

OSBORNE 

The Complete Reference

CD-ROM includes 50+
Word, Excel, and PowerPoint
templates—plus sample files

Office XP

Get the most from Word,
Excel, PowerPoint,
Access, Outlook, Internet
Explorer, and Publisher

Communicate with words,
numbers, or images over
digital or paper media

Control your own
information environment
with the new Office XP
program interface

Stephen L. Nelson

Author of more than 50 computer books

Julia Kelly

Author, consultant, and Microsoft instructor

Introduction	xxxi

Part I

■ ■ 1	What Is Office?	3
	An Overview of Office	4
	What Is Word?	4
	What Is Excel?	5
	What Is PowerPoint?	7
	What Is Outlook?	8
	What Is Internet Explorer?	8
	What Is Access?	10
	What Is Publisher?	11
	How the Parts of Office Fit Together	13

■ 2	Managing Document Files	15
	Saving Document Files	16
	Saving a Document File for the First Time	16
	Resaving a Document File	17
	Saving a Document File with a New Name	17
	Creating Backup Document Files	18
	Protecting Your Document Files and Using Passwords	19
	Opening Document Files	21
	The Basics of Opening Documents	
	from Within an Office Program	22
	Searching the Web	23
	Using the Folder Icons	23
	Changing the Open Dialog Box's File Listing	
	Information	23
	Using the Tools Menu	24
	Using the Shortcut Menu	26
	Creating New Document Files	27
	Creating a New PowerPoint Presentation	27
	Creating a New Outlook Item	27
	Creating a New Access Database	27
	Creating a New Publisher Publication	27
	Creating New Word Documents and Excel Workbooks	28
	Using the File New Command	28
	Creating Your Own Document File Templates	29
	Working with Document File Properties	29
	Describing Document File Properties	30
	Entering and Viewing Document File Properties	31
	Searching for Lost Document Files	31
	Using the Search Feature	31
	Searching for Specific Text or Properties	32
	Printing Document Files	34
	Printing Basics	34
	Setting Print Options in Word	36
	Setting Print Options in Excel	37
	Setting Print Options in PowerPoint	37
	Setting Print Options in Outlook	39
	Setting Print Options in Internet Explorer	39
	Setting Print Options in Access	40
	Setting Print Options in Publisher	40
	Controlling Page Setup in Office Programs	40
	Page Setup Basics	40
	Making Page Setup Changes in Word	41
	Making Page Setup Changes in Excel	43

	Making Page Setup Changes in Outlook	47
	Making Page Setup Changes in Access	47
	Using Print Preview	48
■ ■ ■ 3	Using the Common Office Tools	49
	Getting Help from the Ask A Question Box	50
	Using the Help Program	51
	Spell Checking Your Document Files	53
	Spell Checking in Word	53
	Spell Checking in Excel	55
	Spell Checking in PowerPoint	56
	Spell Checking in Access	56
	Spell Checking in Publisher	57
	Spell Checking in Outlook	58
	Using AutoCorrect	58
	Working with Toolbars and Menus	59
	Working with the Common Editing Tools	61
	Using the Cut, Copy, and Paste Toolbar Buttons	61
	Using the Clipboard	63
	Using the Paste Special Command	64
	Using the Format Painter Button	65
	Using the Undo and Redo Toolbar Buttons	66
	Using the Clear Command	67
	Using the Repeat Command	67
	Using the Find and Replace Commands	68
	Using the Edit Menu's Find Command	68
	Using the Edit Menu's Replace Command	70
	Working with the Formatting Toolbar	71
	Using the Formatting Toolbar	72
	Reviewing the Formatting Toolbar's Buttons	72
	Using the Drawing Tools	76
	Displaying the Drawing Toolbar	77
	Reviewing the Drawing Toolbar's Tools	77
	Drawing Objects	79
	Editing, Moving, and Resizing Drawing Objects	81
	Working with Text Boxes	82
	Formatting Drawing Objects	82
	Working with the Draw Button	82
	Working with the Clip Gallery	85
	Inserting Clip Art into a Document File	85
	Editing Clip Art Elements	87
	Working with Macros	89

