<i>List of contributors</i>	xi
<i>Preface and acknowledgements</i>	xiii
<i>Notes on text format</i>	xv

PART I

Methods for environmental components 1

1 Introduction 3

RIKI THERIVEL AND PETER MORRIS

- 1.1 *EIA and the aims of the book* 3
- 1.2 *The EIA process* 3
- 1.3 *The current status of EIA* 10
- 1.4 *EIA legislation* 11
- 1.5 *Book structure* 13
- 1.6 *Integration of component assessments* 15
- 1.7 *The broader context and the future of EIA methods* 16
- References* 18

2 Socio-economic impacts 1: overview and economic impacts 20

JOHN GLASSON

- 2.1 *Introduction* 20
- 2.2 *Definitions and concepts: socio-economic impacts* 20
- 2.3 *Baseline studies: direct and indirect economic impacts* 26
- 2.4 *Impact prediction: direct employment impacts* 32
- 2.5 *Impact prediction: wider economic impacts* 35
- 2.6 *Mitigation and enhancement* 38
- 2.7 *Monitoring* 39
- 2.8 *Conclusions* 40
- References* 40

3	Socio-economic impacts 2: social impacts	42
	ANDREW CHADWICK	
3.1	Introduction	42
3.2	Definitions	42
3.3	Baseline studies	43
3.4	Impact prediction	47
3.5	Mitigation	57
3.6	Monitoring	58
3.7	Further reading	59
	References	60
4	Noise	65
	RIKI THERIVEL AND MIKE BRESLIN	
4.1	Introduction	65
4.2	Definitions and concepts	66
4.3	Legislative background and interest groups	72
4.4	Scoping and baseline studies	74
4.5	Impact prediction	77
4.6	Mitigation	80
4.7	Monitoring	81
4.8	Conclusion	82
	References	82
5	Transport	83
	JEREMY RICHARDSON AND GREG CALLAGHAN	
5.1	Introduction	83
5.2	Definitions and concepts	84
5.3	Legislative background	85
5.4	Interest groups and sources of information	88
5.5	Scoping and baseline studies	88
5.6	Impact prediction and evaluation	91
5.7	Mitigation measures	100
5.8	Monitoring	103
5.9	Conclusions	103
	References	103
6	Landscape	105
	RIKI THERIVEL (BASED ON GOODEY 1995)	
6.1	Introduction	105
6.2	Definitions and concepts	105
6.3	Legislative background and interest groups	108

6.4	<i>Baseline studies</i>	111
6.5	<i>Impact prediction</i>	114
6.6	<i>Mitigation and enhancement</i>	116
6.7	<i>Monitoring</i>	118
6.8	<i>Concluding issues</i>	119
	<i>References</i>	119
7	Archaeological and other material and cultural assets	122
	ROSEMARY BRAITHWAITE, DAVID HOPKINS AND PHILIP GROVER (UPDATED BY PHILIP GROVER)	
7.1	<i>Introduction</i>	122
7.2	<i>Definitions and concepts</i>	122
7.3	<i>Legislative background and interest groups</i>	126
7.4	<i>Scoping and baseline studies</i>	130
7.5	<i>Impact prediction</i>	137
7.6	<i>Mitigation and enhancement</i>	140
7.7	<i>Monitoring</i>	142
7.8	<i>Conclusions</i>	142
	<i>References</i>	143
8	Air quality and climate	145
	DEREK M ELSOM	
8.1	<i>Introduction: definitions and concepts</i>	145
8.2	<i>Legislative background and interest groups</i>	147
8.3	<i>Scoping and baseline studies</i>	153
8.4	<i>Impact prediction</i>	157
8.5	<i>Mitigation</i>	166
8.6	<i>Monitoring</i>	168
	<i>References</i>	168
9	Soils, geology and geomorphology	170
	MARTIN J HODSON, CHRIS STAPLETON AND ROY EMBERTON	
9.1	<i>Introduction</i>	170
9.2	<i>Definitions and concepts – geology and geomorphology</i>	170
9.3	<i>Definitions and concepts – soils</i>	171
9.4	<i>Legislative background and interest groups</i>	179
9.5	<i>Scoping and baseline studies</i>	181
9.6	<i>Impact prediction</i>	187
9.7	<i>Mitigation</i>	191
9.8	<i>Monitoring</i>	194
	<i>References</i>	194

