

Series Editors' foreword	v	8 Central nervous system	113
Prefaces	vi	Basic concepts	113
Acknowledgements	vii	Parkinson disease and parkinsonism	113
Series Editors' acknowledgements	viii	Dementia and Alzheimer disease	117
1 Introduction to pharmacology	1	Anxiety and sleep disorders	117
Molecular basis of pharmacology	1	Sleep disorders and hypnotics	117
Drug-receptor interactions	5	Affective disorders	121
Pharmacokinetics	8	Psychotic disorders	125
Drug interactions and adverse effects	15	Epilepsy	129
Drug history and drug development	16	The eye	134
2 Peripheral nervous system	19	9 Drug misuse	139
Basic concepts	19	Definitions	139
Nerve conduction	19	Drugs of misuse	139
Somatic nervous system	20	10 Pain and anaesthesia	145
Autonomic nervous system	24	Basic concepts	145
Nitergic nervous system	32	Opioid analgesic drugs	147
3 Respiratory system	33	Headache and neuralgic pain	149
Basic concepts	33	Local anaesthesia	150
Obstructive airways diseases	33	General anaesthesia	151
Antitussives and mucolytics	39	11 Inflammation, allergic diseases and immunosuppression	159
Respiratory stimulants and pulmonary surfactants	41	Inflammation	159
4 Cardiovascular system	43	Inflammatory diseases	162
The heart	43	Allergic disorders and drug therapy	168
Circulation	54	Immunosuppressants	170
Haemostasis and thrombosis	62	12 Infectious diseases	173
Treatment of thrombosis	64	Antibacterial drugs	173
Blood and fluid replacement	67	Antifungal drugs	186
5 Kidney and urinary system	69	Antiprotozoal drugs	188
Basic concepts	69	Anthelmintic drugs	192
The kidney	69	Vaccinations	194
Diuretics	72	13 Cancer	195
The urinary system	75	Concepts of cancer chemotherapy	195
6 Gastrointestinal system	79	Cytotoxic chemotherapy	195
The stomach	79	Endocrine therapy	201
Nausea and vomiting	82	Immunotherapy	202
The intestines	84	The future and personalized medicine	203
The pancreas and gall bladder	88	Self-Assessment	205
7 Endocrine and reproductive systems	91	Single best answer (SBA) questions	207
The thyroid gland	91	Extended-matching questions (EMQs)	219
The endocrine pancreas and diabetes mellitus	95	SBA answers	227
Adrenal corticosteroids	100	EMQ answers	243
The reproductive system	105	Index	253
Bone and calcium	110
