

Fourth Edition

Clinical Chemistry

Theory, Analysis, Correlation

Lawrence A. Kaplan
Amadeo J. Pesce
Steven C. Kazmierczak

CONTENTS

Part I Laboratory Techniques, 1

- 1 Basic Laboratory Principles and Techniques, 3**
Part 1: Basic Laboratory Principles and Techniques, 5
Part 2: Calculations in Clinical Chemistry, 34
Bette Seamonds
Elizabeth Ann Byrne
- 2 Laboratory Management, 45**
Lawrence J. Crolla
Lisa Reninger
Paul W. Stiffler
- 3 Sources and Control of Preanalytical Variation, 64**
D. Robert Dufour
- 4 Spectral Techniques, 83**
Amadeo J. Pesce
Christopher S. Frings
Jack Gauldie
- 5 Chromatography: Theory and Practice, 107**
M. Wilson Tabor
- 6 Liquid Chromatography, 129**
David J. Anderson
- 7 Gas Chromatography, 154**
Alphonse Poklis
- 8 Mass Spectrometry, 171**
Michael Lehrer
- 9 Radioisotopes in Clinical Chemistry, 187**
I-Wen Chen
- 10 Electrophoresis, 201**
John M. Brewer
- 11 Immunological Reactions, 216**
Carolyn S. Feldkamp
- 12 Immunochemical Techniques, 227**
Carolyn S. Feldkamp
- 13 Principles for Competitive-Binding Assays, 246**
Stephan G. Thompson
- 14 Measurement of Colligative Properties, 265**
Lawrence A. Kaplan
- 15 Electrochemistry: Principles and Measurements, 272**
William R. Heineman
Jon R. Kirchhoff
John F. Wheeler
Craig E. Lunte
Sarah H. Jenkins

- 16 Laboratory Automation, 287**
Michael A. Pesce
- 17 Point-of-Care (Near-Patient) Testing, 303**
Ellis Jacobs
- 18 Laboratory Information Systems, 320**
David Chou
- 19 Laboratory Statistics, 340**
Stephen E. Kahn
Mark A. Jandreski
- 20 Reference Intervals and Clinical Decision Limits, 362**
Edward A. Sasse
- 21 Quality Control for the Clinical Chemistry Laboratory, 379**
Kenneth E. Blick
Richard B. Passey
- 22 Evaluation of Methods, 402**
Carl C. Garber
R. Neill Carey
- 23 Interferences in Chemical Analysis, 427**
Amadeo J. Pesce
Lawrence A. Kaplan

Part II Pathophysiology, 439

- 24 Physiology and Pathophysiology of Body Water and Electrolytes, 441**
John M. Lorenz
Leonard I. Kleinman
- 25 Acid-Base Control and Acid-Base Disorders, 462**
John E. Sherwin
- 26 Renal Function, 477**
Martin Roy First
- 27 Liver Function, 492**
John E. Sherwin
- 28 Bone Disease, 507**
Oussama Itani
Reginald C. Tsang
- 29 The Pancreas: Function and Chemical Pathology, 535**
D. Robert Dufour
- 30 Gastrointestinal Function and Digestive Disease, 549**
D. Robert Dufour
- 31 Cardiac and Muscle Disease, 566**
Wendy R. Sanhai
Robert H. Christenson

- 32 Diabetes Mellitus**, 580
Richard F. Dods
- 33 Coronary Artery Disease and Disorders of Lipid Metabolism**, 603
Part 1: Lipids, 604
Part 2: Lipoproteins, 612
Herbert K. Naito
- 34 Alcoholism**, 639
Jeri D. Ropero-Miller
Ruth E. Winecker
- 35 Iron, Porphyrin, and Bilirubin Metabolism**, 657
Part 1: Iron Metabolism, 658
Part 2: Heme Synthesis and the Porphyrins, 663
Part 3: Bilirubin, 671
William E. Schreiber
- 36 Hemoglobin**, 675
Harold R. Schumacher
Carmelita Alvares
Fermina M. Mazzella
- 37 Human Nutrition**, 695
Nancy W. Alcock
- 38 Trace Elements**, 707
Nancy W. Alcock
- 39 Vitamins**, 722
James G. Donnelly
- 40 Pregnancy and Fetal Development**, 753
John F. Chapman, Jr.
Catherine A. Hammett-Stabler
Jane E. Phillips
- 41 Extravascular Biological Fluids**, 779
Lewis Glasser
- 42 Nervous System**, 787
Michael D. Privitera
Cathy Cao
Marcia Kaplan
- 43 General Endocrinology**, 809
Laurence M. Demers
- 44 Thyroid**, 827
Mariano Fernandez-Ulloa
- 45 The Gonads**, 849
Elisabeth Nye
- 46 Adrenal Hormones and Hypertension**, 876
Part 1: The Adrenal Hormones, 878
Part 2: Hypertension, 900
Morris R. Pudek
- 47 Diseases of Genetic Origin**, 907
Donald L. Rucknagel
Richard Wenstrup
- 48 Molecular Diagnostics**, 937
W. Edward Highsmith, Jr.
Niel T. Constantine
Kenneth J. Friedman
- 49 Neoplasia**, 960
Barry N. Elkins
- 50 Laboratory Evaluation of the Transplant Recipient and Donor**, 972
Rita R. Alloway
- 51 Toxicology**, 989
Catherine A. Hammett-Stabler
Ruth E. Winecker
Jeri D. Ropero-Miller
- 52 Addiction and Substance Abuse**, 1016
R. Jeffrey Goldsmith
Cheryl Lesar
- 53 Classifications and Descriptions of Proteins, Lipids, and Carbohydrates**, 1024
Part 1: Proteins, 1025
Part 2: Lipids, 1030
Part 3: Carbohydrates, 1035
Part 4: Nucleic Acids, 1037
Lawrence A. Kaplan
Herbert K. Naito
Amadeo J. Pesce
- 54 Clinical Enzymology**, 1043
David C. Hohnadel
- 55 Isoenzymes and Isoforms**, 1064
Wendy R. Sanhai
Robert H. Christenson
- 56 Therapeutic Drug Monitoring (TDM)**, 1073
Part 1: Basic Overview of Principles, 1075
Part 2: Practical Aspects of TDM, 1086
Wolfgang A. Ritschel
Michael Oellerich
Victor W. Armstrong
- 57 Examination of Urine**, 1092
Lawrence A. Kaplan
Amadeo J. Pesce
- Appendix A Buffer Solutions**, 1112
- Appendix B Preparation of Buffer Solutions**, 1114
- Appendix C Concentrations of Common Acids and Bases**, 1117
- Appendix D Gases in Common Laboratory Use—Technical Information**, 1118
- Appendix E Major Plasma Proteins**, 1120
- Appendix F Conversions Between Conventional and SI Units**, 1122
- Appendix G Conversions Between Conventional and SI Units for Specific Analytes**, 1123
- Appendix H Body Surface of Children**, 1125
- Appendix I Body Surface of Adults**, 1126
