## SECTION

### CHAPTER

#### ***The Roles of the Physical Therapist and Physical Therapist Assistant in Neurologic Rehabilitation, 1***

Introduction, 1

The Role of the Physical Therapist in Patient Management, 3

The Role of the Physical Therapist Assistant in Treating Patients with Neurologic Deficits, 4

The Physical Therapist Assistant as a Member of the Health Care Team, 8

### CHAPTER

#### ***Neuroanatomy, 10***

Introduction, 10

Major Components of the Nervous System, 10

Reaction to Injury, 30

### CHAPTER

#### ***Motor Control and Motor Learning, 33***

Introduction, 33

Motor Control, 33

Issues Related to Motor Control, 44

Motor Learning, 46

Theories of Motor Learning, 46

Stages of Motor Learning, 47

### CHAPTER

#### ***Motor Development, 56***

Introduction, 56

Developmental Time Periods, 57

Influence of Cognition and Motivation, 59

Developmental Concepts, 62

Developmental Processes, 64

Motor Milestones, 66

Typical Motor Development, 69

Posture, Balance, and Gait Changes with Aging, 86

## SECTION

### CHAPTER

#### ***Positioning and Handling to Foster Motor Function, 91***

Introduction, 91

Children with Neurologic Deficits, 91

General Physical Therapy Goals, 92

Function Related to Posture, 92

Physical Therapy Intervention, 93

Positioning and Handling Interventions, 95

Preparation for Movement, 105

Interventions to Foster Head and Trunk Control, 108

Adaptive Equipment for Positioning and Mobility, 117

Functional Movement in the Context of the Child's World, 126

### CHAPTER

#### ***Cerebral Palsy, 131***

Introduction, 131

Incidence, 131

Etiology, 131

Classification, 133

Functional Classification, 136

Diagnosis, 137

Pathophysiology, 137

Associated Deficits, 137

Physical Therapy Examination, 141

Physical Therapy Intervention, 145

CHAPTER 7

**Myelomeningocele**, 171

Introduction, 171  
Incidence, 171  
Etiology, 171  
Prenatal Diagnosis, 173  
Clinical Features, 173  
Physical Therapy Intervention, 178

CHAPTER 8

**Genetic Disorders**, 201

Introduction, 201  
Genetic Transmission, 201  
Categories, 202  
Down Syndrome, 202  
Cri-Du-Chat Syndrome, 205  
Prader-Willi Syndrome and Angelman Syndrome, 206  
Arthrogryposis Multiplex Congenita, 206  
Osteogenesis Imperfecta, 211  
Cystic Fibrosis, 216  
Spinal Muscular Atrophy, 222  
Phenylketonuria, 224  
Duchenne Muscular Dystrophy, 224  
Becker Muscular Dystrophy, 229  
Fragile X Syndrome, 229  
Rett Syndrome, 231  
Autism Spectrum Disorder, 232  
Genetic Disorders and Intellectual Disability, 232

SECTION  
**ADULTS**

CHAPTER 9

**Proprioceptive Neuromuscular Facilitation**, 249

Introduction, 249  
History of Proprioceptive Neuromuscular Facilitation, 249  
Basic Principles of PNF, 250  
Biomechanical Considerations, 252  
Patterns, 252  
Proprioceptive Neuromuscular Facilitation Techniques, 262  
Developmental Sequence, 279  
Proprioceptive Neuromuscular Facilitation and Motor Learning, 298

CHAPTER

**Cerebrovascular Accidents**, 300

Introduction, 300  
Etiology, 300  
Medical Intervention, 301  
Recovery from Stroke, 301  
Prevention of Cerebrovascular Accidents, 302  
Stroke Syndromes, 302  
Clinical Findings: Patient Impairments, 304  
Treatment Planning, 308  
Complications Seen Following Stroke, 309  
Acute Care Setting, 310  
Directing Interventions to a Physical Therapist Assistant, 310  
Early Physical Therapy Intervention, 311  
Midrecovery to Late Recovery, 353

CHAPTER 11

**Traumatic Brain Injuries**, 368

Introduction, 368  
Classifications of Brain Injuries, 368  
Secondary Problems, 370  
Patient Examination and Evaluation, 371  
Patient Problem Areas, 372  
Physical Therapy Intervention: Acute Care, 373  
Physical Therapy Interventions During Inpatient Rehabilitation, 376  
Integrating Physical and Cognitive Components of a Task into Treatment Interventions, 387  
Discharge Planning, 390

CHAPTER 12

**Spinal Cord Injuries**, 395

Introduction, 395  
Etiology, 395  
Naming the Level of Injury, 395  
Mechanisms of Injury, 397  
Medical Intervention, 398  
Pathologic Changes that Occur Following Injury, 399  
Types of Lesions, 400  
Clinical Manifestations of Spinal Cord Injuries, 402  
Resolution of Spinal Shock, 402  
Complications, 402  
Functional Outcomes, 405  
Physical Therapy Intervention: Acute Care, 409

Physical Therapy Interventions During Inpatient  
Rehabilitation, 415

Body-Weight-Support Treadmill, 452

Discharge Planning, 453

CHAPTER

***Other Neurologic Disorders***, 461

Introduction, 461

Parkinson Disease, 461

Multiple Sclerosis, 469

Amyotrophic Lateral Sclerosis, 478

Guillain-Barré Syndrome, 479

Postpolio Syndrome, 483

***Index***, 493
