

LABORATORY EXPERIMENTS IN  
**ANATOMY  
AND PHYSIOLOGY**  
WITH CAT DISSECTIONS

SEVENTH EDITION

GERARD J. TORTORA  

---

ROBERT J. AMITRANO

# Contents

Laboratory Safety viii

Commonly Used Laboratory Equipment xi

Pronunciation Key xii

## 1. Microscopy 1

- A. Compound Light Microscope 1

## 2. Introduction to the Human Body 9

- A. Anatomy and Physiology 9
- B. Levels of Body Organization 10
- C. Systems of the Body 10
- D. Life Processes 12
- E. Homeostasis 13
- F. Anatomical Position and Regional Names 14
- G. External Features of the Body 14
- H. Directional Terms 14
- I. Planes of the Body 18
- J. Body Cavities 18
- K. Abdominopelvic Regions 19
- L. Abdominopelvic Quadrants 22
- M. Dissection of White Rat 22

## 3. Cells 31

- A. Cell Parts 31
- B. Organelles 31
- C. Diversity of Cells 33
- D. Movement of Substances Across and Through Plasma Membranes 34
- E. Extracellular Materials 40
- F. Cell Division 41

## 4. Tissues 51

- A. Epithelial Tissue 51
- B. Connective Tissue 58
- C. Membranes 65

## 5. Integumentary System 71

- A. Skin 71
- B. Hair 72
- C. Glands 75

- D. Nails 75

- E. Homeostasis of Body Temperature 76

## 6. Bone Tissue 83

- A. Functions of Bone 83
- B. Structure of a Long Bone 83
- C. Histology of Bone 84
- D. Chemistry of Bone 85
- E. Bone Formation: Ossification 87
- F. Bone Growth 87
- G. Fractures 88
- H. Types of Bones 88
- I. Bone Surface Markings 90

## 7. Bones 95

- A. Bones of Adult Skull 95
- B. Sutures of Skull 98
- C. Fontanelles of Skull 98
- D. Paranasal Sinuses of Skull 98
- E. Vertebral Column 98
- F. Vertebrae 98
- G. Sternum and Ribs 109
- H. Pectoral (Shoulder) Girdles 111
- I. Upper Limbs 113
- J. Pelvic (Hip) Girdle 116
- K. Lower Limbs 117
- L. Articulated Skeleton 123
- M. Skeletal System of Cat 123

## 8. Joints 127

- A. Kinds of Joints 127
- B. Fibrous Joints 127
- C. Cartilaginous Joints 128
- D. Synovial Joints 128
- E. Knee Joint 133
- F. Principal Joints of the Body 135

## 9. Muscle Tissue 143

- A. Types of Muscle Tissue 143
- B. Structure of Skeletal Muscle Tissue 144
- C. Contraction of Skeletal Muscle Tissue 145
- D. Laboratory Tests on Skeletal Muscle Contraction 147

- E. Biochemistry of Skeletal Muscle Contraction 154
- F. Electromyography 155
- G. Cardiac Muscle Tissue 156
- H. Smooth (Visceral) Muscle Tissue 156

## 10. Muscular System 165

- A. How Skeletal Muscles Produce Movement 165
- B. Arrangement of Fascicles 166
- C. Naming Skeletal Muscles 166
- D. Connective Tissue Components 166
- E. Principal Skeletal Muscles 167
- F. Composite Muscular System 217
- G. Dissection of Cat Muscular System 217

## 11. Surface Anatomy 241

- A. Head 241
- B. Neck 242
- C. Trunk 245
- D. Upper Limb (Extremity) 248
- E. Lower Limb (Extremity) 253

## 12. Nervous Tissue 265

- A. Nervous System Divisions 265
- B. Histology of Nervous Tissue 266
- C. Histology of Neuroglia 268
- D. Neuronal Circuits 269
- E. Reflex Arc 271
- F. Demonstration of Reflex Arc 272

## 13. Nervous System 275

- A. Spinal Cord and Spinal Nerves 275
- B. Brain 290
- C. Cranial Nerves: Names and Components 300
- D. Tests of Cranial Nerve Function 300
- E. Dissection of Nervous System 305
- F. Autonomic Nervous System 313

