Robin A. Reynolds-Haertle

<b>Introduction .....</b>	<b>ix</b>
<b>Writing Your First Object-Oriented Program .....</b>	<b>1</b>
Reading Books: Your First Object-Oriented Program 2 • Using the Class View 16 • Creating the ReadBooks Program 22	
<b>Creating Class Instances with Constructors .....</b>	<b>29</b>
Constructors 29 • Reading Books: Another Implementation 30 • Reference and Value Types 38 • Understanding Array Declarations 40	
<b>Creating Fields and Properties .....</b>	<b>43</b>
Design Considerations for Properties 44 • Code Analysis: A Host of Properties 44 • Code Analysis: Using Indexers and Default Proper- ties 58	
<b>Working with Methods .....</b>	<b>71</b>
A Deck of Cards 72	
<b>Using Inheritance to Create Specialized Classes .....</b>	<b>105</b>
Inheritance: An Overview 106 • BankAccount: A Simple Example 106 • Inherit from a Control: The RoundButton Class 127	
<b>Designing Base Classes as Abstract Classes .....</b>	<b>137</b>
Abstract Classes 138 • The BankAccount Class Revisited 139 • A Typed Collection Class 151	
<b>Responding to Changes with Events and Exceptions .....</b>	<b>163</b>
Fire on the Tracks! An Event-Driven Application 164 • Setting Up Event Methods Without Using the Designer 184 • Exceptions— When Things Go Wrong 187	

<b>Chapter 8</b>	<b>Putting It All Together with Components .....</b>	<b>197</b>
	The Memory Game 198 • The Games Class Library 201 • The Memory Game Application 232	
<b>Chapter 9</b>	<b>Providing Services Using Interfaces .....</b>	<b>237</b>
	An IMoveable Interface 237 • .NET Framework Interfaces 245 • Two Other Uses of Interfaces 263	
<b>Chapter 10</b>	<b>Using Classes Interchangeably Through Polymorphism .....</b>	<b>267</b>
	Pattern Maker 267 • Pattern Maker Design 268 • The Base Classes 271 • The Derived Classes 273 • The User Interface 285	
<b>Chapter 11</b>	<b>Using Shared and Static Members .....</b>	<b>293</b>
	Shared and Static Members 294 • A More Interesting Point 294 • A More Efficient Card 302 • The Singleton Pattern 309 • Design Considerations 314	
<b>Chapter 12</b>	<b>Overloading Operators with Visual C# .....</b>	<b>317</b>
	A Short Lesson on Vectors 318 • Vector Algebra Application 320	
<b>Chapter 13</b>	<b>Saving Instance Data .....</b>	<b>331</b>
	Serialization 334 • DataSets 348	
<b>Chapter 14</b>	<b>Reducing Complexity by Design .....</b>	<b>359</b>
	The .NET Design Guidelines 360 • Refactoring 368 • Design Patterns 372	
<b>Appendix</b>	<b>Additional Resources .....</b>	<b>377</b>
	Books 377 • Organizations 378	
	<b>Index .....</b>	<b>379</b>
