

**MASTER  
MEDICINE**

# **Microbiology and Infection**

---

A clinical core text for  
integrated curricula with  
self-assessment

T J J INGLIS

# Contents

Using this book	1
<b>Section A</b> Introduction to microbiology and infection	
1 Biology of microorganisms	7
2 Pathogenesis of infection	19
3 Diagnosis of infectious diseases	25
4 Antimicrobial chemotherapy	33
5 Prevention and control of infectious diseases	43
<b>Section B</b> Infection in clinical practice	
6 Infections of the skin and soft tissues	55
7 Infections of the respiratory tract	71
8 Infections of the gastrointestinal tract and related organs	87
9 Urinary tract infections	103
10 Infections of the genital tract	113
11 Infections of the central nervous system	127
12 Infections of the eye and surrounding structures	141
13 Bone and joint infections	151
14 Congenital and neonatal infections	159
15 Infections in older children	169
16 Infections in hospital patients	183
17 Infections in immunocompromised patients	197
18 Infection in international travellers	209
19 Orphan infections	219
20 Emerging infections	233

**Section C Additional information**

21 Bacteriology	243
22 Viruses	257
23 Parasitology	263
24 Mycology	269
25 Entomology	271
26 Laboratory methods	273
27 Antimicrobial agents	279
Index	285
