

Contents

Section 1: Principles of Oral and Maxillofacial Surgery

1. **Introduction to Oral and Maxillofacial Surgery** 3
 - Definition 3
 - Scope 3
 - Multidisciplinary Team Approach 6
 - Newer Advances 6
2. **Art of Diagnosis and Diagnostic Imaging ... 7**
 - History Taking 7
 - Clinical Examination 9
 - Clinical Diagnostic Aids 13
 - Diagnostic Imaging 13
 - Selection of Imaging Modality 13
 - Radiological Examination 14
 - Investigations 28
3. **Management of Medically Compromised Patients in Oral Surgery** 40
 - Classification of Physical Status 40
 - Cardiac (Cardiovascular) Diseases 40
 - Hypertension 43
 - Respiratory Diseases 45
 - Bronchial Asthma 46
 - Renal Diseases 47
 - Hepatic Diseases 48
 - Diabetes Mellitus 48
 - Thyroid Disorders 49
 - Adrenal Diseases 49
 - Neurological Disorders 50
 - Disorders of Hemopoietic System 50
 - Immunocompromised Patients 52
 - Autoimmune Disorders 52
 - HIV Testing and Counseling 53
 - Management 58
4. **Armamentarium Used in Oral and Maxillofacial Surgery** 62
 - Miscellaneous Instruments 78

- Instruments Used to Maintain a Clean Surgical field 78
- Cryosurgery 89

5. **Suturing Materials and Techniques** 91
 - Historical Background 91
 - Nonabsorbable Sutures 94
 - Natural Absorbable Sutures 95
 - Synthetic Absorbable Sutures 96
 - Coated Vicryl: Polyglactin-910 Braided Suture Material 96
 - Suture Needles 97
 - Suturing Techniques 100
 - Suture Removal 101
 - Mechanical Wound Closure Devices 101
6. **Asepsis and Sterilization** 103
 - Definitions of Various Terminologies 103
 - Classification of Instruments 103
 - Transport of Used Items 104
 - Cleansing of Instruments 104
 - Packaging or Wrapping Instruments for Autoclaving 106
 - Methods of Sterilization 106
 - Storage of Sterile Goods 114
 - Disinfection 114
 - Disinfectants 115
 - Antiseptics 116
 - Operating Room Procedures 117
7. **Infection Control** 124
 - Introduction 124
 - Objective 124
 - Infection 124
 - General Principles 129
 - Waste Disposal 138
8. **Antimicrobial Therapy** 141
 - Principles of Antibiotic Therapy 141
 - Removal of Source of Infection 143
 - Beta-lactam Antibiotics 144
 - Antiviral Antibiotics 152
 - Antimycotic Agents 154
 - Lincomycin and Clindamycin 157
 - Guidelines for Antibiotic Prophylaxis 157

Section 2: Local Anesthesia in Oral and Maxillofacial Surgery

- 9. Local Anesthesia 163**
 Theories for Mechanism of Action of Local Anesthetic Agents 164
 Classifications of Local Anesthetic Agents 164
 Lignocaine (Lidocaine, Xylocaine, Octocaine, Dentocaine) 166
 Local Anesthetic Agents 168
 Armamentarium 172
 Complications Due to the Use of LA 194

Section 3: General Anesthesia and Sedation in Oral and Maxillofacial Surgery

- 10. Introduction to General Anesthesia and Sedation 199**
 Definition 199
 Historical Background 199
 Shortfalls of General Anesthesia in a Dental Chair 200
- 11. Preanesthetic Evaluation 202**
 Introduction 202
 Objectives of Preanesthetic Evaluation 202
- 12. Preanesthetic Preparation and Premedication 208**
 Basic Plan of Preanesthetic Preparation 208
- 13. Anesthetic Equipment 217**
 Anesthesia and Resuscitation Equipment 217
 Monitoring Equipment 226
 Oxygen Delivery Equipment 228
 Intravenous Infusion Equipment 229
 Newer Advances 231
- 14. Pharmacology of Anesthetic Drugs 232**
 Properties of an Ideal Anesthetic Agent 232
 Inhalational Induction Agents 233
 Intravenous Induction Agents 240
 Muscle Relaxants 240
- 15. Sedation Techniques for Dentistry 243**
 Levels of Sedation 243
 Techniques of sedation 243

