

# Handbook of Solid Waste Management and Waste Minimization Technologies

Nicholas P. Cheremisinoff, Ph.D.

# CONTENTS

**Preface**, vii

**About the Author**, xi

**Chapter 1. Source Reduction and Waste Minimization**, 1

Introduction, 1

Future and Long-Term Liabilities, 2

The Hierarchy of Waste Management, 3

The Principles of Life Cycle, 6

Costs of Environmental Management, 8

P2 and Waste Minimization at Work, 14

A Short Review, 21

**Chapter 2. Environmental Laws and Regulatory Drivers**, 23

Introduction, 23

NEPA, 24

RCRA, 24

Clean Air Act, 26

Clean Water Act, 26

CERCLA, 26

Emergency Planning and Community Right-To-Know Act, 27

Superfund Amendments and Reauthorization Act, 28

National Contingency Plan, 29

Oil Pollution Act, 30

Federal Insecticide, Fungicide, and Rodenticide Act, 31

Occupational Safety and Health Act, 31

Pollution Prevention Act, 31

Safe Drinking Water Act, 32

Toxic Substances Control Act, 32

A Short Review, 32

**Chapter 3. Municipal Solid Waste**, 34

Introduction, 34

The Composition of Municipal Waste, 35

Waste Volume Growth Trends, 37

Waste to Energy, 39

Composting, 66

Waste Management through Resource Recovery, 80

A Short Review, 87

Recommended Resources, 92

**Chapter 4. Landfill Operations and Gas Energy Recovery**, 96

Introduction, 96

Regulatory Considerations, 98  
The Composition of Landfill Gas, 101  
Landfill Design Considerations, 103  
Flaring Practices, 118  
Landfill Gas Energy Systems, 120  
Noncombustion Technologies, 125  
A Short Review, 127  
Recommended Resources, 128

**Chapter 5. Volume Reduction Technologies, 130**

Introduction, 130  
Size Reduction, 130  
Concentrating Methods, 133  
Incineration of Municipal Sludge, 147  
Industry Approaches to Sludge Volume Reduction, 162  
A Short Review, 168  
Recommended Resources, 169

**Chapter 6. Biosolids Technologies and Applications, 174**

Introduction, 174  
General Information and Background, 174  
Public Issues Concerning the Use of Biosolids, 175  
Biosolids Treatment, 181  
Applications, 183  
A Short Review, 186  
Recommended Resources, 186

**Chapter 7. Industry Practices, 188**

The Chemical Industry, 188  
Petroleum Refining, 208  
Aluminum Manufacturing, 249  
Iron and Steel, 258  
Lead and Zinc Smelting, 278  
Nickel Ore Processing and Refining, 283  
Copper Smelting, 287  
A Short Review, 290

**Chapter 8. Establishing P2 and Waste Minimization Programs, 291**

Introduction, 291  
P2 Drivers, 292  
Developing a P2 Program, 293  
Application of Life-Cycle Tools, 316  
A Short Review, 334  
Recommended Resources, 336

**Glossary of Environmental and Waste Management Terms, 337**

**Index, 466**
