|                             |     |
|-----------------------------|-----|
| About the Editors .....     | vii |
| About the Contributors..... | ix  |
| Introduction.....           | xi  |

## **Chapter 1 MOOCs.....1**

*David Kernohan*

|                                      |   |
|--------------------------------------|---|
| 1.1 The Melting of the MOOC.....     | 1 |
| 1.2 From Education to Training ..... | 3 |
| 1.3 Fight or Flight.....             | 4 |
| References.....                      | 6 |

## **Chapter 2 Open Access: The Costs and Opportunities .....7**

*Frank Manista and Jo Lambert*

|                                    |    |
|------------------------------------|----|
| 2.1 Introduction.....              | 7  |
| 2.2 The Costs of OA.....           | 8  |
| 2.3 The Opportunities for OA ..... | 10 |
| 2.4 Research Impact .....          | 12 |

## **Chapter 3 Creating Opportunities Through Security .....15**

*Andrew Cormack*

|                                                           |    |
|-----------------------------------------------------------|----|
| 3.1 Understanding Security in Research and Education..... | 15 |
| 3.2 New Ways of Being Secure.....                         | 16 |
| 3.3 Designing Security for Research and Education.....    | 18 |
| 3.4 Creating Opportunities Through Safe Working.....      | 19 |
| References.....                                           | 20 |

## **Chapter 4 Open Data: Higher and Further Education**

### **Stepping up to the Challenge.....21**

*Rachel Bruce and Andy McGregor*

|                                                 |    |
|-------------------------------------------------|----|
| 4.1 Why It Matters .....                        | 22 |
| 4.2 Where Is Further and Higher Education?..... | 24 |

**Chapter 5 Enhancing the Digital Student Experience.....31**

*Sarah Knight*

|     |                                                                                 |    |
|-----|---------------------------------------------------------------------------------|----|
| 5.1 | What Is Changing? .....                                                         | 31 |
| 5.2 | Who Owns the Technology? .....                                                  | 32 |
| 5.3 | How Is Technology Enhancing the Curriculum? .....                               | 33 |
| 5.4 | How Is Technology Enhancing Assessment? .....                                   | 35 |
| 5.5 | How Are Students Engaged in Developing the<br>Digital Student Experience? ..... | 35 |
| 5.6 | What Are the Challenges Facing Institutions? .....                              | 37 |
| 5.7 | Principles for Developing an Enhanced Digital Student<br>Experience .....       | 38 |
|     | References .....                                                                | 40 |

**Chapter 6 International Collaboration and the Changing  
Digital World – Opportunities and Constraints .....41**

*Matthew Dovey*

|     |                                     |    |
|-----|-------------------------------------|----|
| 6.1 | Introduction.....                   | 41 |
| 6.2 | Research E-infrastructure .....     | 42 |
| 6.3 | Network E-infrastructure.....       | 43 |
| 6.4 | Computational E-infrastructure..... | 44 |
| 6.5 | Data E-infrastructure.....          | 45 |
| 6.6 | Virtual Research Environments.....  | 47 |
| 6.7 | Virtual communication.....          | 48 |
| 6.8 | Conclusion.....                     | 49 |
|     | References.....                     | 50 |
