xiv CONTENTS

6.3 Results and discussion		63	
		6.3.1 Oxidative stress resistance is dependent on growth	
		phase, strain and medium	63
		6.3.2 Defence mechanisms against hydrogen peroxide are	
		dependent on strain and medium	63
		6.3.3 Cellular damage	66
		6.3.4 Oxidative stress during the brewing process	67
		6.3.5 Propagation	67
		6.3.6 Pitching	68
		6.3.7 Storage and acid washing	69
		6.3.8 Serial repitching	70
	6.4	Conclusions	71
