

# Gut Environment of Pigs

*Edited by*

A Piva  
KE Bach Knudsen  
JE Lindberg

 NOTTINGHAM  
University Press

## CONTENTS

	<b>Preface</b>	vii
<b>1</b>	<b>Morphological and functional changes in the small intestine of the newly-weaned pig</b> J. R. Pluske <i>Murdoch University, Australia</i>	1
<b>2</b>	<b>The role of polyamines in intestinal function and gut maturation</b> S. Bardocz, A. White, G. Grant, T. J. Walker, D. S. Brown and A. Pusztai <i>Rowett Research Institute, UK</i>	29
<b>3</b>	<b>Glutamine in gut metabolism</b> S.G. Pierzynowski, J. L. Valverde Piedra, T. Hommel-Hansen and T. Studzinski <i>Lund University, Sweden</i>	43
<b>4</b>	<b>The influence of feed composition on protein metabolism in the gut</b> O. Simon <i>Free University - Berlin, Germany</i>	63
<b>5</b>	<b>Organic acid production in the large intestine: implication for epithelial cell proliferation and cell death</b> T. Sakata and A. Inagaki <i>Ishinomaki Senshu University, Japan</i>	85
<b>6</b>	<b>Action of n-butyrate at the level of gene expression in the colonic mucosa : lessons from pig and rat experiments</b> C. Cherbuy, C. Andrieux, P. -H. Duée and B. Darcy-Vrillon <i>INRA, Jouy-en-Josas, France</i>	95
<b>7</b>	<b>Microorganisms exert bioactive and protective effects through the innate immune system</b> B. Morein and Ke-Fei Hu <i>Swedish University of Agricultural Sciences, Uppsala, Sweden</i>	105
<b>8</b>	<b>Luminal bacteria: regulation of gut function and immunity</b> D. Kelly and T. P. King <i>The Rowett Research Institute, UK</i>	113

<b>9</b>	<b>The use of nondigestible oligosaccharides to manage the gastrointestinal ecosystem</b> R. K. Buddington <i>Mississippi State University, USA</i>	133
<b>10</b>	<b>Lectin microbial interactions in the gut</b> P. J. Naughton <i>DIAS, Research Centre Foulum, Denmark</i>	149
<b>11</b>	<b>Modulation of the gut microflora by enzyme addition</b> A. Chesson and C. Stewart <i>Rowett Research Institute, UK</i>	165
<b>12</b>	<b>Possible ways of modifying type and amount of products from microbial fermentation in the gut</b> B. Borg Jensen <i>DIAS, Research Centre Foulum, Denmark</i>	181
<b>13</b>	<b>Organic acids – their efficacy and modes of action in pigs</b> K. Partanen <i>Agricultural Research Centre of Finland, Hyvinkää, Finland</i>	201
<b>14</b>	<b>Safety aspects on non-use of antimicrobials as growth promoters</b> C. Greko <i>National Veterinary Institute, Sweden</i>	219
<b>15</b>	<b>Current status and future perspectives in E.U. for antibiotics , probiotics, enzymes and organic acids in animal nutrition</b> M. Vanbelle. <i>University of Louvain-La-Neuve, Belgium</i>	231
	<b>Index</b>	257