## 14. Sensory Receptors and Sensory Motor Pathways 323

- A. Characteristics of Sensations 323
- B. Classification of Receptors 324
- C. Receptors for Somatic Senses 325
- D. Tests for Somatic Senses 327
- E. Somatic Sensory Pathways 330
- F. Olfactory Sensations 332
- G. Gustatory Sensations 335
- H. Visual Sensations 337
- I. Hearing and Equilibrium 346
- J. Sensory-Motor Integration 354
- K. Somatic Motor Pathways 354

## 15. Endocrine System 365

- A. Endocrine Glands 365
- B. Pituitary Gland (Hypophysis) 365
- C. Thyroid Gland 368
- D. Parathyroid Glands 368
- E. Adrenal (Suprarenal) Glands 370
- F. Pancreatic Islets 371
- G. Testes 372
- H. Ovaries 373
- I. Pineal Gland 375
- J. Thymus Gland 375
- K. Other Endocrine Tissues 375
- L. Physiology of the Endocrine System 376

## 16. Blood 379

- A. Components and Origin of Blood 379
- B. Plasma 381
- C. Red Blood Cells 382
- D. Red Blood Cell Tests 383
- E. White Blood Cells 393
- F. White Blood Cell Tests 394
- G. Platelets 397
- H. Drawings of Blood Cells 397
- I. Blood Grouping (Typing) 397

## 17. Heart 407

- A. Location and Surface Projection of Heart 407
- B. Pericardium 408
- C. Heart Wall 409
- D. Chambers and Great Vessels of Heart 409
- E. Valves of Heart 413
- F. Blood Supply of Heart 415
- F. Dissection of Sheep Heart 415

## 18. Blood Vessels 423

- A. Arteries and Arterioles 423
- B. Capillaries 423
- C. Venules and Veins 423
- D. Circulatory Routes 424
- E. Blood Vessel Exercise 469
- F. Dissection of Cat Cardiovascular System 472

## 19. Cardiovascular Physiology 487

- A. Cardiac Conduction System and Electrocardiogram (ECG or EKG) 487
- B. Cardiac Cycle 493
- C. Cardiac Cycle Experiments 495
- D. Heart Sounds 499
- E. Pulse Rate 499
- F. Blood Pressure (Auscultation Method) 501
- G. Observing Blood Flow 502

## 20. Lymphatic and Immune System 511

- A. Lymphatic Vessels 511
- B. Lymphatic Tissues 513
- C. Lymph Circulation 516
- D. Dissection of Cat Lymphatic System 517

## 21. Respiratory System 521

- A. Organs of the Respiratory System 521
- B. Dissection of Cat Respiratory System 531
- C. Dissection of Sheep Pluck 535
- D. Laboratory Tests on Respiration 535
- E. Laboratory Tests Combining Respiratory and Cardiovascular Interactions 545

## 22. Digestive System 553

- A. General Organization of Digestive System 553
- B. Organs of Digestive System 555
- C. Dissection of Cat Digestive System 568
- D. Deglutition 574
- E. Observation of Movements of the Gastrointestinal Tract 576
- F. Physiology of Intestinal Smooth Muscle 577
- G. Chemistry of Digestion 582

## 23. Urinary System 595

- A. Organs of Urinary System 595
- B. Dissection of Cat Urinary System 604
- C. Dissection of Sheep (or Pig) Kidney 605
- D. Renal Physiology Experiments 606
- E. Urine 606
- F. Urinalysis 608

## 24. pH and Acid-Base Balance 623

- A. The Concept of pH 623
- B. Measuring pH 623
- C. Acid-Base Balance 625
- D. Acid-Base Imbalances 628
- E. Renal Regulation of Hydrogen Ion Concentration 629

## 25. Reproductive Systems 635

- A. Organs of Male Reproductive System 635
- B. Organs of Female Reproductive System 641
- C. Dissection of Cat Reproductive Systems 653
- D. Dissection of Fetus-Containing Pig Uterus 657

## 26. Development 663

- A. Spermatogenesis 663
- B. Oogenesis 666
- C. Embryonic Period 666
- D. Fetal Period 674

## Appendix A: Some Important Units of Measurement 679

## Appendix B: Periodic Table of the Elements 680

## Appendix C: Eponyms Used in This Laboratory Manual 681

## Index and Figure Credits 683