■ ■ ■	4	Customizing the Office Programs	93
		Customizing a Toolbar	94
		Manipulating the Toolbars	95
		Removing and Adding Toolbar Buttons	96
		Creating Your Own Toolbar	100
		Restoring, Deleting, and Renaming Toolbars	100
		Changing What's on the Menus	102
		Creating Your Own Menu	102
		Adding, Removing, and Repositioning Commands	104
		Restoring and Renaming Menus	106
		Changing Keyboard Shortcuts	107
		Assigning a New Keyboard Shortcut	107
		Removing and Restoring Keyboard Shortcuts	109
		Using the Tools Menu's Options Commands	110
■ ■ ■	5	Sharing Information	111
		Moving and Sharing Information	112
		Understanding Linking and Embedding	112
		Embedding and Linking Objects	113
		Importing and Exporting Document Files	120
		Importing Using the Open Command	120
		Exporting Using the Save As Command	121
		Sharing Document Files with the Apple Macintosh	122
		Sharing Document Files	123
		Sharing Document Files in a Workgroup	123
		Using the File Menu's Send To Commands	127
■ ■ ■	6	Web Publishing with Office	131
		Saving Office Documents As Web Pages	132
		Special Options for Saving PowerPoint Web Pages	135
		Special Options for Saving Excel Web Pages	139
		Using the Web Toolbar	142
		Including Hyperlinks on Your Web Pages	143
		Inserting Hyperlinks to a File or a Web Page	144
		Inserting a Hyperlink to an E-Mail Address	146
		Editing a Hyperlink	146
		Deleting a Hyperlink	147
		Web Publishing with Word	147
		Using the Web Page Wizard to Create a Web Page	147
		Using Word's Web Page Templates	152
		Using the Web Tools Toolbar	152
		Working in Design Mode	152
		Inserting Scrolling Text	154

Inserting a Drop-Down Box	155
Inserting Movies and Sounds	157
Web Publishing with PowerPoint	158
Using the AutoContent Wizard to Create a Web Page ...	158
Web Publishing with Access	160
Creating Data Access Pages	160
Modifying Data Access Pages	162
Web Publishing with Publisher	163
Creating a Web Site	164
Adding Web Content	165
Using Web Design Gallery Objects	167

Part II

■ ■ ■ 7	Laying Out a Document	171
	Laying Out the Text	172
	Hyphenating Text	172
	Controlling Where Text Falls on the Page	178
	Aligning Text on the Page	184
	Handling Dashes and Quotation Marks	187
	Laying Out the Page	190
	Indenting Text	191
	Section Breaks for Drastic Layout Changes	196
	Adjusting Space Between Lines and Paragraphs	197
	Adjusting the Space Between Paragraphs	199
	Numbering a Document's Pages	200
	Putting Headers and Footers on Pages	205
■ ■ ■ 8	Working Faster and Better	211
	Moving Quickly in Documents	212
	Keyboard and Scroll Bar Techniques	
	for Going Long Distances	212
	Using the Select Browse Object Button to Get Around ...	214
	Using the Go To Command to	
	Move to Numbered Pages and More	216
	Moving Around with the Document Map	217
	Using Bookmarks to Get from Place to Place	218
	Different Ways to View Your Work	219
	Word's Six Document Views	219
	Working in More Than One Place at a Time	222

Techniques for Entering Text and Graphics Quickly	225
AutoText for Entering Text and Graphics	226
Using the AutoCorrect Feature to Enter Text Quickly	228
Searching for the Right Word with the Thesaurus	231
Fast Ways to Select Text	232
Selecting Text with the Mouse	232
"Extending" a Selection	233
Advanced Techniques for Copying and Moving Text	233
Copying Text Quickly	234
Advanced Technique for Moving Text	239
Finding and Replacing Text and Other Things	239
Finding Text and Text Formats in Documents	240
Replacing Text with Text and Formats with Formats	242
 ■ ■ 9 Styles for Consistent and Easy Formatting	247
What Is a Style, Anyway?	248
Paragraph Styles and Character Styles	250
Commands That Can Be Bundled into a Style	251
Styles and Templates	251
Creating Styles	253
Creating a Style from a Prototype Paragraph	255
Creating a Style from the Ground Up	256
Redefining a Style	258
Applying a Style in a Document	259
Working with Styles	260
Seeing Which Styles Are in Use	261
Help! Word Disregarded My Style Changes!	262
Deleting and Renaming Styles	263
Copying Styles Between Documents	265
Constructing Word Templates	266
Creating a Template for the Styles You Created	266
Assembling Styles for a Template	267
Choosing a Different Template for a Document	269
 ■ ■ 10 Creating Complex Documents with Word	271
Text Boxes for Announcements and Headings	272
Inserting a Text Box	273
Changing the Size and Shape of a Text Box	274
Positioning a Text Box on the Page	275
Flipping and Rotating Text in a Text Box	277
Removing a Text Box	277
All About Borders, Shading, and Color	277
Drawing Borders Around Text Boxes and Graphics	278