16. Short Anesthesia in a Dental Chair 249

- Indications for General Anesthesia in Dental Chair 249
 General Principles of Management 250
 Monitors and Resuscitation Equipment 250
 Day-stay Surgery 250
 Position in Dental Chair: Horizontal/Sitting 251
 Induction of Anesthesia 251
 Maintenance of Anesthesia 252
 Endotracheal Anesthesia 252
 Recovery 253
 Complications of Dental Anesthesia 253

17. Tracheal Intubation for a Patient Undergoing Oral and Maxillofacial Surgery 255

- Indications for Tracheal Intubation 255
 Armamentarium Required for Intubation 255

Section 4: Exodontia and Minor Oral Surgical Procedures

- 18. Exodontia 269**
 Techniques of Dental Extractions 269
 Challenging Factors 269
 Indications 269
 Contraindications 270
 Armamentarium Used for Exodontia 271
 Instruments Used to Luxate the Tooth 274
 Mechanical Work Principles of Forceps and Elevation 275
 Steps to Carry out Simple Extraction 281
 Reasons for Breakage of a Tooth/Incomplete Removal of a Tooth 282
 Complications of Tooth Extraction 282
 Post-extraction Care 283
- 19. Principles of Minor Oral Surgical Procedures and Transalveolar Extractions 284**
 Basic Purpose of Surgery 284
 Principles of Oral Surgery 284
- 20. Surgical Management of Impacted Teeth 293**
 Definition of Impacted Teeth 293
 Commonly Used Terminologies 293
 Classification of Impacted Third Molars 299
 Factors Responsible for Increasing the Difficulty Score for Removal of Impacted Teeth 304
 Surgical Removal of Impacted Teeth 312
 Tooth/Root Sectioning: Splitting of Tooth/Root—Odontectomy 317

Early Removal or Germectomy: Lateral Trephination

Technique 319

Coronectomy 320

Complications 324

21. Surgical Endodontics 325

Indications 325

Contraindications 325

Procedure 325

Steps 327

Retropreparation 327

Complications 328

Section 5: Temporomandibular Joint Disorders

22. Temporomandibular Joint: Afflictions and Management 333

Anatomy of the Temporomandibular Joint 333

Temporomandibular Joint Disorders 339

Surgical Approaches to Mandibular Condyle and its Neck 350

23. Ankylosis of the Temporomandibular Joint and its Management 358

Classification of Ankylosis 358

Etiopathology 358

Pathogenesis 360

Diagnosis 360

Clinical Manifestations 360

Management of TMJ Ankylosis 364

24. Myofascial Pain Dysfunction Syndrome 376

History 376

Clinical Characteristics 377

Pathophysiology (Etiology) 377

Symptoms 377

History of the Patient 378

Objectives of Treatment in Myofascial Pain Dysfunction Syndrome 385

Section 6: Orthognathic Surgery

25. Introduction to Orthognathic Surgery, Diagnosis and Treatment Planning 399

Types of Skeletal Dentofacial Deformities 400

Severe Skeletal Dentofacial Deformities and

Associated Problems 407

Treatment Options 407

Facial Esthetic Analysis 408

A "Quick Ceph" Dentofacial Planner for Orthognathic Surgery 413

Final Treatment Plan 416

Recent Advances 417

26. Presurgical Orthodontic Phase 421

Presurgical Orthodontics Objectives 422

Postsurgical Orthodontics Objectives 429

27. Orthognathic Surgery: Osteotomy Procedures 431

Historical Development of Orthognathic Surgery 431

Protocol for Osteotomies 432

Osteotomy Procedures 432

Maxillary Osteotomy Procedures 449

28. Distraction Osteogenesis in Oral and Maxillofacial Surgery 464

Definition 464

Phases of Distraction Osteogenesis 464

Historical Background 464

Types of DO 465

Biological Aspects 465

Indications 467

Mandibular Distraction Osteogenesis 468

Maxillary Distraction Osteogenesis 472

Transport Disk Distraction Osteogenesis 482

Cranial Distraction 483

Section 7: Maxillofacial Trauma

29. Basic Principles for the Management of Maxillofacial Injuries 487

General Care of the Injured Patient 487

Basic Principles of Treatment of Severe Maxillofacial Injuries 487

Basic ABCs to be Followed for Preservation of Life 488

Soft Tissue Injuries 490

30. Injuries of the Maxillofacial Skeleton 495

Etiology of Maxillofacial Injuries 495

Local Clinical Examination of Maxillofacial Injuries 497

31. Fractures of the Middle-third of the Facial Skeleton 524

- Middle-third of the Facial Skeleton 524
- Classification of Fractures of Middle-third of Facial Skeleton 529
- Fractures of the Zygomatic Complex 533
- Diplopia 538
- Enophthalmos 540

