

CRASH COURSE

Renal and Urinary Systems

SECOND EDITION

Datta, Mirpuri, Patel

Faculty Advisor Kevin Harris

Series Editor Dan Horton-Szar

- New edition of the best-selling revision tool for basic sciences integrating clinical topics
- Concise text and clear illustrations make information accessible and easy to retain
- Expanded self-assessment section including MCQs and short-answer questions

Contents

Preface	v	5. The Lower Urinary Tract	97
Acknowledgements	vii	Organization of the lower urinary tract	97
Dedication	viii	Micturition	102
		Congenital abnormalities of the urinary tract	104
		Urinary tract obstruction and urolithiasis	106
		Inflammation of the urinary tract	109
		Neoplastic disease of the urinary tract	111
		Disorders of the prostate	113
Part I: Basic Medical Science of the Renal and Urinary Systems	1	Part II: Clinical Assessment	117
1. Basic Principles	3	6. Common Presentations of Renal Disease	119
Overview of the kidney and urinary tract	3	Blood and urine abnormalities	119
Fluid compartments of the body	3	Hyperuricaemia	122
		Disorders of serum sodium and potassium	124
		Renal failure	124
		Renal calculi	130
		Urinary incontinence	132
		Urinary tract infection	135
		Other presentations of renal disease	136
2. Organization of the Kidneys	13	7. History and Examination	141
Development of the kidneys	13	Taking a history	141
General organization of the kidneys	13	General inspection	143
Glomerular structure and function	20	Hands and limbs	144
Transport processes in the renal tubule	24	Thorax	146
The proximal tubule	27	Abdomen	147
The loop of Henle	33		
3. Renal Function	39	8. Investigation and Imaging	153
Renal blood flow and the glomerular filtration rate (GFR)	39	Testing the blood and urine	153
Body fluid osmolality	42	Imaging and other investigations	154
Body fluid volume	48		
Regulation of body fluid pH	50	Part III: Self-Assessment	165
Regulation of calcium and phosphate	56	Multiple-choice Questions (MCQs)	167
Regulation of potassium and magnesium	59	Short-answer Questions (SAQs)	175
Regulation of erythropoiesis	61	Essay Questions	177
		MCQ Answers	179
		SAQ Answers	187
4. The Kidneys in Disease	63	Index	191
Congenital abnormalities of the kidney	63		
Cystic diseases of the kidney	63		
Diseases of the glomerulus	67		
Glomerular lesions in systemic disease	73		
Diseases of the tubules and interstitium	75		
Diseases of the renal blood vessels	79		
Neoplastic disease of the kidney	81		
Renal responses to systemic disorders	83		
Interventions in renal disease	89
