

*Particle
Calculations
for Ceramists*

Dennis R. Dinger

Table of Contents

	Page
List of Sample Problems	iii
Preface	vii
Nomenclature	ix
1 Surface Area	1
2 Volume and Porosity	11
3 Density	23
4 Suspension Densities	29
5 Description of Particle Size Distributions	43
6 Particle Size Distribution Measurements	63
7 Calculated Surface Areas, Number of Particles, Shape Factors	81
8 Dense Packing	89
9 InterParticle Spacing	103
10 Particle Formulas	107
References	111
Index	113
