

PRINCIPLES OF ECONOMICS

SECOND EDITION

ROBERT H. FRANK
BEN S. BERNANKE

CONTENTS

Preface ix

PART I Introduction

Chapter 1 Thinking Like an Economist 2

Economics: Studying Choice in a World of Scarcity 4

Applying the Cost-Benefit Principle 5

Economic Surplus 6

Opportunity Cost 6

The Role of Economic Models 7

Four Important Decision Pitfalls 8

Pitfall 1: Measuring Costs and Benefits as Proportions
Rather Than Absolute Dollar Amounts 8

Pitfall 2: Ignoring Opportunity Costs 9

Pitfall 3: Failure to Ignore Sunk Costs 10

Pitfall 4: Failure to Understand the Average–Marginal Distinction 11

Economics: Micro and Macro 15

The Approach of This Text 15

Economic Naturalism 16

ECONOMIC NATURALIST 1.1: Why do many hardware manufacturers include more than \$1,000 worth of “free” software with a computer selling for only slightly more than that? 16

ECONOMIC NATURALIST 1.2: Why don’t auto manufacturers make cars without heaters? 17

ECONOMIC NATURALIST 1.3: Why do the keypad buttons on drive-up automatic teller machines have Braille dots? 18

Summary 18

Core Principles 19

Key Terms 19

Review Questions 19

Problems 19

Answers to In-Chapter Exercises 21

Appendix: Working with Equations, Graphs, and Tables 23

Chapter 2 Comparative Advantage: The Basis for Exchange 33

Exchange and Opportunity Cost 34

The Principle of Comparative Advantage 35

ECONOMIC NATURALIST 2.1: Where have all the .400 hitters gone? 37

Sources of Comparative Advantage 38

ECONOMIC NATURALIST 2.2: Televisions and videocassette recorders were developed and first produced in the United States, but today the U.S. accounts for only a

minuscule share of the total world production of these products. Why did the United States fail to retain its lead in these markets? 39

Comparative Advantage and Production Possibilities 39

 The Production Possibilities Curve 39

 How Individual Productivity Affects the Slope and Position of the PPC 42

 The Gains from Specialization 44

 A Production Possibilities Curve for a Many-Person Economy 45

Factors that Shift the Economy's Production Possibilities Curve 47

 Why Have Some Countries Been Slow to Specialize? 49

 Can We Have Too Much Specialization? 50

Comparative Advantage and International Trade 51

ECONOMIC NATURALIST 2.3: If trade between nations is so beneficial, why are free-trade agreements so controversial? 51

 Summary 51

 Core Principles 52

 Key Terms 52

 Review Questions 52

 Problems 53

 Answers to In-Chapter Exercises 54

Chapter 3 Supply and Demand: An Introduction 57

What, How, and for Whom? Central Planning versus the Market 59

Buyers and Sellers in Markets 60

 The Demand Curve 61

 The Supply Curve 62

Market Equilibrium 64

 Rent Controls Reconsidered 67

 Pizza Price Controls? 70

Predicting and Explaining Changes in Prices and Quantities 71

 Shifts in Demand 72

ECONOMIC NATURALIST 3.1: When the federal government implements a large pay increase for its employees, why do rents for apartments located near Washington Metro stations go up relative to rents for apartments located far away from Metro stations? 74

 Shifts in the Supply Curve 75

ECONOMIC NATURALIST 3.2: Why do major term papers go through so many more revisions today than in the 1970s? 77

 Four Simple Rules 78

ECONOMIC NATURALIST 3.3: Why do the prices of some goods, like airline tickets to Europe, go up during the months of heaviest consumption, while others, like sweet corn, go down? 80

Markets and Social Welfare 81

 Cash on the Table 81

 Smart for One, Dumb for All 82

 Summary 84

 Core Principles 84

 Key Terms 85

 Review Questions 85

 Problems 85

 Answers to In-Chapter Exercises 86

PART 2 Competition and the Invisible Hand

Chapter 4 Elasticity 91

Price Elasticity of Demand 92

Price Elasticity Defined 92

Determinants of Price Elasticity of Demand 93

Some Representative Elasticity Estimates 94

Using Price Elasticity of Demand 95

ECONOMIC NATURALIST 4.1: Will a higher tax on cigarettes curb teenage smoking? 95