Shading and "Colorizing" Text Boxes and Graphics	280
Drawing a Border Around a Page	280
Wrapping Text Around Graphics and Text Boxes	283
Creating a Drop Cap	286
Using One of Word's "Text Effects"	288
Arranging Text in Newspaper-Style Columns	289
Creating and Adjusting Columns	290
Breaking a Column for Empty Space, a Text Box, or a Graphic	292
Creating a Heading That Straddles Columns	293
Making Text in Columns "Float" to Different Pages	294
Removing the Columns	296
Working with Tables in Word	296
Creating a Table	296
Entering and Editing Table Data	297
Formatting a Table	298

11 Automating Tedious Work	301
Using Mail Merge for Mass Mailings	302
Open or Create the Document	302
Choose or Create a Data Source	305
Insert the Data Fields	307
Run the Merge	308
Organizing Your Work	310
Organizing Your Work with Outlines	310
Lists, Lists, and More Lists	316
Creating a Numbered List	316
Working with Bulleted Lists	320
Tables of Contents and Other Sequential Items	323
Generating a Table of Contents	323
Tables for Figures, Graphs, Tables, and What All	326
Creating a Table of Authorities	328
Numbered Lines and Headings	331
Numbering the Lines on Pages	331
Numbering the Headings in a Document	333
Indexing a Document	334
Marking the Index Entries	335
Generating the Index	338
Editing and Updating an Index	339
Captions for Figures, Graphs, Tables, and What All	340
Managing Footnotes and Endnotes	341
Inserting a Footnote or Endnote	342
Editing, Moving, and Deleting Footnotes and Endnotes ...	343

Including Cross-References in Documents	344
Inserting a Cross-Reference	344
Updating the Cross-References in a Document	345
Fixing Errant Cross-References	346

Part III

12	Excel Basics	349
	Touring the Excel Program Window	350
	Touring the Workbook Window	352
	Entering Data into Cells	354
	Editing and Erasing Data	356
	Types of Cell Data	356
	Label Entry Tools	358
	Values	360
	Formulas	366
	Annotating Cells with Comments	366
	Working with Ranges	368
	Selecting Ranges	368
	Copying and Moving Worksheet Ranges	371
	Using the Fill Series Command	372
	Using AutoFill with a Mouse	374
	Using a Custom List	375
13	Excel Formulas and Functions	377
	Formula Basics	378
	Entering a Formula into a Worksheet Cell	378
	Operator Precedence	380
	Boolean Logic Operators	381
	Interpreting Error Values	382
	How Excel Recalculates Formulas	383
	Creating Linking Formulas	385
	Copying Formulas	386
	Using Functions	389
	Using the AutoSum Tool	389
	Using the Function Dialog Boxes	390
	Some Common and Useful Functions	391
	Using Cell Names and Labels	411
	Naming Cells	413
	Write Formulas with Named Cells	416
	Write Formulas with Labels	417

Converting Formula Results to Values	418
Creating Lists	418
Formatting Cells Based on Value	419
Editing Formulas	422
Using the Analysis ToolPak Functions	423
Auditing and Error-Checking Formulas	423
Tracing Precedents, Dependents, and Errors	423
Using the Go To and Info Boxes	425

