

BARRY F. BECK & J. GAYLE HERRING EDITORS

GEOTECHNICAL AND ENVIRONMENTAL APPLICATIONS OF KARST GEOLOGY AND HYDROLOGY

Table of contents

I Keynote Address

- Tunnelling and mining in karstic terrane; an engineering challenge 3
Paul G. Marinos

II Sinkhole Formation

- Geological and geotechnical context of cover collapse and subsidence in mid-continent
U.S. clay-mantled karst 19
T. Cooley

- A comparison of human-induced sinkholes between China and the United States 25
Y. Gao, & E. C. Alexander, Jr. & M. Lei

- Karstic and pseudokarstic sinkholes in Hawaii 31
W. R. Halliday

- Sinkhole distribution of the Valley and Ridge Province, Virginia 33
D. A. Hubbard, Jr.

- Topographic, geologic, and hydrogeologic controls on dimensions and locations of
sinkholes in thick covered karst, Lowndes County, Georgia 37
J. A. Hyatt, R. Wilson, J. S. Givens & P. M. Jacobs

- Subsidence rates of alluvial dolines in the central Ebro Basin, northeastern Spain 47
M. A. Soriano & J. L. Simón

- Cover-collapse sinkhole formation and piezometric surface drawdown 53
T. M. Tharp

III Regional Studies of Sinkholes and Karst

- Characterization and classification of Alfisols developed in the karstic land of
northwestern Turkey 61
Cumhur Aydinalp

- Developing a GIS for the Jamaican Cockpit Country 67
M. S. Chenoweth & M. J. Day

The purposes of the main sinkhole project in the Latium Region of central Italy <i>A.Colombi, E.Di Loreto, F.Nolasco, G.Capelli & R.Salvati</i>	73
Karst development in the southern English chalk <i>A.R.Farrant</i>	77
Application of GIS technology to study karst features of southeastern Minnesota <i>Y.Gao, E.C.Alexander, Jr. & R.Tipping</i>	83
Karst unit mapping using geographic information system technology, Mower County, Minnesota, USA <i>J.A.Green, W.J.Marken, E.C.Alexander, Jr., & S.C.Alexander</i>	89
Wisconsin interagency karst feature reporting form <i>R.Pearson</i>	95

IV Evaluating the Risk of and Remediating the Damage from Sinkhole Collapse

Characterization of a highway sinkhole within the gypsum karst of Michigan <i>R.C.Benson & R.D.Kaufmann</i>	103
Evaluation of the risk of the formation of karst-related surface instability features in dolomite strata occurring in the Lebowakgomo area, Republic of South Africa <i>F.Calitz</i>	113
Natural and induced halite karst geohazards in Great Britain <i>A.H.Cooper</i>	119
The development of a national Geographic Information System (GIS) for British karst geohazards and risk assessment <i>A.H.Cooper, A.R.Farrant, K.A.M.Adlam & J.C.Walsby</i>	125
Karstification below dam sites: a model of increasing leakage from reservoirs <i>W.Dreybrodt, D.Romanov & F.Gabrovsek</i>	131
Remediation in karst – art, science, witchcraft, and economics <i>J.A.Fischer, J.J.Fischer, & R.S.Ottoson</i>	139
New advances of karst collapse reseach in China <i>M.Lei, X.Jiang & Liyu</i>	145
A karst case history revisited <i>R.S.Ottoson, J.J.Fischer, & J.A.Fischer</i>	153
Catastrophic subsidence risk assessment: a conceptual matrix for sinkhole genesis <i>R.Salvati & G.Capelli & A.Colombi</i>	159
Conceptual model for geotechnical evaluation of sinkhole risk in the Latium region <i>R.Salvati, T.M.Tharp & G.Capelli</i>	163

