Contents at a Glance

.....

Introduction	1
---------------------------	----------

Part I: A Beginner's Introduction to Linux Programming	7
---	----------

Chapter 1: Checking Out How Linux Programming Works	9
---	---

Chapter 2: Designing Your First User Interface	23
--	----

Chapter 3: Writing Your First Linux Program	33
---	----

Part II: The Basics of Writing Code	53
--	-----------

Chapter 4: Getting Indecisive with Variables	55
--	----

Chapter 5: Interfacing with the User	65
--	----

Chapter 6 : Who Were Those Masked Operators?	75
--	----

Part III: Making Decisions	87
---	-----------

Chapter 7: The if, if else, and if elif Statements	89
--	----

Chapter 8: The case Statement	99
-------------------------------------	----

Chapter 9: Nested Control Structures	105
--	-----

Part IV: Loops and Loops	109
---------------------------------------	------------

Chapter 10: The while Loop	111
----------------------------------	-----

Chapter 11: The for in Loop	119
-----------------------------------	-----

Chapter 12: Nested Loops and Quick Exits	125
--	-----

Part V: Writing Subprograms	133
--	------------

Chapter 13: Waxing Efficient with Functions (So You Don't Have to Retype Code!)	135
---	-----

Chapter 14 : Getting Down with Subprograms	145
--	-----

Chapter 15 :Understanding Arguments . . . Not the Ones with Your Mother-in-Law	159
--	-----

Part VI: Database Programs and Printing	169
--	------------

Chapter 16: Working with Database Files	171
---	-----

Chapter 17: Making Your Program Print Stuff Out	183
---	-----

Part VII: Debugging Your Program	189
Chapter 18: Getting Chatty with Comments	191
Chapter 19: Stamping Out Bugs in Your Program	197
Part VIII: Automating E-Mail	209
Chapter 20: Getting Goofy with E-Mail	211
Chapter 21: Automatic E-Mailing	227
Part IX: The Part of Tens	245
Chapter 22: Ten of the Most Useful Linux Utilities	247
Chapter 23: Ten Sources of More Linux Programming Information	257
Chapter 24: Ten Linux Programming Topics That Didn't Fit Anywhere Else	263
Part X: Appendixes	273
Appendix A: Glossary	275
Appendix B: When the Moon Hits Your Eye Like a Big Piece of vi	285
Appendix C: Shell Conversion	303
Appendix D: Linux Programming Exercises	307
Appendix E: Surfing for Sample Code	327
Index	329