14 Using the Chart Wizard	427
Understanding Data Series and Data Categories	428
Collecting the Data You Want to Chart	430
Using the Chart Wizard	431
Picking a Chart Type	436
Reviewing the Chart Types	437
Line Charts	437
Area Charts	438
Bar Charts	438
Column Charts	438
Pie Charts	439
Doughnut Charts	439
Radar Charts	440
XY (Scatter) Charts	440
Surface Charts	440
Bubble Charts	441
Stock Charts	441
Cylinder, Cone, and Pyramid Charts	442
Custom Logarithmic Charts	442
Saving Custom Charts	442
Printing Charts	443
Saving Charts	443
Sharing Charts	443
Customizing Charts	443
Adding and Editing Titles, Legends, and Data Labels ...	444
Calibrating and Organizing the Data Markers	446
Working with the Data Markers	450
Working with Trend Lines	454
Adjusting the Elevation, Rotation, and Perspective of 3-D Charts	456

15 Working with PivotTables	459
Working with Lists	460

Using the PivotTable Wizard	462
Starting the PivotTable Wizard	462
Laying Out a PivotTable	463
Taking a Closer Look at a PivotTable	465
Refreshing PivotTables	466
Modifying PivotTables	466
Pivoting PivotTables	466
Creating Page Fields	468
Adding New Fields and Deleting Existing Fields	470
Showing and Hiding Fields	472
Working with Data in PivotTables	473
Sorting Data in PivotTables	474
Grouping Data in PivotTables	474
Using PivotTable Functions	476
Using PivotTables to Create Charts	477
Importing Data into a PivotTable	479
Combining Worksheets in PivotTables	481
 ■ ■ 16 Advanced Modeling Techniques	483
Using Data Tables	484
Creating a One-Variable Data Table	484
Creating a Two-Variable Data Table	488
Using Goal Seek for Simple What-If Analysis	490
Using the Scenario Manager	492
Creating a Scenario	493
Working with Scenarios	494
Merging Scenarios from Other Sheets and Workbooks ...	496
Using the Data Consolidate Command	497
Optimization Modeling with Solver	501
Understanding Optimization Modeling	501
Using Solver	502

Part IV

 ■ ■ 17 Creating a PowerPoint Presentation	515
Creating a Presentation	516
Creating a Template with the AutoContent Wizard	516
Creating a Presentation with a Template	518
Creating a Presentation from Scratch	520
Ways of Viewing and Working on Slides	520

Inserting, Deleting, Rearranging, and Copying Slides	522
Inserting a New Slide in a Presentation	523
Deleting a Slide from a Presentation	523
Rearranging the Slides	525
Copying a Slide	525
Entering and Formatting the Text	526
Writing the Words on the Slides	526
Writing the Words You Will Speak at the Presentation ..	532
Formatting the Text on Slides	533

18 Customizing Your Presentation 535

Deciding on the Look of Slides	536
Choosing a Different Layout for a Slide	536
Applying a New Design to a Presentation	538
Choosing a Background Color for Slides	538
Using Master Slides for a Consistent, Professional Look ..	542
Including Footers on Slides	546
Giving an "Animated" Slide Presentation	547
Controlling Transitions Between Slides	547
Making Bulleted Lists on Slides Appear One Bullet at a Time	549
Animating Different Parts of a Slide	550
Including Graphs, Charts, Tables, and Columns in Slides	552
Creating an Organization Chart Slide	553
Creating a Table Slide	554
Creating a Chart Slide	555
Creating Two Columns on a Slide	556
Getting Fancy with Sound and Video	556
Inserting a Motion Clip	557
Including Sounds in Slides	557

19 Showing a Presentation 559

Dress-Rehearsing a Presentation	560
Timing a Presentation	560
Designating Some Slides As "Hidden"	562
Giving a Presentation	564
Moving from Slide to Slide	564
Techniques for Making a Show Livelier	566
Showing a Timed Kiosk Presentation	568
Printing a Presentation	569
Printing the Speaker's Notes Along with Slide Images ...	570
Making the Notes Pages Presentable	573
Printing Handouts of Slides	575
Printing Transparencies	575