ECONOMIC NATURALIST 4.2: Why was the luxury tax on yachts such a disaster? 96

A Graphical Interpretation of Price Elasticity 96

Price Elasticity Changes along a Straight-Line Demand Curve 98

Two Special Cases 99

The Midpoint Formula 100

Elasticity and Total Expenditure 102

Income Elasticity and Cross-Price Elasticity of Demand 105

The Price Elasticity of Supply 106

Determinants of Supply Elasticity 109

ECONOMIC NATURALIST 4.3: Why are gasoline prices so much more volatile than car prices? 111

Unique and Essential Inputs: The Ultimate Supply Bottleneck 113

Summary 113

Key Terms 114

Review Questions 114

Problems 115

Answers to In-Chapter Exercises 116

Chapter 5 Demand: The Benefit Side of the Market 117

The Law of Demand 118

The Origins of Demand 118

Needs versus Wants 119

ECONOMIC NATURALIST 5.1: Why does California experience chronic water shortages? 120

Translating Wants into Demand 120

Measuring Wants: The Concept of Utility 120

Allocating a Fixed Income between Two Goods 124

The Rational Spending Rule 127

Income and Substitution Effects Revisited 127

Applying the Rational Spending Rule 129

Substitution at Work 130

ECONOMIC NATURALIST 5.2: Why do the wealthy in Manhattan live in smaller houses than the wealthy in Seattle? 130

ECONOMIC NATURALIST 5.3: Why did people turn to four-cylinder cars in the 1970s, only to shift back to six- and eight-cylinder cars in the 1990s? 130

ECONOMIC NATURALIST 5.4: Why are automobile engines smaller in England than in the United States? 131

The Importance of Income Differences 132

ECONOMIC NATURALIST 5.5: Why are waiting lines longer in poorer neighborhoods? 132

Individual and Market Demand Curves 132

Horizontal Addition 132

Demand and Consumer Surplus	134
Calculating Economic Surplus	134
<i>Summary</i>	137
<i>Key Terms</i>	137
<i>Review Questions</i>	137
<i>Problems</i>	137
<i>Answers to In-Chapter Exercises</i>	139

Chapter 6 Perfectly Competitive Supply: The Cost Side of the Market 141

Thinking about Supply: The Importance of Opportunity Cost	142
Profit-Maximizing Firms in Perfectly Competitive Markets	145
Profit Maximization	145
The Demand Curve Facing a Perfectly Competitive Firm	146
Production in the Short Run	147
Some Important Cost Concepts	148
Choosing Output to Maximize Profit	149
A Note on the Firm's Shutdown Condition	150
Average Variable Cost and Average Total Cost	151
A Graphical Approach to Profit Maximization	151
Price = Marginal Cost: The Maximum-Profit Condition	153
The "Law" of Supply	155
Determinants of Supply Revisited	156
Technology	156
Input Prices	156
The Number of Suppliers	157
Expectations	157
Changes in Prices of Other Products	157
Applying the Theory of Supply	157
ECONOMIC NATURALIST 6.1: When recycling is left to private market forces, why are many more aluminum beverage containers recycled than glass ones?	157
Supply and Producer Surplus	160
Calculating Producer Surplus	160
<i>Summary</i>	161
<i>Key Terms</i>	162
<i>Review Questions</i>	162
<i>Problems</i>	162
<i>Answers to In-Chapter Exercises</i>	165

Chapter 7 Efficiency and Exchange 167

Market Equilibrium and Efficiency	168
Efficiency Is Not the Only Goal	171
Why Efficiency Should Be the First Goal	171
The Cost of Preventing Price Adjustments	172
Price Ceilings	172
Price Subsidies	175
First-Come, First-Served Policies	177
ECONOMIC NATURALIST 7.1: Why does no one complain any longer about being bumped from an overbooked flight?	177
Marginal Cost Pricing of Public Services	180