32. Principles of Treatment of Midfacial Fractures 543

- Methods of Reduction for Midface Fractures 543
- Treatment of Fractures of the Zygomatic Bone 546
- Fractures of the Nasal Bone and Treatment 556

33. Applied Surgical Anatomy of the Mandible and Classification of Mandibular Fractures 560

- Anatomy of the Mandible 560
- Classifications of Mandibular Fractures 563

34. Management of Mandibular Fractures 568

- Mandibular Fractures in Children 568
- Management of Mandibular Fractures in Adults 568
- Surgical Approaches to the Mandible 570
- Bone Plating in Mandibular Fractures 577

35. Fractures of the Condylar Process and Its Management 588

- Incidence of Condylar Fractures 588
- Classification of Condylar Fractures 588
- Etiological Factors Leading to Condylar Fractures 591
- Diagnostic Findings of Condylar Fractures 593
- Treatment of Condylar Fractures 593

Section 8: Preprosthetic Surgery

36. Preprosthetic Surgery 603

- Oral and Maxillofacial Prosthetics 603
- Objective of the Preprosthetic Surgery 603
- Preprosthetic Surgical Procedures 607
- Alveolar Ridge Correction 607
- Ridge Extension Procedures 619
- Ridge Augmentation Procedures 623

Section 9: Cysts and Tumors of the Orofacial Region

37. Cysts of the Jaws and Oral/Facial Soft Tissues 639

- Cyst Formation 639
- Intraosseous Cysts 642
- Soft Tissue Cysts of the Oral Cavity 659
- General Principles of Treatment of Cysts of the Oral Cavity 664

38. Benign Tumors of the Jaw Bones 674

- Odontogenic Tumors 674
- Nonodontogenic Tumors 675
- General Principles of Management of a Jaw Lesion 676
- Clinical Examination of the Lesion 677
- Principles of Surgical Management of Jaw Tumors 678
- Odontogenic Tumors of Various Origins 689
- Tumors Arising from Odontogenic Ectomesenchyme with or without Inclusion of Odontogenic Epithelium 702
- Nonodontogenic Lesions of the Jaws 705
- Nonneoplastic Bone Lesions 711
- Keratocystic Odontogenic Tumor 721
- Use of Carnoy's Solution 728
- Recurrence of Kcots Lesions 729

Section 10: Salivary Gland Disorders

39. Diseases of the Salivary Glands 737

- Salivary Glands: Anatomy 737
- Salivary Glands: Physiology and Saliva Content 742
- Autonomic Innervations 743
- Classification of Salivary Gland Diseases 744
- Salivary Gland Dysfunction 746
- Sialolithiasis 747
- Cysts of the Salivary Glands 753
- Tumors of the Salivary Glands 757
- Necrotizing Sialometaplasia 760
- Sialadenosis 761
- Diagnostic Imaging 764
- Salivary Analysis: Sialochemistry—Examination of Electrolyte Composition of Saliva 771
- Clinical Examination: Differential Diagnosis 771

Surgical Management	772
Complications of Surgery of Salivary Glands	776

Section 11: Orofacial Clefts

40. Cleft Lip and Cleft Palate	
Management	781
Incidence	782
Etiology	782
Embryological Aspects	783
Associated Deformities and Problems	788
Aims and Objectives of Management of Cleft Lip and Palate	790
General Management Protocol for the Cleft Patient	790
Management of Cleft Lip: Unilateral and Bilateral	794
Bilateral Cleft Lip	797
Cleft Palate and Management	799
Complete Cleft Lip and Palate Deformity	803
Orthodontics in Cleft Lip and Palate	803

Section 12: Maxillary Sinus and its Implications

41. Management of Maxillary Sinus	
Afflictions	807
General Considerations	807
Clinical Examination of Maxillary Sinus	811
Radiology of Maxillary Sinus	811
Infections of Maxillary Sinus	813
Oroantral Communication and Fistula	816
Functional Endoscopic Sinus Surgery	826

