

# Optical and Wireless Communications

NEXT GENERATION NETWORKS

MATTHEW N. O. SADIKU

CRC PRESS

---

# Contents

<b>Part 1: Optical networks</b> .....	<b>1</b>
<b>Chapter 1 Optical fibers</b> .....	<b>3</b>
1.1 Why optical fiber? .....	3
1.2 A glimpse of history.....	5
1.3 Optical fibers .....	6
1.3.1 Step-index fiber.....	10
1.3.2 Graded-index fibers .....	12
1.4 Fiber loss and dispersion .....	14
Summary .....	16
References.....	16
Problems.....	17
<b>Chapter 2 Optical transmitters and receivers</b> .....	<b>19</b>
2.1 Optical sources.....	19
2.1.1 Basic concepts .....	21
2.1.2 Light-emitting diodes (LEDs).....	23
2.1.3 Laser diodes .....	25
2.2 Optical transmitters.....	28
2.3 Optical detectors.....	30
2.3.1 PIN photodiode .....	31
2.3.2 Avalanche photodiode (APD) .....	33
2.4 Optical receivers .....	35
Summary .....	37
References.....	38
Problems.....	38
<b>Chapter 3 Optical multiplexers and amplifiers</b> .....	<b>41</b>
3.1 WDM lightwave systems .....	41
3.2 DWDM lightwave systems .....	46
3.3 OTDM lightwave systems.....	49
3.4 SCM lightwave systems .....	50
3.5 CDM lightwave systems .....	51
3.6 Optical amplifiers .....	53
3.6.1 Semiconductor amplifiers .....	54
3.6.2 Erbium-doped fiber amplifiers.....	55

Summary .....	56
References.....	57
Problems.....	57
<b>Chapter 4 Optical networks.....</b>	<b>59</b>
4.1 FDDI networks.....	60
4.1.1 Basic features.....	60
4.1.2 Access and priority mechanism.....	64
4.1.3 Applications of FDDI.....	66
4.1.4 Enhanced FDDI.....	67
4.2 SONET.....	67
4.2.1 Basic features.....	68
4.2.2 Architectural layers.....	69
4.2.3 Frame format.....	71
4.2.4 Equipment and topologies.....	74
4.2.5 Deployment and applications .....	75
4.3 Fiber channel.....	80
4.3.1 Basic features.....	80
4.3.2 Architecture .....	81
4.3.3 Topologies.....	85
4.4 Broadcast-and-select WDM networks.....	87
4.4.1 Topologies.....	87
4.4.2 Testbeds.....	89
4.5 Wavelength-routed networks .....	90
4.5.1 Topologies.....	91
4.5.2 Testbeds.....	93
4.6 Undersea networks.....	93
4.6.1 Historical background .....	94
4.6.2 Global network architecture.....	96
4.6.3 Africa ONE project.....	97
4.7 Emerging technologies.....	99
4.7.1 Optical gigabit Ethernet .....	99
4.7.2 DTM.....	100
4.7.3 MPLS .....	103
Summary .....	106
References.....	107
Problems.....	110
<b>Part 2: Wireless networks.....</b>	<b>113</b>
<b>Chapter 5 Fundamentals of wireless networks.....</b>	<b>115</b>
5.1 A glimpse of history.....	116
5.2 Propagation characteristics .....	118
5.2.1 Free space propagation model.....	118
5.2.2 Path loss model.....	119
5.2.3 Empirical path loss formula .....	126

5.3	Modulation techniques .....	128
5.4	Multiple-access techniques .....	131
	Summary .....	132
	References.....	134
	Problems .....	134
<b>Chapter 6</b>	<b>Wireless networking .....</b>	<b>137</b>
6.1	Wireless LAN .....	138
6.1.1	Physical layer and topology .....	138
6.1.2	Technologies .....	139
6.1.3	Standards .....	142
6.1.4	Applications .....	144
6.2	Wireless ATM .....	145
6.2.1	Overview of ATM.....	146
6.2.2	Wireless ATM (WATM) architecture .....	148
6.3	Wireless local loop.....	152
6.3.1	WLL services .....	154
6.3.2	WLL applications.....	155
6.4	Wireless PBXs .....	156
6.5	Wireless PAN.....	158
	Summary .....	161
	References.....	162
	Problems .....	163
<b>Chapter 7</b>	<b>Cellular technologies .....</b>	<b>165</b>
7.1	The cellular concept .....	166
7.1.1	Fundamental features .....	167
7.1.2	Cellular network.....	169
7.1.3	Cellular standards .....	170
7.2	Personal communications systems .....	171
7.2.1	Basic features.....	172
7.2.2	PCS architecture.....	174
7.2.3	PCS standards .....	175
7.3	Cellular digital packet data .....	177
7.3.1	Network architecture .....	178
7.3.2	Applications .....	181
	Summary .....	182
	References.....	183
	Problems .....	183
<b>Chapter 8</b>	<b>Satellite communications .....</b>	<b>185</b>
8.1	Fundamentals .....	186
8.1.1	Types of satellites .....	187
8.1.2	Frequency bands.....	189
8.1.3	Basic satellite components .....	191
8.1.4	Effects of space.....	192

8.2	Orbital characteristics .....	193
8.3	VSAT networks .....	197
8.3.1	Network architecture .....	198
8.3.2	Applications .....	199
8.4	Fixed satellite service .....	201
8.5	Mobile satellite service .....	203
8.5.1	Sample architectures .....	205
8.5.1.1	Iridium.....	205
8.5.1.2	Globalstar .....	209
8.5.1.3	ICO .....	211
8.5.2	Applications .....	213
	Summary .....	214
	References.....	214
	Problems.....	216
	Bibliography .....	219
	Glossary and acronyms .....	223
	Appendix — Physical constants.....	235
	Index .....	237