Taxes and Efficiency 182

Who Pays a Tax Imposed on Sellers of a Good? 182

ECONOMIC NATURALIST 7.2: How will a tax on cars affect their prices in the long run? 183

How a Tax Collected from a Seller Affects Economic Surplus 183

Taxes, Elasticity, and Efficiency 186

Taxes, External Costs, and Efficiency 187

Summary 187*Key Terms* 188*Review Questions* 188*Problems* 188*Answers to In-Chapter Exercises* 191**Chapter 8 The Quest for Profit and the Invisible Hand 193****The Central Role of Economic Profit 194**

Three Types of Profit 194

The Invisible Hand Theory 197

Two Functions of Price 197

Responses to Profits and Losses 198

The Importance of Free Entry and Exit 204

Economic Rent versus Economic Profit 205**The Invisible Hand in Action 206**

The Invisible Hand at the Supermarket and on the Freeway 206

ECONOMIC NATURALIST 8.1: Why do supermarket checkout lines all tend to be roughly the same length? 206

The Invisible Hand and Cost-Saving Innovations 207

The Invisible Hand in Regulated Markets 207

ECONOMIC NATURALIST 8.2: Why do New York City taxicab medallions sell for more than \$250,000? 208**ECONOMIC NATURALIST 8.3:** Why did major commercial airlines install piano bars on the upper decks of Boeing 747s in the 1970s? 208

The Invisible Hand in Antipoverty Programs 209

The Invisible Hand in the Stock Market 210

ECONOMIC NATURALIST 8.4: Why isn't a stock portfolio consisting of America's "best-managed companies" a good investment? 212**The Distinction between an Equilibrium and a Social Optimum 213**

Smart for One, Dumb for All 214

ECONOMIC NATURALIST 8.5: Are there "too many" smart people working as corporate earnings forecasters? 214*Summary* 215*Key Terms* 216*Review Questions* 216*Problems* 216*Answers to In-Chapter Exercises* 218**PART 3 Market Imperfections****Chapter 9 Monopoly and Other Forms of Imperfect Competition 221****Imperfect Competition 222**

Different Forms of Imperfect Competition 222

The Essential Difference between Perfectly and Imperfectly Competitive Firms 222

Five Sources of Market Power 223

Exclusive Control over Important Inputs 223

Patents and Copyrights 224

Government Licenses or Franchises 224

Economies of Scale (Natural Monopolies) 224

Network Economies 224

Economies of Scale and the Importance of Fixed Costs 225

ECONOMIC NATURALIST 9.1: Why does Intel sell the overwhelming majority of all microprocessors used in personal computers? 228

Profit Maximization for the Monopolist 228

Marginal Revenue for the Monopolist 229

The Monopolist's Profit-Maximizing Decision Rule 231

Being a Monopolist Doesn't Guarantee an Economic Profit 232

Why the Invisible Hand Breaks Down under Monopoly 233

Using Discounts to Expand the Market 235

Price Discrimination Defined 235

ECONOMIC NATURALIST 9.2: Why do many movie theaters offer discount tickets to students? 236

How Price Discrimination Affects Output 236

The Hurdle Method of Price Discrimination 239

Is Price Discrimination a Bad Thing? 241

Examples of Price Discrimination 241

ECONOMIC NATURALIST 9.3: Why might an appliance retailer instruct its clerks to hammer dents into the sides of its stoves and refrigerators? 242

