

1 Reviewing the basics 11

Versions of Windows	12
Editions of Windows 7	14
Basic controls	16
Working with programs	18
Libraries, folders and files	20
Accessing the Internet	22
Networking	24
Security and maintenance	26
Email and instant messaging	28

2 User account controls 29

User accounts	30
Create an account	31
Add an account password	32
Change the account picture	33
Turn on guest account	34
Fast user switching	35
User account control (UAC)	36
Adjust UAC settings	38
Password reset disk	39
Parental controls	40
Using the controlled account	42

3 Configure the desktop 43

Screen resolution	44
Make text larger	46
Multiple displays	48
ClearType	50
Personalize Windows	52
Get more themes online	54
Create a theme	56
Sound scheme	58
Screen saver	59
Save the theme	60
Other theme types	62

4 Windows your way 63

Customize the Start menu	64
Configure the taskbar	66

Notification area	68
Toolbars	69
Language bar	70
Pin programs to Taskbar	71
Pin programs to Start menu	72
Jump lists	73
Automatic logon	75
Automated shutdown	76
Change shortcut icon	78
Add keyboard shortcut	79
Mouse settings	80

5

Manage files and folders

81

Files, folders and libraries	82
Windows Explorer	83
Windows Explorer layout	85
Windows Explorer toolbar	86
Folder contents	87
Change your view	88
Sort contents	89
Windows 7 libraries	91
Add a location	92
Location unavailable	94
Arrange library contents	95
Create a library	96
Adjust properties	97
Customize folders	98

6

Searching techniques

99

Computer search	100
Start menu search	101
Address bar	102
Navigation pane	104
Folder and search options	106
Indexing options	108
Enhanced search	110
Using search filters	112
Favorites	113
Save searches	114
Move and copy	115

7

Built-in programs

117

Windows applications	118
Text management	119
Other text applications	121
Image management	123
Computations	126
Dis Writers	128

Utilities	130
Command Prompt	132
Windows PowerShell	133
System Tools	134
Administrative Tools	135
Desktop Gadgets	136

8

Windows Live Essentials

137

Getting started	138
Windows Live Essentials	139
Select and download	140
Completing installation	142
Other Windows Essentials	144
Adobe Reader	145
AVG Antivirus Free Edition	146
Irfanview	148
Notepad++	149
OpenOffice.org	150
Paint.NET	152
µTorrent	154

9

Enhance your email

155

Email (electronic mail)	156
Windows Live Mail	157
Create Windows Live ID	158
Add email accounts	159
Add another email account	160
Windows Live Mail window	162
View messages	164
Attachments	166
Adding contacts	168
Junk email	169
Mail Calendar	170
Windows Live Calendar	171
Instant messaging	172
Newsgroups	174
RSS feeds	176

10

Internet Explorer

177

Internet Explorer version 9	178
Internet Explorer window	180
Page back and forward	182
Search for web page	183
Change search provider	184
Open in new window	185
Tabbed browsing	186
Home page	188
Favorites	189

Pinned sites	190
Browsing history	191
RSS feeds and web slices	192
Managing add-ons	194
InPrivate Browsing	195
Zoom and Print	196
Compatibility View	198

11 Manage digital images 199

Digital images	200
Image file formats	201
Digital camera	202
Install the software	203
Transfer the Photos	205
View the imported images	207
Transfer more images	208
Create panoramic image	209
Import with Windows	211
Windows Live Photo Gallery	212
Edit photos	213
Print your photos	215
Video clips	216
Edit your video clip	217
Create a movie from photos	218
Save and publish your movie	220

12 Music and media 221

Audio connections	222
Play CDs	223
Copy CD tracks	224
Media Player Library	225
Download media files	226
Internet radio	228
Home media streaming	230
Play to device or computer	231
Windows Media Center	232
Dictate to your computer	234
Text to speech	236