Section 13: Orofacial and Neck Infections

42. Orofacial and Neck Infections and their Management	833
Etiology	833
Pathways of Odontogenic Infection	834
Microbiology	837
Spread of Orofacial Infection	839
Factors Influencing Spread	840
Evaluation of the Patient with Orofacial Infection	841

Potential Spaces	848
Classification of Fascial Spaces	851
Possible Untoward or Life-threatening Complications of Orofacial Infection	873

43. Osteomyelitis and Osteoradionecrosis of the Jaw Bones	886
Osteomyelitis of the Jaw Bones	886
Types of Osteomyelitis	903
Tuberculous Osteomyelitis of the Jaw Bones	909
Osteoradionecrosis of the Facial Bones (ORN)	914

Section 14: Facial Neuropathology

44. Trigeminal Neuralgia and its Management	925
Definition	925
Etiology and Pathogenesis	925
General Characteristics	926
Clinical Characteristics	926
Diagnosis	927
Treatment	929

45. Sensory Disturbances of Face and Jaws	941
Impaired Sensation	941
Etiology	942
Incidence	942
Classification of Mechanical Nerve Injuries	942
Evaluation	946
Management	948

46. Facial Nerve and Motor Disturbances of Face and Jaws	953
Facial Nerve	953
Motor Disturbances of the Face and Jaws	958

Section 15: Oral Malignancies

47. Premalignant Lesions and Conditions of the Oral and Maxillofacial Region	969
Incidence	969
Leukoplakia	969
Erythroplakia	974
Oral Submucous Fibrosis (OSMF)	974
Oral Lichen Planus	980

48. Oral Cancer 983

- Incidence 983
- Anatomical Subsites of Cancer in the Oral Cavity 983
- Etiology 984
- Spread of Squamous Cell Carcinomas of the Oral Cavity 985
- Management 988
- Management of the Neck Lymph Nodes 994
- Lymph Node Levels 995
- Classification of Neck Dissection 996
- Survival and Prognosis 998
- Role of Dental Practitioner in Oral Cancer Management 998

Section 16: Implantology in Oral and Maxillofacial Surgery

49. Dental Implants: An Overview 1001

- History 1001
- Implantation 1001
- Osseointegration or Osseous Integration (1993) 1001
- Rationale for Implant Treatment 1003
- Classifications for Implant Treatment 1003
- Implant Materials 1008
- Titanium Implants 1008
- Advantages of Dental Implants 1009
- Anatomy or Parts of an Implant System 1009
- Patient Selection Criteria 1010
- Computed Tomography 1012
- Armamentarium for Implant Surgery 1013
- Basic Factors in Implant Surgery 1014
- Placement of the Implant in an Acceptable Position 1016
- Preoperative Care 1016
- Anesthesia 1017
- Incisions 1017
- Different Flap Designs Options for Implant Placement 1017
- Basic Flap Design and Soft Tissue Handling 1018
- Postoperative Instructions 1020
- Abutment Connection 1020
- Surgical Complications of Implant Therapy 1024

- Nonsurgical Management of Peri-implantitis 1026
- Surgical Management of Peri-implantitis 1026
- Absolute Indication for explantation 1026
- Long-term Maintenance Protocol for Implants 1027

Section 17: Management of Medical Emergencies

50. Hemorrhage and Shock: Its Management in Oral Surgery 1031

Shock 1043

51. Management of Medical Emergencies in**Dental Clinic****1047**

- Recognition of Patient at Risk 1047
- Drugs and Resuscitation Equipment 1047
- Basic Life Support 1053
- Common Medical Emergencies and their Management 1055

52. Cardiopulmonary Resuscitation 1062

- Pathophysiology 1062
- Cardiac Arrest and its Treatment 1062
- Basic Life Support 1063
- Advanced Cardiac Life Support 1066

Section 18: Recent Advances in Oral and Maxillofacial Surgery

53. Recent Advances in Oral and Maxillofacial Surgery 1071

- Advances in the Field of Radiology and Imaging 1071
- Intraoperative Navigation and Robotic Surgery 1074
- Advances in Local Anesthetics 1078
- Recent Advances in Maxillofacial Trauma Management 1079

Appendices 1093**Index 1113**