Public Policy toward Natural Monopoly 243

State Ownership and Management 243

State Regulation of Private Monopolies 244

Exclusive Contracting for Natural Monopoly 244

Vigorous Enforcement of Antitrust Laws 245

Summary 246

Key Terms 247

Review Questions 247

Problems 247

Answers to In-Chapter Exercises 249

Chapter 10 Thinking Strategically 251

The Theory of Games 252

The Three Elements of a Game 252

Nash Equilibrium 253

The Prisoner's Dilemma 255

The Original Prisoner's Dilemma 255

Prisoner's Dilemmas Confronting Imperfectly Competitive Firms 256

ECONOMIC NATURALIST 10.1: Why are cartel agreements notoriously unstable? 256

ECONOMIC NATURALIST 10.2: How did Congress unwittingly solve the television advertising dilemma confronting cigarette producers? 258

Prisoner's Dilemmas in Everyday Life 259

ECONOMIC NATURALIST 10.3: Why do people often stand at concerts, even though they can see just as well when everyone sits? 259

ECONOMIC NATURALIST 10.4: Why do people shout at parties?	260
Tit-for-Tat and the Repeated Prisoner's Dilemma	261
Games In Which Timing Matters	262
The Ultimatum Bargaining Game	262
Credible Threats and Promises	264
Commitment Problems	267
The Strategic Role of Preferences	268
Are People Fundamentally Selfish?	269
Preferences as Solutions to Commitment Problems	270
<i>Summary</i>	271
<i>Key Terms</i>	271
<i>Review Questions</i>	272
<i>Problems</i>	272
<i>Answers to In-Chapter Exercises</i>	275

Chapter 11 Externalities and Property Rights 277

External Costs and Benefits	277
How Externalities Affect Resource Allocation	278
The Graphical Portrayal of Externalities	279
The Coase Theorem	280
Legal Remedies for Externalities	284
ECONOMIC NATURALIST 11.1: What is the purpose of speed limits and other traffic laws?	285
ECONOMIC NATURALIST 11.2: Why do most communities have zoning laws?	285
ECONOMIC NATURALIST 11.3: Why do many governments enact laws that limit the discharge of environmental pollutants?	285
ECONOMIC NATURALIST 11.4: What is the purpose of free speech laws?	285
ECONOMIC NATURALIST 11.5: Why does government subsidize the planting of trees on hillsides?	286
The Optimal Amount of Negative Externalities Is Not Zero	286
Property Rights and the Tragedy of the Commons	287
The Problem of Unpriced Resources	287
The Effect of Private Ownership	289
When Private Ownership Is Impractical	290
ECONOMIC NATURALIST 11.6: Why do blackberries in public parks get picked too soon?	290
ECONOMIC NATURALIST 11.7: Why are shared milkshakes consumed too quickly?	290
Positional Externalities	291
Payoffs That Depend on Relative Performance	291
ECONOMIC NATURALIST 11.8: Why do football players take anabolic steroids?	292
Positional Arms Races	293
ECONOMIC NATURALIST 11.9: Why do many grocery stores stay open all night, even in small towns?	293
Positional Arms Control Agreements	294
Social Norms as Positional Arms Control Agreements	295
<i>Summary</i>	297
<i>Key Terms</i>	298
<i>Review Questions</i>	298
<i>Problems</i>	298
<i>Answers to In-Chapter Exercises</i>	300

