Stress: The Way of Life	ix
<i>Marcel A.K. Jansen and Geert Potters</i>	
1 Drought Tolerance in Crops: Physiology to Genomics	1
<i>Lakshmi Praba Manavalan and Henry T. Nguyen</i>	
2 Salinity Stress: Physiological Constraints and Adaptive Mechanisms	24
<i>Sergey Shabala and Rana Munns</i>	
3 Reactive Oxygen Species and Their Role in Plant Oxidative Stress	64
<i>Vadim Demidchik</i>	
4 Plant Responses to Chilling Temperatures	97
<i>Eric Ruelland</i>	
5 High-temperature Stress in Plants: Consequences and Strategies for Protecting Photosynthetic Machinery	138
<i>Anjana Jajoo and Suleyman I. Allakhverdiev</i>	
6 Flooding Stress Tolerance in Plants	155
<i>Chiara Pucciariello and Pierdomenico Perata</i>	
7 Adaptations to Aluminium Toxicity	178
<i>Peter R. Ryan and Emmanuel Delhaize</i>	
8 Plant Stress under Non-optimal Soil pH	201
<i>Andre Läuchli* and Stephen R. Grattan</i>	
9 Desiccation Tolerance	217
<i>Jill M. Farrant, Keren Cooper, Halford J.W. Dace, Joanne Bentley and Amelia Hilgart</i>	
10 Ultraviolet-B Radiation: Stressor and Regulatory Signal	253
<i>Marcel A.K. Jansen</i>	

11	Freeze Tolerance and Avoidance in Plants	279
	<i>Michael Wisniewski, Ian R. Willick and Lawrence V. Gusta</i>	
12	Heavy-metal Toxicity in Plants	300
	<i>Philip J. White and Paula Pongrac</i>	
13	Biotic Stress Signalling: Ca²⁺-mediated Pathogen Defence Programmes	332
	<i>Yi Ma and Gerald A. Berkowitz</i>	
	Index	353
