

Technologies for Education

A PRACTICAL GUIDE

**Ann E. Barron
Gary W. Orwig
Karen S. Ivers
and Nick Lilavois**

Fourth Edition

CONTENTS

Preface	xiii
--------------------------	-------------

1

TEACHING WITH TECHNOLOGY

<i>A Scenario</i>	1
Introduction	2
Trends in Technology	2
Benefits of Technology in Education	3
Instructional Effectiveness	4
Active Learning	4
Critical Thinking	5
Individualization	6
Motivation	6
Flexibility for Students with Special Needs	6
Cooperative Learning	6
Communication Skills	7
Multisensory Delivery	7
Multicultural Education	7
Technology Standards	8
Standards for Teachers	8
Standards for Students	11
Implementing Technology	15
Summary	17
Technology Journals and Magazines	17
Recommended Reading	18
References	18

2

COMPUTER GRAPHICS

<i>A Scenario</i>	23
Introduction	24
Overview of Computer Graphics.	24
Resolution	24
Bitmapped Images	26
Object-Oriented Images	27
Color.	28
Color Depth	28
Reducing Color Depth	29
Dithering and Halftoning.	29
Compression.	30
Graphic File Formats	32
Graphic Formats for the Web	34
Fonts	36
Typefaces	37
Font Attributes.	38
Scanning Images.	38
Digital Cameras	40
Resolution	41
Compression	41
Memory Media	42
Transferring Images from the Camera to the Computer	42
Summary	43
Glossary.	43
Resources	46
Image Processing and Bitmap Editing Programs	46
Object-Oriented Drawing Programs	47

3

ADVANCED COMPUTER GRAPHICS
Animation, 3D Graphics, and Virtual Reality

<i>A Scenario</i>	49
Introduction	50
Animation	50
Bitmapped (Frame-Based) Animation	51
Object-Oriented (Path-Based) Animation	52
Animation Guidelines	54
3D Graphics	55
Modeling	55
Attributes	56
Lights and Cameras	56
Animation	57
Rendering	58

Hardware and Software for 3D Graphics	60
Virtual Reality.	61
Image-Based Virtual Reality	62
Object-Based Virtual Reality	66
Summary	67
Glossary.	68

4

DIGITAL AUDIO

<i>A Scenario</i>	71
Introduction	72
Overview of Digital Audio	72
Sampling Rates	73
Resolution	74
Number of Channels	74
Digital Audio File Formats	75
Recording Digital Audio.	76
Editing Sounds	76
Educational Applications for Digital Audio	77
Advantages of Digital Audio	78
Disadvantages of Digital Audio	79
Compact Disc-Audio.	79
Advantages of CD-Audio	79
Disadvantages of CD-Audio	79
Text-to-Speech Synthesis	80
Advantages of Text-to-Speech Synthesis	80
Disadvantages of Text-to-Speech Synthesis	80
Voice Recognition	81
Musical Instrument Digital Interface (MIDI)	82
Generating MIDI Files	83
Advantages of MIDI	83
Disadvantages of MIDI.	84
Audio on the Internet	84
Download and Play.	84
Streaming Audio	85
Guidelines for Creating Streaming Audio Files	86
Summary	86
Glossary.	86
Resources	88

5 DIGITAL VIDEO

<i>A Scenario</i>	89
Introduction	92
Analog Video	92
Digital Video	93
Digital Video Compromises	94
Preproduction: Planning Your Project	96
Selecting a Project Idea/Goal	96
Planning the Project	97
Production.	98
Getting Ready for the Shoot	98
Digital Camcorders.	98
Postproduction.	100
Nonlinear Editing	100
Computer Hardware	101
Software Editing Tools	102
Distribution	104
Dissemination Media	104
File Formats	106
Compression and Decompression—Codecs.	108
Summary.	111
Glossary	111
Resources	114

6 LOCAL AREA NETWORKS

<i>A Scenario</i>	117
Introduction	118
Overview of a LAN	119
The OSI Model	120
Layer 1 Details—Cables and Repeaters and Hubs.	122
Signaling Rates	122
Bandwidth	123
Cables.	123
Topologies	127
Repeaters.	129
Network Hubs.	129
Layer 2 Details—Ethernet, NICS, and Bridges	129
Basic Ethernet—A History	130
Basic Ethernet—The Fundamentals	130
Network Interface Cards	131
Ethernet Bridges	131
Ethernet Switches	132