Chapter 12	The Economics of Information	301
	How the Middleman Adds Value	302
	The Optimal Amount of Information	304
	The Cost-Benefit Test	304
	The Free-Rider Problem	305
	ECONOMIC NATURALIST 12.1: Why is finding a knowledgeable salesclerk often difficult?	305
	ECONOMIC NATURALIST 12.2: Why did Rivergate Books, the last bookstore in Lambertville, New Jersey, recently go out of business?	305
	Two Guidelines for Rational Search	306
	The Gamble Inherent in Search	307
	The Commitment Problem When Search Is Costly	308
	Asymmetric Information	309
	The Lemons Model	310
	The Credibility Problem in Trading	312
	The Costly-to-Fake Principle	312
	ECONOMIC NATURALIST 12.3: Why do firms insert the phrase "As advertised on TV" when they advertise their products in magazines and newspapers?	313
	ECONOMIC NATURALIST 12.4: Why do many companies care so much about elite educational credentials?	313
	Conspicuous Consumption as a Signal of Ability	314
	ECONOMIC NATURALIST 12.5: Why do many clients seem to prefer lawyers who wear expensive suits?	314
	Statistical Discrimination	314
	ECONOMIC NATURALIST 12.6: Why do males under 25 years of age pay more than other drivers for auto insurance?	315
	Adverse Selection	316
	Moral Hazard	316
	Disappearing Political Discourse	317
	ECONOMIC NATURALIST 12.7: Why do opponents of the death penalty often remain silent?	317
	ECONOMIC NATURALIST 12.8: Why do proponents of legalized drugs remain silent?	319
	<i>Summary</i>	319
	<i>Key Terms</i>	320
	<i>Review Questions</i>	320
	<i>Problems</i>	320
	<i>Answers to In-Chapter Exercises</i>	321
 PART 4	 Economics of Public Policy	
Chapter 13	Labor Markets, Poverty, and Income Distribution	323
	The Economic Value of Work	326
	The Equilibrium Wage and Employment Levels	328
	The Demand Curve for Labor	328
	The Supply Curve of Labor	329
	Market Shifts	329
	Explaining Differences in Earnings	330
	Human Capital Theory	331
	Labor Unions	331

ECONOMIC NATURALIST 13.1:	If unionized firms have to pay more, how do they manage to survive in the face of competition from their nonunionized counterparts?	333
	Compensating Wage Differentials	333
ECONOMIC NATURALIST 13.2:	Why do some ad copy writers earn more than others?	333
	Discrimination in the Labor Market	334
	Winner-Take-All Markets	336
ECONOMIC NATURALIST 13.3:	Why does Renée Fleming earn millions more than sopranos of only slightly lesser ability?	336
	Recent Trends in Inequality	337
	Why Is Income Inequality a Moral Problem?	338
	Methods of Income Redistribution	340
	Welfare Payments and In-Kind Transfers	340
	Means-Tested Benefit Programs	340
	The Negative Income Tax	341
	Minimum Wages	342
	The Earned-Income Tax Credit	343
	Public Employment for the Poor	344
	A Combination of Methods	345
	Summary	346
	Key Terms	347
	Review Questions	347
	Problems	347
	Answers to In-Chapter Exercises	349

Chapter 14 The Environment, Health, and Safety 351

The Economics of Health Care Delivery	352
Applying the Cost-Benefit Criterion	352
Designing a Solution	354
The HMO Revolution	355
ECONOMIC NATURALIST 14.1:	Why is a patient with a sore knee more likely to receive an MRI exam if he has conventional health insurance than if he belongs to a health maintenance organization?
	355
Paying for Health Insurance	356
ECONOMIC NATURALIST 14.2:	In the richest country on Earth, why do so many people lack basic health insurance?
	357
Using Price Incentives in Environmental Regulation	358
Taxing Pollution	358
Auctioning Pollution Permits	360
Workplace Safety Regulation	361
ECONOMIC NATURALIST 14.3:	Why does the government require safety seats for infants who travel in cars, but not for infants who travel in airplanes?
	365
Public Health and Security	366
ECONOMIC NATURALIST 14.4:	Why do many states have laws requiring students to be vaccinated against childhood illnesses?
	366
ECONOMIC NATURALIST 14.5:	Why do more Secret Service agents guard the president than the vice president, and why do no Secret Service agents guard college professors?
	367
Summary	368
Key Terms	369
Review Questions	369
Problems	369
Answers to In-Chapter Exercises	370

Chapter 15 Public Goods and Tax Policy 373

Government Provision of Public Goods 374

Public Goods versus Private Goods 374

Paying for Public Goods 376

ECONOMIC NATURALIST 15.1: Why don't most married couples contribute equally to joint purchases? 378

The Optimal Quantity of a Public Good 379

The Demand Curve for a Public Good 379

Private Provision of Public Goods 381

ECONOMIC NATURALIST 15.2: Why do television networks favor Jerry Springer over *Masterpiece Theater*? 382

