

Feeds & Feeding

Tilden Wayne Perry
Arthur E. Cullison
Robert S. Lowrey

Sixth Edition

Contents

Preface ix

Introduction xi

SECTION I PRINCIPLES OF ANIMAL NUTRITION AND PHYSIOLOGY

- 1** The Feed Nutrients 1
- 2** General Functions of Feed Nutrients 9
- 3** Proximate Analysis of Feedstuffs 12
- 4** Use of the Van Soest Analysis in Feed Evaluation 31
- 5** The Digestive Tract 35
- 6** Nutrient Digestion, Absorption, and Transport 39
- 7** Apparent Digestibility 44
- 8** Total Digestible Nutrients (TDN) 48
- 9** Energy Utilization 53
- 10** Study Questions and Problems 59
- 11** Energy Nutrition: I Carbohydrates, II Lipids 73
- 12** Protein Nutrition 84
- 13** Mineral Nutrition—General 99
- 14** The Macrominerals 102
- 15** The Microminerals 123
- 16** General Recommendations for Mineral Feeding 138
- 17** Vitamin Nutrition 141

18 Physiological Phases of Livestock Production 167

19 Study Questions and Problems 181

SECTION II FEEDSTUFFS

20 Feeds and Feed Groups—General 195

21 Energy Feeds 198

22 High-Protein Feeds 212

23 Air-Dry Roughages 226

24 The Molasses 240

25 High-Moisture Feeds 243

26 Identifying Feeds from Their Composition 247

27 Hay and Hay Making 252

28 Silage and Haylage—Production and Use 261

29 Problems of Feed Storage 274

30 Processing Feeds 279

31 Uniform State Feed Bill 286

32 Pastures—General 291

33 Facts About Important Pasture Crops 294

34 General Uses of Pasture in Livestock Feeding 308

35 Study Questions and Problems 319

SECTION III BALANCING RATIONS

36 Balancing Rations—General 325

37 Calculating a Balanced Ration—General 330

- 38** Balancing a Ration for a Growing and Finishing Steer 333
- 39** Balancing a Ration for a Steer Using a High Level of Roughage 339
- 40** The California System for the Net Energy Evaluation of Rations for Growing-Finishing Cattle 342
- 41** Balancing a Ration for a Dairy Cow 345
- 42** Balancing Rations for Horses 352
- 43** Balancing Rations for Sheep 356
- 44** Balancing Rations for Swine 360
- 45** Formulating a Feed Mixture Based on a Balanced Daily Ration or a Portion Thereof 367
- 46** Formulating Feed Mixtures by the Use of the Square Method 370
- 47** Use of Algebraic Equations in the Formulation of Feed Mixtures 375
- 48** Use of the Square Method for Formulating a Balanced Ration Mixture for a Finishing Steer 380
- 49** Formulation of a Balanced Ration Mixture for Lactating Sows 383
- 50** Calculating and Altering Levels of Nutrients in Feed Mixtures 386
- 51** Formulating and Using Premixes 391
- 52** Computerized Least-Cost Rations 397
- 53** Estimating Feed Requirements 400
- 54** Weights, Measures, Volumes, and Capacities 404

SECTION IV LIVESTOCK AND POULTRY FEEDING

- 55** Feeding Beef Cattle 407
- 56** Feeding Dairy Cattle 425
- 57** Veal Production 443

VIII / CONTENTS

- 58** Feeding Horses 451
- 59** Feeding Chickens 459
- 60** Feeding Turkeys 468
- 61** Feeding Sheep 472
- 62** Feeding Swine 480
- 63** Use of Performance Modifiers 490
- 64** Feeding Animal Wastes and Snackfood By-products 500
- 65** Aflatoxin in Feeds 507
- 66** Study Questions and Problems 513

APPENDICES

- A** Tables on Nutrient Requirements 530
- B** Glossary of Terms Frequently Used in Discussing Matters Related to Feeds and Feeding 643
- Index 665