Layer 3 Details—The Network Layer	132
Routers—Speaking Multiple Languages	133
Network Servers	133
Life Without Servers—Peer-to-Peer LANs	133
Life with a Network Server	135
Specialized Servers	135
Layers 4 and 5—Network Operating Systems	136
Novell Netware	138
Wireless LANs	139
Types of Wireless LANs	140
Components of a Wireless LAN	141
Summary	142
Glossary	143
Resources	146

7

TELECOMMUNICATIONS

<i>A Scenario</i>	147
Introduction	148
Overview of the Web	148
Web Pages	149
Web Browsers	149
Plug-ins	150
Searching the Web	151
Internet Research in the Classroom	152
Basic Research	152
Advanced Research	154
Original Research	154
Communication Activities	154
Communication via E-mail	155
E-mail Activities	156
Synchronous Communication via Videoconferencing	156
Communication via Web Publishing	157
Benefits and Concerns of Using the Internet in the Classroom	160
Acceptable Use Policies	160
Filtering Software	161
Privacy Issues	161
Implementation Techniques	161
Access Options	162
Internet Service Providers	162
Connection Speeds	163
Standard Modems	164
Fax Modems	165
Integrated Services Digital Network (ISDN)	165
Satellite Technology	166

7 TELECOMMUNICATIONS (continued)

Access Options (continued)	
T-Carrier System	166
Digital Subscriber Line (DSL)	166
Cable Modem	167
WebTV	168
Wireless Technology	168
Gigabit Ethernet	169
Internet2	169
Summary	170
Glossary	170
Resources	174
Resources for Teachers	174
Tools for Creating Web Pages	175
Miscellaneous Web Sites	175
Plug-ins	176
Search Engines	176
Metasearch Engines	176
Specialized Search Engines	176
Search Engines for Kids	177
Search Strategies	177
Student Publication Sites	177
Sample AUPs	177

8 DISTANCE LEARNING

A Scenario	179
Introduction	180
Definition of Distance Learning	180
Educational Applications	181
Homebound and Home-Schooled Students	181
Virtual High Schools	182
The Classroom Guest Speaker	182
Distance Tutoring and Mentoring	182
Distributed Classes	182
Contract Courses	182
Staff Development and In-Service Programs	183
Audio Technologies for Distance Learning	183
Audiotapes	183
Audioconferences via Telephone	183
Audioconferencing via the Internet	184
Streaming Audio	184
Guidelines for Incorporating Audio Technologies	185

Video Technologies	185
Videotapes	185
Satellite Videoconferencing	186
Microwave Television Conferencing	187
Cable and Broadcast Television	188
Desktop Videoconferencing	188
Streaming Video	189
Guidelines for Incorporating Video Technologies	190
Computer Technologies for Distance Learning	190
E-mail Communications	190
Internet Chat	191
Shared Whiteboards	191
Application Sharing	192
Informational and Instructional Web Sites	192
Web-Based Courses	194
Synchronous Virtual Classrooms	195
Guidelines for Incorporating Computer Technologies	196
Summary	197
Glossary	197
Resources	202
References	203

9

ASSISTIVE TECHNOLOGIES IN THE CLASSROOM

Julie A. Barron and Christine M. Hackert

<i>A Scenario</i>	205
Introduction	206
Input Devices	206
Alternate Keyboards	206
Joysticks and Trackballs	207
Touch Screens	208
Switches	208
Pointing Devices	208
Environmental Control Units	209
Software to Assist with Input	209
On-Screen Keyboards	210
Voice Recognition	211
Word Prediction	211
Output Devices	212
Screen Magnification	212
Refreshable Braille Displays	213
Software to Assist with Output	213
Screen Windowing Software	213
Text-to-Speech Conversion	214
Special Applications Programs	214

9

ASSISTIVE TECHNOLOGIES IN THE CLASSROOM

(continued)

Summary	214
Glossary	214
Resources	217
Alternate Keyboards	217
Joysticks and Trackballs	217
Switches	217
Pointing Devices	218
Vendors	218
Web Sites	218
References and Recommended Reading	219
 Index	 221