Additional Functions of Government 384

Externalities and Property Rights 384

Local, State, or Federal? 385

Sources of Inefficiency in the Political Process 386

Pork Barrel Legislation 386

ECONOMIC NATURALIST 15.3: Why does check-splitting make the total restaurant bill higher? 386

ECONOMIC NATURALIST 15.4: Why do legislators often support one another's pork barrel spending programs? 387

Rent-Seeking 387

Starve the Government? 389

What Should We Tax? 390

Summary 392

Key Terms 393

Review Questions 393

Problems 393

Answers to In-Chapter Exercises 395

PART 5 International Trade

Chapter 16 International Trade and Trade Policy 399

Comparative Advantage as a Basis for Trade 400

Production and Consumption Possibilities and the Benefits of Trade 401

The Two-Worker Production Possibilities Curve 401

The Many-Worker Production Possibilities Curve 403

Consumption Possibilities with and without International Trade 405

ECONOMIC NATURALIST 16.1 Does "cheap" foreign labor pose a danger to high-wage economies? 409

A Supply and Demand Perspective on Trade 410

Winners and Losers from Trade 413

Protectionist Policies: Tariffs and Quotas 414

ECONOMIC NATURALIST 16.2: Who benefited from and who was hurt by voluntary export restraints on Japanese automobiles in the 1980s? 418

The Inefficiency of Protectionism 419

ECONOMIC NATURALIST 16.3: What should Lula do about foreign trade? 420

Summary 421

Key Terms 421

Review Questions 421

Problems 422

Answers to In-Chapter Exercises 423

PART 6 Macroeconomics: Issues and Data

Chapter 17 Macroeconomics: The Bird's-Eye View of the Economy 427

- The Major Macroeconomic Issues 429**
 - Economic Growth and Living Standards 429
 - Productivity 431
 - Recessions and Expansions 432
 - Unemployment 432
 - Inflation 434
 - Economic Interdependence among Nations 435
- Macroeconomic Policy 437**
 - Types of Macroeconomic Policy 437
 - Positive versus Normative Analyses of Macroeconomic Policy 438
- Aggregation 439**
- Studying Macroeconomics: A Preview 441**
- Summary 442*
- Key Terms 443*
- Review Questions 443*
- Problems 443*
- Answers to In-Chapter Exercises 444*

Chapter 18 Measuring Economic Activity: GDP and Unemployment 445

- Gross Domestic Product: Measuring the Nation's Output 446**
 - Market Value 447
- ECONOMIC NATURALIST 18.1: Why has female participation in the labor market increased by so much? What explains the trends illustrated in Figure 18.1? 449**
 - Final Goods and Services 449
 - Produced within a Country during a Given Period 452
- The Expenditure Method for Measuring GDP 453**
- GDP and the Incomes of Capital and Labor 457**
- Nominal GDP versus Real GDP 458**
- Real GDP Is Not the Same as Economic Well-Being 460**
 - Leisure Time 461
- ECONOMIC NATURALIST 18.2: Why do people work fewer hours today than their great-grandparents did? 461**
 - Nonmarket Economic Activities 461
 - Environmental Quality and Resource Depletion 462
 - Quality of Life 462
 - Poverty and Economic Inequality 463
- But GDP Is Related to Economic Well-Being 463**
 - Availability of Goods and Services 464
 - Health and Education 464
- ECONOMIC NATURALIST 18.3: Why do far fewer children complete high school in poor countries than in rich countries? 465**
- The Unemployment Rate 466**
 - Measuring Unemployment 466
 - The Costs of Unemployment 468
 - The Duration of Unemployment 469
 - The Unemployment Rate versus "True" Unemployment 469

<i>Summary</i>	470
<i>Key Terms</i>	471
<i>Review Questions</i>	471
<i>Problems</i>	471
<i>Answers to In-Chapter Exercises</i>	473