20	Using Outlook for E-Mail	579
	A Quick Geography Lesson	580
	Changing Outlook Bar Groups	583
	Composing E-Mail Messages	583
	Composing a Message	584
	Replying to and Forwarding Messages	588
	Calling Recipients' Attention to Urgent Messages	591
	High- and Low-Priority Messages	592
	Flagging a Message	592
	Private, Personal, and Confidential Messages	593
	Including Files with Messages	594
	Sending Messages	595
	Sending Messages Over a Network or the Internet	595
	Choosing When Messages Are Delivered	597
	Getting Notification When Messages Are Delivered and Read	598
	Responding to Read and Delivery Requests	599
	Changing and Recalling Messages	599
	Receiving Messages	601
	Collecting and Reading Your E-Mail	601
	Speed Techniques for Reading and Handling Messages	603
	Deleting a Message	605
	Filtering Incoming Mail	605
	Opening and Storing a File That Someone Sent You	607
	Storing and Organizing Messages	607
	Creating a New Folder for Messages	608
	Moving and Copying Items to New Folders	609
	Organizing Messages in a Folder	609
21	Using Outlook As a Personal Information Manager	613
	Keeping a List of Contacts	615
	Creating New Contacts	615
	Finding a Contact in the Contacts List	617
	Mapping Contact Addresses	619
	Scheduling Appointments, Meetings, and Events with the Calendar	620
	Scheduling One-Time Appointments, Meetings, and Events	622

Scheduling Recurring Appointments, Meetings, and Events	623
Getting a Look at Your Schedule	624
Deleting, Rescheduling, and Editing Calendar Activities ...	626
Managing Your Time Better with the Tasks Folder	627
Entering Tasks in the Tasks Folder	628
Seeing the Tasks That Need to Be Done	630
Updating and Deleting Tasks on the Tasks Screen	632
Recording Day-to-Day Events in the Journal	633
Recording Entries in the Journal	633
Looking at Your Journal Entries	636
Jotting Down Reminders in the Notes Folder	636

22 Working with Newsgroups	639
Starting the Newsreader	640
What Are Newsgroups?	640
Finding and Subscribing to Newsgroups	642
Showing a List of All Newsgroups	642
Finding Newsgroups	643
Opening and Subscribing to Newsgroups	644
Working with Newsgroup Messages	644
Viewing and Opening Messages	644
Saving Messages	645
Working with Attachments	646
Posting Messages	647
Replying to a Message	649
Tidying Up Your Message Folders	649

Part VI

23 Browsing the Internet with Internet Explorer	653
An Internet and World Wide Web Primer	654
Internet Areas	654
Information-Sharing Methods	655
An Introduction to the World Wide Web	656
Connecting to the Internet	658
What Is a Modem?	658
Using Internet Explorer	660
Starting Internet Explorer	660
Working with Hyperlinks and URLs	660

	Using the Internet Explorer Toolbar	666
	Saving Information from the Internet	676
	Troubleshooting Common Problems	679
	Refining Your Browsing	683
■ 24	Using Web Components to Publish Web Data	689
	About Web Components	690
	When to Use Web Components	691
	Creating Web Pages that Use Web Components	692
	Working with Web Components	692
■ 25	Using Internet Explorer Internet Tools	697
	Installing Internet Explorer Internet Tools	698
	Using Outlook Express	699
	How Outlook Express Differs from Outlook	700
	Working in the Outlook Express Program Window	701
	Composing Messages	703
	Using MSN Messenger	706
	Setting Up MSN Messenger	707
	Sending an Instant Message with MSN Messenger	708
	Sending a File with MSN Messenger	710

Part VII

■ 26	Creating an Access Database	715
	What Access Looks Like	716
	How a Relational Database Works	718
	Tables, Records, and Fields	720
	Forms, Queries, and Reports	721
	Designing Your Database	724
	Two Ways to Create a Database	725
	Creating a Database with the Database Wizard	726
	Creating a Database from Scratch	728
	Creating Database Tables	728
	Creating a Table in Datasheet View	731
	Creating a Table in Design View	732
	Creating a Table with the Table Wizard	735
	Creating a Table by Importing	736
	Creating a Table by Linking	737

