

Quick Look Series IN VETERINARY MEDICINE

Hematology

Susan M. Cotter, DVM

Contents

1. Components of Blood	2	26. Drugs, Toxins, and Metabolic Causes of Nonregenerative Anemia	52
2. Hematopoiesis	4	27. Bone Marrow Failure	54
Section I: Red Blood Cells			
3. Production and Differentiation	6	28. Polycythemia	56
4. Reticulocytes	8	Section II: White Blood Cells	
5. Structure and Metabolism	10	29. Evaluation	58
6. Hemoglobin and Oxygen Transport	12	30. Granulopoiesis (Neutrophil Production)	60
7. Destruction of Red Cells	14	31. Neutrophil Structure and Function	62
8. Evaluation of Erythrocytes	16	32. Patterns of Change in Neutrophil Numbers	64
9. Anemia	18	33. Monocytes and Macrophages	66
10. Acute Blood Loss	20	34. Eosinophils	68
11. Iron Metabolism	22	35. Basophils and Mast Cells	70
12. Iron Deficiency Anemia	24	36. Lymphocytes	72
13. Hemolytic Anemia	26	37. Patterns of Change in Lymphocyte Numbers	74
14. Immune-mediated Hemolysis	28	38. Lymph Nodes	76
15. Blood Group Antigens and Transfusions	30	39. Thymus	78
16. Hemolytic Disease of the Newborn	32	40. Spleen	80
17. Red Blood Cell Substitutes	34	Section III: Platelets and Coagulation	
18. Oxidative Injury to Red Cells	36	41. Endothelial Cells	82
19. Infections Causing Hemolysis	38	42. Platelets	84
20. Other Causes of Hemolysis	40	43. Coagulation	86
21. Nonregenerative Anemia	42	44. Natural Anticoagulant Systems	88
22. Anemia of Chronic Disease/Anemia of Inflammatory Disease	44	45. Laboratory Evaluation of Hemostasis	90
23. Anemia Secondary to Renal or Endocrine Disease	46	46. Evaluation of the Bleeding Patient	92
24. Folate and Cobalamin Deficiencies	48	47. Quantitative Platelet Disorders	94
25. Infectious Causes of Nonregenerative Anemia	50		

48. Qualitative (Functional) Platelet Disorders	96	54. Acute Leukemia	108
49. Inherited Clotting Factor Disorders	98	55. Chronic Leukemia	110
50. Acquired Coagulation Disorders	100	56. Plasma Cell Neoplasms	112
51. Thrombosis	102	57. Other Hematopoietic Malignancies	114
Section IV: Neoplasia		58. Reference Values for Various Species	116
52. Hematopoietic Malignancy	104	References	118
53. Lymphoma	106	Questions and Answers	119
		Index	137
