# CONTENTS

<b>1</b>	<b>General Information on Toxicology .....</b>	<b>1</b>
	Introduction .....	1
	The History of Toxicology .....	2
	Modern Toxicology .....	3
	Branches of Toxicology .....	3
	Analytical Toxicology .....	3
	Biochemical Toxicology .....	4
	Economic Toxicology .....	4
	Environmental Toxicology .....	4
	Forensic and Clinical Toxicology .....	5
	Genetic, Reproductive and Developmental Toxicology .....	5
	Juridical Toxicology .....	6
	Industrial Toxicology .....	6
<b>2</b>	<b>Definition of Toxicity and Classification of Toxins .....</b>	<b>7</b>
	Toxicity .....	7
	Classification of Toxins .....	9
	Classification According to Their Toxic Doses .....	9
	Classification According to the Methods of Isolation from Natural Sources .....	9
	Classification According to Physical States .....	10
	Classification According to Their Use, Labels and Chemical Structures .....	10
	Classification According to Physiological Effects .....	10
	Classification According to Their Isolations: Qualitative and Quantitative Methods of Analysis .....	10
<b>3</b>	<b>Toxication .....</b>	<b>13</b>
	Exposure, Entrance and Absorption .....	13
	Exposure .....	13
	Entrance .....	14
	Absorption .....	15

Enterohepatic Cycle .....	16
Special Biological Inhibitors .....	16
Distribution, Accumulation and Translocation .....	16
Distribution .....	16
Accumulation .....	17
Translocation .....	18
Metabolism.....	18
Factors that Affect the Rate of Metabolism .....	19
Excretion.....	21
<b>4 The Effect Mechanism of Toxins .....</b>	<b>23</b>
Selective Effects .....	23
Nonspecific Toxic Effects .....	23
Special Toxic Effects .....	24
Mutagenesis .....	24
Carcinogenesis .....	24
Teratogenesis .....	26
<b>5 Toxicity Tests .....</b>	<b>31</b>
<i>In Vivo</i> Test Systems .....	31
Acute Toxicity Tests .....	32
Subacute/Subchronic Toxicity Tests .....	33
Chronic Toxicity Tests .....	33
Short-Term ( <i>In Vitro</i> ) Tests for Detecting Mutagenicity and Carcinogenicity .....	34
Human Studies .....	35
Epidemiological Studies .....	35
Biomarker Research .....	36
Toxicity Tests for Hazard Characterization in Foods .....	37
<b>6 Natural Sources of Toxicants in Foods .....</b>	<b>39</b>
Allergens .....	41
Alkaloids .....	43
Cyanogens .....	44
Erucic Acid .....	44
Favism .....	45
Fungi .....	45
Goitrogens .....	47
Gossypol .....	47
Hemagglutinins (Lectins) .....	47
Lathrogens .....	48
Marine Animals .....	48
Oxalates and Phytates .....	50
Protease Inhibitors .....	51
Saponins .....	51
Tannins .....	51
Trisaccharides .....	52

Vasoactive Amines .....	52
Vitamin Antagonists .....	52
<b>7 Contaminants .....</b>	<b>53</b>
Antibiotics .....	54
Bacterial Toxins .....	55
Hormones .....	59
Mycotoxins .....	59
Aflatoxins .....	60
Citrinin .....	61
Ergot .....	62
Fumonisin .....	62
Ochratoxins .....	63
Patulin .....	63
Sterigmatocystin .....	64
Trichothecenes .....	64
Zearalenone .....	65
Miscellaneous Mycotoxins .....	65
N-nitroso derivatives .....	65
Packaging Materials .....	67
Pesticides .....	69
Polychlorinated Biphenyls (PCBs) .....	71
Polychlorinated Dibenzodioxins and Dibenzofurans (PCDDFs) .....	72
Polycyclic Aromatic Hydrocarbons (PAHs) .....	73
Radionuclides .....	75
Trace Metals .....	76
Arsenic .....	76
Cadmium .....	77
Mercury .....	77
Nickel .....	78
Lead .....	79
<b>8 Food Additives .....</b>	<b>81</b>
Functions of Food Additives .....	81
Legal Aspects of Food Additives .....	82
Safety Aspects of Food Additives .....	86
General Principles on the Use of Food Additives .....	87
Common Uses of Additives .....	89
Acids .....	89
Acidity Regulators .....	90
Anticaking Agents .....	90
Antifoaming Agents .....	91
Antioxidants .....	91
Bulking Agents .....	92
Coloring Agents .....	92
Color Retention Agents .....	93

Emulsifiers .....	94
Emulsifying Salts .....	94
Firming Agents .....	94
Flavorings .....	95
Flavoring Substances .....	95
Flavoring Preparations .....	96
Process Flavorings .....	97
Smoke Flavorings .....	97
Flavor Enhancers .....	97
Flour Treatment Agents .....	98
Foaming Agents .....	98
Gelling Agents .....	98
Glazing Agents .....	98
Humectants .....	99
Preservatives .....	99
Propellants .....	100
Raising Agents .....	100
Stabilizers .....	101
Sweeteners .....	101
Thickeners .....	103
Processing Aids .....	104
<b>9 Chemopreventers in the Diet .....</b>	<b>105</b>
Chemoprevention .....	106
Methods for Studying Antigenotoxicity .....	109
Short-Term Tests .....	109
Long-Term Tests .....	109
Epidemiological Studies .....	110
Biomarker Studies .....	110
Mechanism of Action of Chemopreventers .....	110
Significant Chemopreventers in the Human Diet .....	112
Antioxidant Vitamins .....	112
Vitamin A and Carotenoids .....	112
Vitamin C (Ascorbic Acid) .....	114
Vitamin E .....	115
Allium Vegetables .....	116
Dietary Fiber .....	117
Flavonoids .....	118
Isoflavonoids and Lignans .....	119
Polyphenolic Substances .....	120
Selenium .....	121
Miscellaneous Chemopreventers .....	122
Scope of Future Research on Chemoprevention .....	124
<b>References .....</b>	<b>127</b>
<b>Index .....</b>	<b>137</b>
