<i>Preface</i>	<i>xiii</i>
<i>Abbreviations and Symbols</i>	<i>xvii</i>
<b>I BLOCK COPOLYMER SYNTHESIS</b>	<b>1</b>
<b>1 BLOCK COPOLYMERS BY ANIONIC POLYMERIZATION</b>	<b>3</b>
1. Synthesis of AB Diblock Copolymers / 4	
2. Synthesis of Triblock Copolymers / 11	
3. Linear Block Copolymers With More Than Three Blocks / 23	
<b>2 BLOCK COPOLYMERS BY CATIONIC POLYMERIZATION</b>	<b>28</b>
1. Synthesis of AB Diblock Copolymers / 29	
2. Synthesis of Triblock Copolymers / 40	
<b>3 BLOCK COPOLYMERS BY LIVING FREE RADICAL POLYMERIZATION</b>	<b>47</b>
1. Synthesis of AB Diblock Copolymers / 48	
2. Synthesis of ABA Triblock Copolymers / 58	

3. Synthesis of ABC Triblock Terpolymers and ABCD Tetrablock Quarterpolymers / 61

#### **4 BLOCK COPOLYMERS BY GROUP TRANSFER POLYMERIZATION**

65

1. Synthesis of AB Diblock Copolymers / 66
2. Synthesis of ABA Triblock Copolymers / 72
3. Synthesis of ABC Triblock Terpolymers / 75

#### **5 BLOCK COPOLYMERS BY RING OPENING METATHESIS POLYMERIZATION**

80

1. Synthesis of AB Diblock Copolymers / 82
2. Synthesis of ABA Triblock Copolymers / 88

#### **6 SYNTHESIS OF BLOCK COPOLYMERS BY A COMBINATION OF DIFFERENT POLYMERIZATION METHODS**

91

1. Synthesis of Block Copolymers by Anionic to Cationic Mechanism Transformation / 92
2. Synthesis of Block Copolymers by Anionic to Living Free Radical Mechanism Transformation / 94
3. Synthesis of Block Copolymers by Cationic to Anionic Mechanism Transformation / 97
4. Synthesis of Block Copolymers by Cationic to Onium Mechanism Transformation / 98
5. Synthesis of Block Copolymers by Cationic to Living Free Radical Mechanism Transformation / 100
6. Synthesis of Block Copolymers by Living Free Radical to Cationic Mechanism Transformation / 102
7. Synthesis of Block Copolymers by Ring Opening Metathesis to Living Free Radical Mechanism Transformation / 103
8. Synthesis of Block Copolymers by Ring Opening Metathesis to Group Transfer Mechanism Transformation / 104
9. Other Combinations / 105
10. Bifunctional (DUAL) Initiators / 107
11. Synthesis of Block Copolymers by Direct Coupling of Preformed Living Blocks / 107
12. Synthesis of Block Copolymers by Coupling of End-functionalized Prepolymers / 110

<b>7</b>	<b>SYNTHESIS OF BLOCK COPOLYMERS BY CHEMICAL MODIFICATION</b>	<b>114</b>
1.	Hydrogenation / 115	
2.	Hydrolysis / 116	
3.	Quaternization / 117	
4.	Sulfonation / 118	
5.	Hydroboration/Oxidation / 119	
6.	Epoxidation / 121	
7.	Chloro/BromoMethylation / 121	
8.	Hydrosilylation / 123	
<b>8</b>	<b>NONLINEAR BLOCK COPOLYMERS</b>	<b>126</b>
1.	Star Block Copolymers / 126	
2.	Graft Copolymers / 134	
3.	Miktoarm Star Copolymers / 142	
4.	Other Complex Architectures / 156	
	<b>MOLECULAR CHARACTERIZATION OF BLOCK COPOLYMERS</b>	<b>173</b>
<b>9</b>	<b>MOLECULAR CHARACTERIZATION OF BLOCK COPOLYMERS</b>	<b>175</b>
1.	Purification of Block Copolymers by Fractionation / 175	
2.	Molecular Characterization / 177	
	<b>SOLUTION PROPERTIES OF BLOCK COPOLYMERS</b>	<b>195</b>
<b>10</b>	<b>DILUTE SOLUTIONS OF BLOCK COPOLYMERS IN NONSELECTIVE SOLVENTS</b>	<b>197</b>
<b>11</b>	<b>DILUTE SOLUTIONS OF BLOCK COPOLYMERS IN SELECTIVE SOLVENTS</b>	<b>203</b>
1.	Thermodynamics of Micellization / 203	
2.	Phenomenology of Block Copolymer Micellar Structure / 206	
3.	Experimental Techniques for Studying Micelle Formation / 207	
4.	Equilibrium Structure of Block Copolymer Micelles / 215	

**X**

<b>16</b>	<b>VISCOELASTIC PROPERTIES OF BLOCK COPOLYMERS</b>	<b>298</b>
1.	Localization of the (Apparent) Order-to-Disorder Transition / 300	
2.	Viscoelastic Spectrum of Block Copolymers / 301	
3.	Viscoelastic Response of Ordered Phases / 303	
4.	Flow-induced Alignment of Block Copolymer Melts / 305	
<b>17</b>	<b>PHASE TRANSFORMATION KINETICS</b>	<b>313</b>
1.	Detection and Analysis of the Ordering Kinetics / 314	
2.	The Equilibrium Order-to-disorder Transition Temperature / 318	
3.	Effect of Fluctuations / 320	
4.	Grain Growth / 322	
5.	Effect of Block Copolymer Architecture / 325	
6.	Transitions Between Different Ordered States / 327	
<b>18</b>	<b>BLOCK COPOLYMERS WITH STRONGLY INTERACTING GROUPS</b>	<b>335</b>
1.	Cylinder-forming Functionalized SI Diblock Copolymers / 337	
2.	Lamellar-forming Functionalized Diblock and Triblock Copolymers / 340	
3.	ABC Block Copolymers With a Short but Strongly Interacting Middle Block / 342	
4.	Effect of Salt on the Lamellar Spacing and Microdomain Morphology / 344	
<b>19</b>	<b>BLOCK COPOLYMER MORPHOLOGY</b>	<b>346</b>
1.	Rod-Coil Copolymers / 346	
2.	ABC Triblock Terpolymers / 352	
3.	More Complexity With ABCs / 353	
4.	ABC Miktoarm Star Terpolymers With Amorphous Blocks / 355	
5.	ABC Star Terpolymers With Crystallizable Blocks / 357	
6.	Architecture-induced Phase Transformations / 358	
<b>20</b>	<b>BLOCK COPOLYMER DYNAMICS</b>	<b>362</b>
1.	Dynamic Structure Factor of Disordered Diblock Copolymers / 362	
2.	Dynamic Structure Factor of Ordered Diblock Copolymers / 366	
3.	Dielectric Relaxation in Diblock Copolymers in the Disordered and Ordered Phases / 370	

- 4. Dynamic Interfacial Width in Block Copolymers / 373
- 5. Dielectric Relaxation in Block Copolymer/  
Homopolymer Blends / 376

**V APPLICATIONS** **383**

**21 BLOCK COPOLYMER APPLICATIONS** **385**

- 1. Commercialized Applications / 386
- 2. Potential Applications / 397

**Index** **409**