13 Devices and printers 237

Add a printer	238
Updating device drivers	240
Sharing the printer	242
Share printer with XP	244
Wireless printer	246
Virtual printers	249
Generic/text only printer	251
Location aware printing	253

Add a scanner	254
Using the scanner	256

14 Networking Windows 257

Create a network	258
Create a HomeGroup	260
Network and sharing center	262
Connect to wireless network	264
Dual network access	266
Manage wireless networks	267
Network versus HomeGroup	268
Network map	269
Sharing folders	270
Monitor network	272

15 Laptops and Multitouch 273

Portable computers	274
Power management	275
Portable power management	276
Battery meter	278
User interface for portables	280
Windows Mobility Center	282
Mobility Center functions	284
Netbook computers	286
Touch and Tablet PCs	288
Taking advantage of Touch	290

16 Sync with smartphone 291

Smartphones	292
Windows Phone 7	293
Set up Windows Phone	294
Windows Phone software	296
Set up software and phone	298
Choose what to sync	300
Enable Wi-Fi	302
Networked Windows Phone	304
Play To TV or Computer	305
Outlook Hotmail Connector	306
Copy Contacts and Calendar	308
Update Windows Phone	310

17 Troubleshooting 311

Windows error reporting	312
Troubleshooting settings	314
Windows Troubleshooters	315

Troubleshooter in action	316
Problem Steps Recorder	317
View the report	319
Get help from a friend	320
Connecting and sharing	322
Easy Connect	324
System Restore	325
Start in Safe Mode	327
Safe Boot	328
Program Compatibility	329

18

Backup and recovery

331

Copy files and folders	332
Copy libraries	334
Windows Backup	336
The first backup	338
After the backup	340
Scheduled backup	341
Create a manual backup	342
Manage space	343
Restore files	344
Previous versions of files	346
Recover your computer	347
System repair disc	349

19

Virtual machines

351

Windows Virtual PC	352
Install Windows Virtual PC	354
Install Windows XP Mode	356
Setup Windows XP Mode	358
The XP Mode system	360
Install an XP application	361
Run the XP application	362
Add existing XP applications	364
Add a virtual system	365
Create the virtual machine	366
Setup the virtual system	367
Install the virtual system	368
Install Vista as guest	369
Install and use Vista	370
Predefined VHD	371

20

Security and Encryption

373

User account management	374
Set password to expire	376
Hide user list	378
Encrypting files	380
Using EFS	381

Backup encryption key	383
Bitlocker to Go	385
Access the encrypted drive	387
Access from Vista	388
Access from XP	389
Whole system encryption	390

21

Command Prompt

391

Open Command Prompt	392
Select a folder	394
Open as administrator	395
Administrator shortcut	396
Adjust appearance	397
Changing window properties	399
Using the Command Prompt	400
Command line changes	402

22

Update and maintain

403

Windows Update	404
Update Settings	406
Microsoft Update	408
Update categories	409
Update history	410
Upgrading Windows	412
Windows Anytime Upgrade	413
Apply the upgrade	414
Disk management	416
Disk cleanup	417
Error checking	419
Defragmentation	421

23

Windows performance

423

System Properties	424
Windows Experience Index	426
Improving performance	428
Data execution prevention	430
Advanced system settings	431
Advanced tools	432
WinSAT and Event Viewer	433
Windows monitors	434
Information on the system	436
Other advanced tools	438
Boosting performance	439
32-bit versus 64-bit	441

24

Windows Registry

443

The Windows Registry	444
Registry backup	446
Open Registry Editor	447
Example Registry change	448
Finding a key	450
Backup before changes	451
Change a value entry	452
Using a standard account	453
Scripted updates	455
Applying an update	456
Resize taskbar thumbnails	457
Remove shortcut suffix	458
Adjust Aero Peek	460

25

Where next for Windows

461

Internet Explorer 10	462
Preview IE 10	464
Windows Live Essentials	466
Windows Blogs	468
Windows 8	469