Geotechnical characterization and modeling of a shallow karst bedrock site <i>T.C.Siegel & D.W.McCrackin</i>	169
Geosynthetic reinforcement above sinkholes to protect landfill liners <i>T.C.Siegel, P.E.Cargill & D.W.McCrackin</i>	173
Pin piles in karst topography <i>F.S.Tarquinio & S.L.Pearlman</i>	177
The reflection of karst in normative building documents of Russia <i>V.V.Tolmachev & M.V.Leonenko</i>	183
Application of a standard method of sinkhole detection in the Tampa, Florida, area <i>E.D.Zisman</i>	187
 V Groundwater Flow and Contaminant Movement in Karst	
Development of a coupled surface-groundwater-pipe network model for the sustainable management of karstic groundwater <i>R.Adams & G.Parkin</i>	195
Groundwater dye tracing: an effective tool to use during the highway development process to avoid or minimize impacts to karst groundwater resources <i>D.Bednar Jr. & T.Aley</i>	201
Changes in ground-water quality in a conduit-flow-dominated karst aquifer following BMP implementation <i>J.C.Currens</i>	209
Occurrence of coliform bacteria in a karst aquifer, Berkeley County, West Virginia, USA <i>M.D.Kozar & M.V.Mathes</i>	217
Structural and karst impacts on groundwater flow and contaminant transport <i>E.G.Miller & J.L.Lufkin</i>	223
Mapping karst ground-water basins in the Inner Bluegrass as a nonpoint-source pollution management tool <i>R.L.Paylor & J.C.Currens</i>	229
Spatial interpretation of karst drainage basins <i>J.A.Ray</i>	235
Geochemical methods for distinguishing surface water from groundwater in the Knox aquifer system <i>J.C.Redwine & J.R.Howell</i>	245
Legal impediments to utilizing groundwater as a municipal water supply source in karst terrain in the United States <i>J.J.Richardson, Jr.</i>	253

Quality of groundwater in shallow and deep karst and other associated aquifer zones in central India <i>Y.Singh & D.P.Dubey</i>	259
An evaluation of the performance of activated charcoal in detection of fluorescent compounds in the environment <i>C.Smart & B.Simpson</i>	265
Statistical characterization of natural background fluorescence as an aid to dye tracer test design <i>C.C.Smart & K.C.Karunaratne</i>	271
Effectiveness of geologic barriers for preventing karst water from flowing into coal mines in north China <i>W.Zhou & G.Li</i>	277
 VI Treatment of Environmental Problems in Karst	
Operation and maintenance of vadose zone and groundwater remediation systems in a karst aquifer <i>R.N.Berry, R.Long & T.M.Baer</i>	287
Karst feature control on the mobility of petroleum residues in groundwater: a hydrocarbon reservoir analogue <i>T.D.Gillespie</i>	293
Characterization and grouting beneath an impending landfill cap <i>M.R.Mirabito, D.Dermatas & M.Jancin</i>	297
Karst void mitigation for water quality and quantity protection in Austin, Texas <i>S.R.Pope</i>	307
Enhanced recovery of petroleum hydrocarbon soil vapors and contaminant smear in karst <i>D.J.Schaezler, T.M.Baer, P.L.Schumann & R.N.Berry</i>	313
Design and construction of water remediation systems used to manage karst water contamination <i>D.J.Schaezler, T.M.Baer & R.N.Berry</i>	319
Landfill gas transport in karst <i>J.Smith</i>	325
In situ chemical oxidation process and karst aquifers <i>P.R.Stone, B.Hoke, P.Landry & K.J.Cowan</i>	329
Test methods for developing a conceptual model for a PCB-contaminated carbonate aquifer <i>S.R.H.Worthington & D.C.Ford</i>	333

VII Using Geophysics in Karst Investigations

- A geoelectric investigation of the freshwater aquifer near the well fields of north Andros Island, Bahamas 341
A.L.Adams
- Using thermography to assist the groundwater monitoring program at Marshall Space Flight Center 347
C.W.Campbell & A.Keith
- Application of thermography to groundwater monitoring at Arnold Air Force Base, Tennessee 353
C.W.Campbell & M.Singer
- An application of cone penetration tests and combined array 2D electrical resistivity tomography to delineate cover-collapse sinkhole prone areas 359
O.Kaufmann & Y.Quinif
- The effect of groundwater pollution on the natural-electric potential in karst 365
K.T.Kilty & A.L.Lange
- Integrated high-resolution geophysical investigations as potential tools for water resource investigations in karst terrain 377
R.J.McGrath, P.Styles, E.Thomas & S.Neale
- Application of bistatic low frequency GPR for mapping karst features and bedrock topography 383
M.S.Roark & D.W.Lambert
- The use of microgravity for the characterisation of karstic cavities on Grand Bahama, Bahamas 389
P.Styles & E.Thomas

VIII Field Trip Guide

- Field Trip Guide, Part 1: Environmental problems associated with urban development upon karst, Bowling Green, Kentucky 397
N.C.Crawford
- Field Trip Guide, Part 2: The Mammoth Cave karst aquifer 425
J.Meiman & C.Groves
- Author index 437