Chapter 19 Measuring the Price Level and Inflation 475

The Consumer Price Index: Measuring the Price Level	476
Inflation	478
Adjusting for Inflation	479
Deflating a Nominal Quantity	480
Indexing to Maintain Buying Power	482
ECONOMIC NATURALIST 19.1: Every few years there is a well-publicized battle in Congress over whether the minimum wage should be raised. Why do these heated legislative debates recur so regularly?	483
Does the CPI Measure “True” Inflation?	483
ECONOMIC NATURALIST 19.2: Why is inflation in the health care sector apparently high?	485
The Costs of Inflation? Not What You Think	486
The True Costs of Inflation	487
“Shoe-Leather” Costs	488
“Noise” in the Price System	489
Distortions of the Tax System	490
Unexpected Redistribution of Wealth	491
Interference with Long-Run Planning	492
Hyperinflation	492
ECONOMIC NATURALIST 19.3: How costly is high inflation?	493
Inflation and Interest Rates	493
Inflation and the Real Interest Rate	494
The Fisher Effect	496
<i>Summary</i>	497
<i>Key Terms</i>	497
<i>Review Questions</i>	498
<i>Problems</i>	498
<i>Answers to In-Chapter Exercises</i>	500

PART 7 The Economy in the Long Run

Chapter 20 Economic Growth, Productivity, and Living Standards 505

The Remarkable Rise in Living Standards: The Record	507
Why “Small” Differences in Growth Rates Matter	508
Why Nations Become Rich: The Crucial Role of Average Labor Productivity	510
The Determinants of Average Labor Productivity	512
Human Capital	512
ECONOMIC NATURALIST 20.1: Why did West Germany and Japan recover so successfully from the devastation of World War II?	513
Physical Capital	514
Land and Other Natural Resources	517

Technology	517
Entrepreneurship and Management	518
ECONOMIC NATURALIST 20.2: Why did medieval China stagnate economically?	519
The Political and Legal Environment	520
ECONOMIC NATURALIST 20.3: Why did communism fail?	521
The Worldwide Productivity Slowdown—and Recovery?	522
The Costs of Economic Growth	524
Promoting Economic Growth	524
Policies to Increase Human Capital	524
ECONOMIC NATURALIST 20.4: Why do almost all countries provide free public education?	525
Policies That Promote Saving and Investment	525
Policies That Support Research and Development	526
The Legal and Political Framework	526
The Poorest Countries: A Special Case?	526
Are There Limits to Growth?	527
ECONOMIC NATURALIST 20.5: Why is the air quality so poor in Mexico City?	528
<i>Summary</i>	530
<i>Key Terms</i>	531
<i>Review Questions</i>	531
<i>Problems</i>	531
<i>Answers to In-Chapter Exercises</i>	533

Chapter 21 Workers, Wages, and Unemployment in the Modern Economy 535

Five Important Labor Market Trends	536
Trends in Real Wages	536
Trends in Employment and Unemployment	537
Supply and Demand in the Labor Market	538
Wages and the Demand for Labor	538
Shifts in the Demand for Labor	541
The Supply of Labor	544
Shifts in the Supply of Labor	545
Explaining the Trends in Real Wages and Employment	546
ECONOMIC NATURALIST 21.1: Why have real wages increased so much in the industrialized countries?	546
ECONOMIC NATURALIST 21.2: Since the 1970s, real wage growth in the United States has slowed, while employment has expanded rapidly. What accounts for these trends?	547
Increasing Wage Inequality: The Effects of Globalization	548
ECONOMIC NATURALIST 21.3: Why has the gap between the wages of skilled and unskilled workers widened in recent years? (1) Globalization	548
Increasing Wage Inequality: Technological Change	550
ECONOMIC NATURALIST 21.4: Why has the gap between the wages of less-skilled and higher-skilled workers widened in recent years? (2) Technological change	551
Unemployment	553
Types of Unemployment and Their Costs	553
Impediments to Full Employment	555
ECONOMIC NATURALIST 21.5: Why are unemployment rates so high in western Europe?	558
<i>Summary</i>	559
<i>Key Terms</i>	560

