List of Figures, Tables, and Boxes xiii

List of Case Studies xvii

Foreword xix

Acknowledgments xxi

About the Authors xxiii

Chapter 1: **Invitation to Explore** 1

Our Purpose 2

What Is Qualitative Research? 4

Getting Started 11

Key Terms 13

Review Questions 14

References 14

Chapter 2: **The Language and Logic of Qualitative Research** 17

Frameworks for Research: Paradigms, Theories, and Conceptual Models 18

Using Qualitative Methods to Develop Theory 27

Substantive Theories and Conceptual Models 28

Standards for Qualitative Research 35

Summary	38
Key Terms	39
Recommended Readings	40
Review Questions	40
References	40

Chapter 3: **Designing the Study** 45

Background and Rationale	47
Developing Study Objectives	53
Using Documentary Sources	54
Data From Human Subjects	55
Data Collection Methods	61
Collecting Data	71
Analyzing the Data	72
Disseminating Results	74
Research Ethics: Decisions for the Protection of Study Participants	74
Other Considerations: Budget and Time	78
Summary	79
Key Terms	79
Recommended Readings	81
Review Questions	81
References	81

Chapter 4: **Collecting Qualitative Data** 85

Observation	86
Interviews and Focus Groups	98
Structured Data Collection Techniques	127
Summary	134
Key Terms	135
Review Questions	137
Recommended Readings	137
References	138

Chapter 5: Logistics in the Field 143

Introduction to the Community: Building Rapport	145
Involving Policymakers and Change Agents	148
Developing the Field Team	150
Training	152
Field Materials	157
Pilot Testing	158
Field Logistics	159
Supervision and Monitoring	161
Generating Data Files	162
Transcription and Translation	163
Data Management and Storage	165
Timelines and Budgets	166
Summary	168
Key Terms	169
Review Questions	170
Recommended Readings	170
References	171

Chapter 6: Qualitative Data Analysis 173

Basic Steps in Qualitative Data Analysis	175
Step 1. Reading: Developing an Intimate Relationship with the Data	176
Step 2. Coding: Identifying the Emerging Themes	179
Computer Software	189
Step 3. Displaying Data: Distinguishing Nuances of a Topic	199
Developing Hypotheses, Questioning, and Verifying	201
Step 4. Data Reduction: Getting the Big Picture	204
Step 5. Interpretation	207
Establishing Trustworthiness	212
Summary	215
Key Terms	216

X CONTENTS

Review Questions 217
Recommended Readings 217
References 217

Chapter 7: **Disseminating Qualitative Research** 219

Research Ethics Require Dissemination 222
An Inclusive Dissemination Process Promotes Use 223
How to Develop a Communication and Dissemination Strategy 224
Choosing a Format for Dissemination 240
Summary 249
Key Terms 250
Review Questions 250
Recommended Readings 250
References 251

Chapter 8: **Putting It Into Words** 255

The Role of Writing in Responsible Conduct of Research 256
Before You Write 258
Writing Your Article or Report 267
After You Write 284
Summary 291
Key Terms 292
Review Questions 292
Recommended Readings 292
References 293

Appendix 1: **Case Studies** 295

Appendix 2: **Examples of Oral Consent Forms** 347

Appendix 3: **Participant Observation Notes** 351

Appendix 4: **Topic Guides With Pictures** 359

Appendix 5: **Sample Interviewer Training Program Agendas and Training Schedules** 369

Appendix 6: Sample Budget Categories for Planning Qualitative Data Collection	373
Appendix 7: Coding Summary Report	377
Appendix 8: Example of Data Analysis Memo	383
Appendix 9: Making Study Findings Accessible to Other Researchers	387
Appendix 10: Dissemination Materials for Community Stakeholders	395
Appendix 11: Sample Briefs to Share Qualitative Study Findings with Policy Audiences	405
Appendix 12: Sample Dissemination Strategy for Advocacy	413
Appendix 13: Where to Publish	417
Appendix 14: Who Is an Author?	431
Index	433