27	Refining Tables and Creating Relationships	741
	Opening a Database Table	742
	Refining and Customizing a Table	743
	Creating a New Field	744
	Moving, Copying, Renaming, and Deleting Fields	747
	Setting Field Properties to Control Data Accuracy	748
	Creating a Lookup Field	753
	Setting Primary Keys	758
	Understanding Table Relationships	759
	Three Types of Relationships	760
	Creating Table Relationships	761
	Recognizing Many-to-Many Relationships	765
	Creating a Many-to-Many Relationship	766
	Creating a Junction Table	767
	Creating the Junction Table Relationships	769
28	Entering Data, Using Forms, and Exporting Data	771
	Entering Data	772
	Entering Data in a Datasheet	772
	Creating and Using Forms	778
	Creating a Form	779
	Entering and Editing Data in a Form	798
	Exporting Data to Other Programs and Databases	801
	Copying a Table to a Different Database	801
	Copying a Table to Another Access Database	801
	Copying a Table Within a Database	802
	Copying a Table to an Excel Workbook	803
29	Sorting, Filtering, and Querying Data	805
	Sorting Records	806
	Sorting Records by a Single Field	806
	Sorting Records by Multiple Fields	807
	Searching for Specific Records	810
	Filtering Records	811
	Filtering Records with One Criterion OR Another	812
	Filtering Records with One Criterion AND Another	814
	Creating Queries	817
	Deciding What Information You Need	818
	Creating a Single-Table Query	818
	Creating a Two-Table Query	821
	Sorting a Query	823
	Adding Criteria to a Query	825

Customizing Queries	828
Setting Parameters for a Query	828
Using Calculations in Queries	830
Concatenating (Joining) the Entries in Two Fields	830
Creating a Query that Consolidates Data	831
Creating a Query that Calculates Data	834
Creating a Crosstab Query	835
Putting Action Queries to Work	839
Using a Make-Table Query to Make a New Table	841
Using Append Queries to	
Combine Tables or Eliminate Duplications	843
Using a Delete Query to Delete Records	845
Using an Update Query to Edit Records	847
 ■ 30 Creating Reports and Mailing Labels	851
Creating Reports	853
Choosing the Data for Your Report	853
Choosing a Method of Creation	854
Customizing a Report	860
Printing a Report	869
Printing a Datasheet	870
Creating Mailing Labels	870
Sending a Report Out of the Database	873
Creating a Data Access Page	873
Creating a Report Snapshot	874
 Part VIII	
 ■ 31 Laying Out a Publication	877
Creating a Quick Publication	878
Creating a Publication from Scratch	881
Setting Whole-Publication Features	885
Creating Layout Guides	885
Inserting Page Numbers	886
Setting the Hyphenation Zone	887
Enter Personal Information	887
Creating a Custom Color Scheme	889
 ■ 32 Adding Content to a Publication	891
An Introduction to the Publisher Working Environment	892
Zooming	892
Using Boxes	892

Adding Textual Content	895
Typing Text in Text Boxes	895
Inserting Text Files in Text Boxes	896
Creating New Text Boxes	897
Working with Connected Boxes	897
Setting Text Box Properties	898
Formatting Text	900
Adding Pictures	905
Inserting Pictures in Existing Picture Frames	905
Creating New Picture Frames	906
Setting Picture Frame Properties	907
Adding Other Objects	908
Working with the Design Gallery	908
Adding WordArt	911
Inserting Tables	914
Adding and Deleting Pages	915
Checking the Design	915
 ■ ■ 33 Publishing	 919
Printing a Publication Yourself	920
Using a Commercial Printer	920
Using Publisher's Commercial Printing Tools	923
Colors	923
Printing Separations and Composites	923
Trapping	926
Fonts	927
Using the Pack and Go Wizard	929

Part IX

 ■ ■ A Installing Microsoft Office XP	 933
Before You Install Office XP	934
Installing Office XP for the First Time	935
Running Outlook for the First Time	938
Changing the Office Setup with Maintenance Mode	938
 ■ ■ B Introducing the Customer Manager	 941
 ■ ■ C Using the Companion CD	 945
How to Use the Example Documents	946
Copying Files to Your Computer	946

Office XP: The Complete Reference

Copying Headstart Templates to Your Computer	947
Opening a Headstart Template You've Saved on Your Computer	947
Headstart Templates on the CD	948
The Excel Templates	948
The PowerPoint Templates	964
The Word Templates	965

Index	967
