About the Author	xix

Chapter 1 The Physical Activity and Health Connection 3

Introduction	4
Health, Wellness, and Lifestyle	4
Physical Activity and Its Relationship to Health	10
Physical Activity, Exercise, and Physical Fitness	10
Physical Activity Recommendations for Health	13
Why We Live Sedentary Lives	16
A Lifestyle Approach to Physical Activity	16
Investing in Your Health	17
Physical Activity and Health Connection	17

Chapter 2 Understanding and Enhancing Health Behaviors 23

Introduction	24
Self-Change Approach	24
Transtheoretical Model of Behavior Change	26
Making a Behavioral Change Plan	36
Physical Activity and Health Connection	37

Chapter 3 Principles of Physical Fitness Development 43

Introduction	44
<i>Physical Activity Guidelines for Americans</i>	44
Exercise Guidelines for Obtaining Optimal Health and Fitness	48
My Physical Activity and Exercise Pyramid	48
Components of Health-Related Physical Fitness	51
Response and Adaptation to Physical Activity	54
The Principles of Training	55
Designing Your Exercise Program	57
Safety and Effectiveness	61
Physical Activity and Health Connection	62

Chapter 4**The Heart of Physical Fitness: Cardiorespiratory Endurance 67**

- Introduction 68
- Assessing Cardiorespiratory Endurance 72
- Designing Your Cardiorespiratory Fitness Program 73
- Physical Activity and Health Connection 83

Chapter 5**The Power of Resistance Training: Strengthening Your Health 87**

- Introduction 88
- Muscle Anatomy and Physiology 89
- Basics of Resistance Training 94
- Designing Your Resistance Training Program 97
- Physical Activity and Health Connection 111

Chapter 6**Focus on Flexibility: Stretching for Better Health 115**

- Introduction 116
- Factors Influencing Flexibility 116
- Assessing Flexibility 118
- Designing Your Stretching Program 118
- Common Stretching Exercises 120
- Low-Back Pain Prevention and Rehabilitation 127
- Physical Activity and Health Connection 129

Chapter 7**Optimal Nutrition for an Active Lifestyle 133**

- Introduction 134
- Nutrition Basics 135
- Classes of Nutrients 138
- Planning a Nutritious Diet 153
- Nutrition and Physical Activity 172
- Physical Activity and Health Connection 173

Chapter 8**Achieving and Maintaining a Healthy Weight 177**

- Introduction 178
- Overweight and Obesity and Health Risk 181
- Maintaining a Healthy Body Weight 192
- A Lifestyle Approach to Achieving and Maintaining a Healthy Weight 198
- Body Image and Weight 203
- Physical Activity and Health Connection 206

Chapter 9**Achieving Optimal Bone Health 211**

- Introduction 212
- Bone Physiology and Structure 212
- Nutrition and Physical Activity for Bone Health 214
- Osteoporosis 219
- Physical Activity and Health Connection 224

Chapter 10 Mental Health and Coping with Stress 229

- Introduction 230
- Mind-Body Relationship 232
- Understanding Stress 236
- Stress Management 244
- The Mental Health Benefits of Physical Activity 247
- Quick Relaxation Techniques 248
- Physical Activity and Health Connection 249

Chapter 11 Making Informed Decisions About Drug Use 255

- Introduction 256
- Drug Terminology 257
- Chronic Drug Use 260
- Making Drug-Use Decisions 262
- Commonly Used and Misused Psychoactive Drugs 262
- Alcohol and Society 263
- Tobacco Use: An Enduring Health Threat 275
- Physical Activity and Health Connection 282

Chapter 12 Consumer Health 287

- Introduction 288
- Scope of the Problem 288
- Becoming a Wiser Health Consumer 293
- Physical Activity and Health Connection 301

Chapter 13 Developing Healthy Social and Intimate Relationships 305

- Introduction 306
- Relationship Types 308
- Relationship Needs 309
- Defining Sex and Sexuality 310
- Developing Positive Intimate Relationships 312
- Relationships and Social Wellness 315
- Healthy Communication in Relationships 315
- A Healthy Sexual Relationship 317
- Sexual Anatomy 317
- Managing Your Fertility 321
- Physical Activity and Health Connection 323

Chapter 14 Protecting Your Cardiovascular System 329

- Introduction 330
- Understanding Cardiovascular Disease 330
- Atherosclerosis: The Enemy Within 331
- Coronary Heart Disease 333
- Stroke 334

Chapter 4

High Blood Pressure	335
Heart Failure	338
Diseases of the Arteries	338
Cardiovascular Disease Risk Factors	338
Risk Factors You Can Change	339
Contributing CVD Factors	345
Risk Factors You Cannot Change	345
Physical Activity and Health Connection	347

Chapter 15

Reducing Your Cancer Risk 351

Introduction	352
Defining Cancer	354
Cancer Statistics	354
Origins of Cancer	354
Levels of Prevention	357
Cancer Risk Factors	358
Cancer Screening and Early Detection of Cancer	366
Treating Cancer	367
Physical Activity and Health Connection	369

Chapter 16

Preventing Sexually Transmitted Infections 375

Introduction	376
Understanding Infectious Diseases	377
Sexually Transmitted Infections	380
Sexually Transmitted Viral Infections	385
Sexually Transmitted Bacterial Infections	389
Other Sexually Transmitted Infections	390
Preventing Sexually Transmitted Infections	391
Physical Activity and Health Connection	396

Appendix A

Injury Care and Prevention 399

Exercise-Related Injuries	399
How to Examine for an Injury	399
RICE Procedures	400
Returning to Physical Activity After an Injury	401
Specific Injuries	401
How Heat Affects the Body	407
Cold-Related Injuries	409

Appendix B

Dietary Reference Intakes (DRIs) 413

Glossary 419

Index 431

Workbook 445
