

**CRASH COURSE**

# Respiratory System

**SECOND EDITION**

**McGowan, Jefferies, Turley**

Faculty Advisor Ian Adcock

Series Editor Dan Horton-Szar

- New edition of the best-selling revision tool for basic sciences integrating clinical topics
- Concise text and clear illustrations make information accessible and easy to retain
- Expanded self-assessment section including MCQs and short-answer questions

# Contents

Preface .....	v	6. <b>Control of Respiratory Function</b> .....	101
Acknowledgements .....	vii	Control of ventilation .....	101
		Coordinated responses of the respiratory system .....	108
		Respiratory response to extreme environments .....	111
		Drugs and the respiratory system .....	113
		Respiratory support .....	119
<b>Part I: Basic Medical Science of the Respiratory System</b> .....	<b>1</b>	<b>7. Disorders of the Lungs</b> .....	<b>123</b>
1. <b>Overview of the Respiratory System</b> .....	<b>3</b>	Introduction .....	123
Overall structure and function .....	3	Congenital abnormalities .....	124
Basic concepts in respiration .....	4	Atelectasis .....	125
Control of respiration .....	8	Infections of the lung .....	126
Other functions of the respiratory system .....	8	Disorders of the airways .....	132
2. <b>The Upper Respiratory Tract</b> .....	<b>11</b>	Disorders of the pulmonary vessels .....	143
Organization of the upper respiratory tract .....	11	Disorders of the lung interstitium .....	149
Development of the upper respiratory tract .....	15	Neoplastic disease of the lung .....	156
Disorders of the nose .....	17	Diseases of iatrogenic origin .....	162
Disorders of the pharynx .....	20	Diseases of the pleura .....	164
Disorders of the larynx .....	21	Neoplasms of the pleura .....	166
3. <b>The Lower Respiratory Tract</b> .....	<b>25</b>	<b>Part II: Clinical Assessment</b> .....	<b>169</b>
Organization of the lower respiratory tract .....	25	8. <b>Presentations of Respiratory Disease</b> ..	<b>171</b>
Development of the lower respiratory tract .....	33	Common presentations .....	171
The pulmonary circulation .....	34	Acute presentations .....	177
Defence mechanisms of the lungs .....	37	9. <b>History and Examination</b> .....	<b>181</b>
Metabolic functions of the lungs .....	40	Taking a history .....	181
The effect of smoking on the lower respiratory tract .....	42	Communication skills .....	183
4. <b>Ventilation and Gas Exchange</b> .....	<b>43</b>	Examination .....	184
Overview .....	43	10. <b>Investigations and Imaging</b> .....	<b>201</b>
Ventilation .....	43	Introduction .....	201
Mechanics of breathing .....	48	Routine investigations .....	201
Dynamics of ventilation .....	60	More invasive procedures .....	205
Gaseous exchange in the lungs .....	65	Histopathology .....	205
5. <b>Perfusion and Gas Transport</b> .....	<b>73</b>	Investigations of pulmonary function ...	206
Overview .....	73	Imaging of the respiratory system .....	214
Pulmonary blood flow .....	73	<b>Part III: Self-assessment</b> .....	<b>225</b>
The ventilation: perfusion relationship ...	80	Multiple-choice Questions (MCQs) ....	227
Gas transport in the blood .....	86	Short-answer Questions (SAQs) .....	237
Acid-base balance .....	94	Essay Questions .....	239
		MCQ Answers .....	241
		SAQ Answers .....	249
		Index .....	253
