Preface ix

## **Chapter 1** Rationale and Considerations for Training Special Populations 1

*Patrick L. Jacobs, PhD, CSCS,\*D, FNSCA*

Benefits of Exercise. . . . .	2
Inactivity and Costs to Individuals and Society. . . . .	3
Why Are People Inactive? . . . . .	4
Specific Exercise Programming for Special Populations . . . . .	5
Scope of Practice of Those Working With Special Populations. . . . .	6
Professional Opportunities for Those Training Special Populations. . . . .	7
Expectations in the Training of Special Populations . . . . .	10
Appropriate Environments for Training Special Populations . . . . .	11

## **Chapter 2** Health Appraisal and Fitness Assessments 15

*John F. Graham, MS, CSCS,\*D, RSCC\*E, FNSCA*

*Malcolm T. Whitehead, PhD, CSCS*

Medical and Health History Appraisal . . . . .	16
Fitness Assessment. . . . .	30
Fitness Assessment Protocols . . . . .	32
SMART Goal Setting. . . . .	49
Motivational and Coaching Techniques. . . . .	49

## **Chapter 3** Musculoskeletal Conditions and Disorders 67

*Carwyn Sharp, PhD, CSCS,\*D*

Disorders of the Spine and Associated Musculature . . . . .	68
Disorders of the Skeletal System . . . . .	76
Disorders of Joint Structures . . . . .	82
Disorders of the Muscular System. . . . .	94

## **Chapter 4** Metabolic Conditions and Disorders 109

*Thomas P. LaFontaine, PhD, CSCS, NSCA-CPT*

*Jeffrey L. Roitman, EdD*

*Paul Sorace, MS, CSCS*

Obesity. . . . .	110
Type 2 Diabetes Mellitus. . . . .	118
Type 1 Diabetes Mellitus. . . . .	123
Dyslipidemia . . . . .	128
Hypothyroidism and Hyperthyroidism . . . . .	132
Chronic Kidney Disease . . . . .	136

**Chapter 5 Pulmonary Disorders and Conditions 145**

*Kenneth W. Rundell, PhD*

*James M. Smoliga, DVM, PhD, CSCS*

*Pnina Weiss, MD, FAAP*

Asthma . . . . .	146
Pulmonary Hypertension. . . . .	155
Chronic Obstructive Pulmonary Disease . . . . .	161
Chronic Restrictive Pulmonary Disease . . . . .	165
Cystic Fibrosis . . . . .	170

**Chapter 6 Cardiovascular Conditions and Disorders 181**

*Ann Marie Swank, PhD, CSCS*

*Carwyn Sharp, PhD, CSCS, \*D*

Hypertension . . . . .	182
Peripheral Arterial Disease . . . . .	185
Angina . . . . .	188
Chronic Heart Failure . . . . .	191
Myocardial Infarction . . . . .	194
Atrial Fibrillation . . . . .	196
Pacemakers and Implantable Cardioverter Defibrillators . . . . .	199
Valvular Disorders. . . . .	202
Cardiovascular Surgical Procedures: Coronary Artery Bypass Graft and Percutaneous Transluminal Coronary Angioplasty . . . . .	204

**Chapter 7 Immunologic and Hematologic Disorders 215**

*Don Melrose, PhD, CSCS, \*D*

*Jay Dawes, PhD, CSCS, \*D, NSCA-CPT, \*D, FNCSA*

*Misty Kesterson, EdD, CSCS*

*Benjamin Reuter, PhD, ATC, CSCS, \*D*

Rheumatoid Arthritis . . . . .	216
Lupus . . . . .	221
Chronic Fatigue Syndrome . . . . .	225
Fibromyalgia. . . . .	231
HIV/AIDS . . . . .	237
Sickle Cell Disease . . . . .	242
Hemophilia. . . . .	246

## Chapter 8 Neuromuscular Conditions and Disorders 267

*Patrick L. Jacobs, PhD, CSCS,\*D, FNSCA*

*Stephanie M. Svoboda, MS, DPT, CSCS*

*Anna Lepeley, PhD, CSCS*

Multiple Sclerosis . . . . .	268
Parkinson's Disease . . . . .	273
Muscular Dystrophy . . . . .	278
Cerebral Palsy . . . . .	281
Traumatic Brain Injuries . . . . .	285
Stroke . . . . .	289
Spinal Cord Injuries . . . . .	295
Epilepsy . . . . .	301

## Chapter 9 Cognitive Conditions and Disorders 319

*William J. Kraemer, PhD, CSCS,\*D, FNSCA*

*Brett A. Comstock, PhD, CSCS*

*James E. Clark, MS, CSCS*

General Exercise Considerations for Clients With Cognitive Disorders . . . . .	321
Exercise Recommendations for Clients With Cognitive Conditions and Disorders . . . . .	322
Autism Spectrum Disorder . . . . .	324
Down Syndrome . . . . .	327
Intellectual Disability . . . . .	332
Dementia and Alzheimer's Disease . . . . .	335
Philosophy of Exercise Programming for Clients With Special Needs . . . . .	339

## Chapter 10 Cancer 341

*Alejandro F. San Juan, PhD, PT*

*Steven J. Fleck, PhD, CSCS, FNSCA*

*Alejandro Lucia, MD, PhD*

Pathology of Cancer . . . . .	342
Pathophysiology of Cancer . . . . .	342
Specific Management and Treatment of Individuals With Cancer . . . . .	343
Common Medications Given to Individuals With Cancer . . . . .	347
Effects of Exercise in Individuals With Cancer . . . . .	350
Exercise Recommendations for Clients With Cancer . . . . .	355

**Chapter 11 Children and Adolescents 367**

*Avery D. Faigenbaum, EdD, CSCS, CSPS, FNSCA*

Trends in Youth Physical Activity . . . . . 368  
Benefits of Physical Activity for Children and Adolescents . . . . . 369  
Growth, Maturation, and Physical Activity . . . . . 370  
Effects of Exercise in Children and Adolescents . . . . . 371  
Exercise Recommendations for Children and Adolescents . . . . . 373

**Chapter 12 Older Adults 383**

*Wayne L. Westcott, PhD, CSCS*

Exercise Recommendations for Older Adults . . . . . 384  
Common Medications Given to Older Adults . . . . . 386  
Effects of Exercise in Older Adults . . . . . 386  
Exercise Recommendations for Older Adults . . . . . 391  
Recommended Strategies for Instructing Older Adults . . . . . 396

**Chapter 13 Female-Specific Conditions 403**

*Jill A. Bush, PhD, CSCS,\*D*

Female Athlete Triad . . . . . 404  
Pregnancy and Postpartum . . . . . 410  
Menopause and Postmenopause . . . . . 417
