploying to Testers	342
	Publishing to the Apple App Store	348
	Deploying to the SAP Store	351
	Step 1: Certification	352
	Step 2: Deploying Your Solution to the SAP Store	360
	Chapter 9 Exercises and Questions	367

Please download our bonus chapter: **Chapter 10, Customer Purchase and Configuration**, from the companion website: www.cengageptr.com.

Appendix	Chapter Questions and Answers	369