10	Water	197
	PETER MORRIS, JEREMY BIGGS AND ANDREW BROOKES	
10.1	<i>Introduction</i>	197
10.2	<i>Definitions and concepts of water quantity</i>	198
10.3	<i>Definitions and concepts of water quality</i>	205
10.4	<i>Legislative background and interest groups</i>	208
10.5	<i>Scoping</i>	213
10.6	<i>Baseline studies on water quantity</i>	219
10.7	<i>Baseline studies on water quality</i>	224
10.8	<i>Impact prediction</i>	229
10.9	<i>Mitigation</i>	237
10.10	<i>Monitoring</i>	237
	<i>References</i>	239
11	Ecology – overview and terrestrial systems	243
	PETER MORRIS AND ROY EMBERTON	
11.1	<i>Introduction</i>	243
11.2	<i>Definitions and concepts</i>	244
11.3	<i>Legislative background and interest groups</i>	254
11.4	<i>Scoping and baseline studies</i>	259
11.5	<i>Impact prediction</i>	266
11.6	<i>Mitigation</i>	278
11.7	<i>Monitoring</i>	282
11.8	<i>Conclusions</i>	282
	<i>References</i>	282
12	Freshwater ecology	286
	JEREMY BIGGS, GILL FOX, PASCALE NICOLET, MERICIA WHITFIELD AND PENNY WILLIAMS	
12.1	<i>Introduction</i>	286
12.2	<i>Definitions and concepts</i>	286
12.3	<i>Legislative background and interest groups</i>	291
12.4	<i>Scoping and baseline studies</i>	291
12.5	<i>Impact prediction</i>	297
12.6	<i>Impact significance</i>	302
12.7	<i>Mitigation</i>	304
12.8	<i>Monitoring</i>	310
	<i>References</i>	311
13	Coastal ecology and geomorphology	315
	STEWART THOMPSON AND JOHN LEE	
13.1	<i>Introduction</i>	315
13.2	<i>Definitions and concepts</i>	315

13.3	<i>Legislative background and interest groups</i>	323
13.4	<i>Scoping and baseline studies</i>	326
13.5	<i>Impact prediction</i>	332
13.6	<i>Mitigation</i>	339
13.7	<i>Monitoring</i>	341
13.8	<i>Conclusions</i>	342
	<i>References</i>	343

PART II 349

Shared and integrative methods

14 Environmental risk assessment and risk management 351

ANDREW BROOKES

14.1	<i>Introduction</i>	351
14.2	<i>Definitions and concepts</i>	351
14.3	<i>Legislative and policy background and interest groups</i>	354
14.4	<i>Key steps in performing an Environment Risk Assessment</i>	354
14.5	<i>Different levels of risk analysis</i>	359
14.6	<i>Parallels between EIA and ERA</i>	360
14.7	<i>Opportunities and challenges for ERA</i>	361
14.8	<i>Risk communication</i>	362
14.9	<i>Concluding issues</i>	362
	<i>References</i>	363

15 Environmental Remote Sensing (RS) 365

KELLY P DAVIS AND JOHN LEE

15.1	<i>Introduction</i>	365
15.2	<i>Definitions and concepts</i>	365
15.3	<i>Sources of remote sensing information, software and data</i>	371
15.4	<i>Applications of remote sensing with particular reference to EIA</i>	372
15.5	<i>Conclusion</i>	376
	<i>References</i>	377

16 Geographical Information Systems (GIS) and EIA 381

AGUSTIN RODRIGUEZ-BACHILLER AND GRAHAM WOOD

16.1	<i>Introduction</i>	381
16.2	<i>GIS concepts and techniques</i>	382
16.3	<i>GIS and environmental impact assessment</i>	388
16.4	<i>GIS in screening, scoping and baseline studies</i>	390
16.5	<i>GIS in impact prediction</i>	393
16.6	<i>GIS in mitigation</i>	397

x Contents

16.7	GIS in monitoring	398
16.8	Conclusions	399
	References	400
17	Quality of Life Capital	402
	RIKI THERIVEL	
17.1	Introduction	402
17.2	The Quality of Life Capital approach	402
17.3	An example of the approach	404
17.4	Advantages of the approach	404
17.5	Links between EIA and Quality of Life Capital	406
	References	408
 Appendices		
A	Acronyms, addresses, chemical symbols, and quantitative units and symbols	409
B	UK environment and heritage authorities and agencies	414
C	Sources of historical information in the UK	416
D	Evaluating the conservation status of species, habitats and sites	418
E	Publications on species conservation status, distribution, habitats and identification	431
F	Habitat, vegetation and land classifications (and their limitations)	436
G	Phase 2–3 ecological sampling methods	455
	<i>Glossary</i>	469
	<i>Index</i>	479