Review Questions 560

Problems 561

Answers to In-Chapter Exercises 563

Chapter 22 Saving and Capital Formation 567

Saving and Wealth 568

Stocks and Flows 569

Capital Gains and Losses 570

ECONOMIC NATURALIST 22.1: The bull market and household wealth 571

Why Do People Save? 572

ECONOMIC NATURALIST 22.2: Why do Japanese households save so much? 573

Saving and the Real Interest Rate 574

Saving, Self-Control, and Demonstration Effects 576

ECONOMIC NATURALIST 22.3: Why do U.S. households save so little? 577

National Saving and Its Components 578

The Measurement of National Saving 578

Private and Public Components of National Saving 580

Public Saving and the Government Budget 582

Is Low Household Saving a Problem? 583

Investment and Capital Formation 584

ECONOMIC NATURALIST 22.4: Why has investment in computers increased so much in recent decades? 586

Saving, Investment, and Financial Markets 587

Summary 591

 Chapter 26	 Spending and Output in the Short Run	663
	The Keynesian Model's Crucial Assumption: Firms Meet Demand at Preset Prices	666

ECONOMIC NATURALIST 26.1: Will new technologies eliminate menu costs?	667
Planned Aggregate Expenditure	667
Planned Spending versus Actual Spending	668
Hey Big Spender! Consumer Spending and the Economy	669
ECONOMIC NATURALIST 26.2: What effect did the 2000–2002 decline in U.S. stock market values have on consumer spending?	670
Planned Aggregate Expenditure and Output	672
Short-Run Equilibrium Output	674
Planned Spending and the Output Gap	677
ECONOMIC NATURALIST 26.3: What caused the 1990–1991 recession?	680
ECONOMIC NATURALIST 26.4: Why was the deep Japanese recession of the 1990s bad news for the rest of East Asia?	680
ECONOMIC NATURALIST 26.5: What caused the 2001 recession in the United States?	681
The Multiplier	681
Stabilizing Planned Spending: The Role of Fiscal Policy	682
Government Purchases and Planned Spending	683
ECONOMIC NATURALIST 26.6: Why is Japan building roads nobody wants to use?	684
ECONOMIC NATURALIST 26.7: Does military spending stimulate the economy?	685
Taxes, Transfers, and Aggregate Spending	686
ECONOMIC NATURALIST 26.8: Why did the federal government send out millions of \$300 and \$600 checks to households in 2001?	688
Fiscal Policy as a Stabilization Tool: Three Qualifications	689
Fiscal Policy and the Supply Side	689
The Problem of Deficits	689
The Relative Inflexibility of Fiscal Policy	690

Chapter 27 Stabilizing the Economy: The Role of the Fed 703

The Federal Reserve and Interest Rates	704
The Demand for Money	704
Macroeconomic Factors That Affect the Demand for Money	707
The Money Demand Curve	708
ECONOMIC NATURALIST 27.1: Why does the average Argentine hold more U.S. dollars than the average U.S. citizen?	710
The Supply of Money and Money Market Equilibrium	711
How the Fed Controls the Nominal Interest Rate	713
ECONOMIC NATURALIST 27.2: What's so important about the federal funds rate?	714
Can the Fed Control the Real Interest Rate?	715
The Effects of Federal Reserve Actions on the Economy	716
Planned Aggregate Expenditure and the Real Interest Rate	717
The Fed Fights a Recession	719

ECONOMIC NATURALIST 27.3: Why did the Fed cut the federal funds rate 23 times between 1989 and 1992? 721

ECONOMIC NATURALIST 27.4: How did the Fed respond to recession and the terror attacks in 2001? 721

The Fed Fights Inflation 722

ECONOMIC NATURALIST 27.5: Why does news of inflation hurt the stock market. 724

ECONOMIC NATURALIST 27.6: Should the Federal Reserve respond to changes in stock prices? 724

The Fed's Policy Reaction Function 725

ECONOMIC NATURALIST 27.7: What is the Taylor rule? 726

Monetary Policymaking: Art or Science 728
